Handbook on Enterprise Architecture

With 237 Figures
and 23 Tables

Springer

Contents

Preface

..... V

1 Introduction

<i>Peter Bernus, Laszlo Nemes</i>	1
1.1 Enterprise Architecture	1
1.2 The Business Process Perspective.....	9
1.3 Extended, Virtual Enterprises	10
1.4 Enterprise Integration Methods	12
1.5 The Generalised Enterprise Reference Architecture And Methodology (The GERAM Enterprise Architecture Framework) ..	13
References	17

Part I Architecture Frameworks - Organising Enterprise Architecture Knowledge

2 GERAM - The Generalised Enterprise Reference Architecture and Methodology

<i>IFIP-IFAC Task Force on Architectures for Enterprise Integration</i>	22
2.1 Introduction	22
2.2 The Framework for Enterprise Engineering and Enterprise Integration	24
2.3 Description of GERAM Framework Components	28
2.4 Historical Note.....	60
References	62

3 A Mapping of Individual Architecture Frameworks (GRAI, PERA, C4ISR, CIMOSA, ZACHMAN, ARIS) onto GERAM

<i>Ovidiu Noran</i>	65
3.1 Introduction	65
3.2 Life Cycle Phases	68

3.3 Life History: The Timeline Aspect in Methodologies 81
 3.4 The Modelling Frameworks of Reference Architectures 95
 3.5 Modelling Languages 122
 3.6 Methodologies 140
 3.7 Reference Models 151
 3.8 Other Relevant Constructs 167
 3.9 Enterprise Engineering Tools 185
 3.10 The Big Picture and Conclusions 199
 3.11 Glossary of Terms Used in this Chapter 203
 References 204

Part II Strategy Making and Business Planning

4 Strategy as a Creation of Corporate Future

Brane Kalpic, Krsto Pandza, Peter Bernus 213
 4.1 Introduction 213
 4.2 What is Strategy and Why it Matters? 214
 4.3 Resources and Capabilities 221
 4.4 The Strategy Process 233
 4.5 Conclusion 250
 References 251

5 Leadership: Better Relationships through Better Communication

Hugh Mackay 255
 5.1 Introduction 255
 5.2 Changing People’s Minds 256
 5.3 Defending the Cage 259
 5.4 Attitudes and Behaviour: Which Causes Which ? 262
 5.5 Is It Really People’s ‘Minds’ that We Want to Change? 265
 5.6 How Do We Change People’s Behaviour? 267
 5.7 What is the Role of Communication in all This ? 273
 5.8 What if We Can’t Change the Environment? 274
 5.9 Consultation: The Key to Managing Change 276
 References 278

6 Capability Improvement

Ted Goranson 281
 6.1 Introduction 281
 6.2 Problems and a New Role for Enterprise Modelling 282
 6.3 Agile Virtual Enterprise and Fluid Supply Chains 284
 6.4 Dimensions of Capability Improvement 286
 6.5 Conclusion 290

7 Developing the Business Model - A Methodology for Virtual Enterprises

<i>Martin Tølle, Johan Vesterager</i>	291
7.1 Introduction	291
7.2 Introducing the VE Concept	292
7.3 VERAM	294
7.4 Life History Example	296
7.5 VE Methodology (VEM)	300
7.6 Conclusion	306
References	307

8 Analysing the Present Situation and Refining Strategy

<i>Greg Uppington, Peter Bernus</i>	309
8.1 Introduction	309
8.2 The Importance of a Clear Direction: The Identification Phase	309
8.3 Significant Events and Change Initiatives	312
8.4 Organisational Performance Assessment	314
8.5 Determining the Scope of Change in Enterprise Entities Involved in the Company's Business Model - What Enterprise Entities Will Be Affected ?	315
8.6 Foundations of Change	318
8.7 The Function of the Identification Activity	319
8.8 Assessing the Present Situation and the Feasibility of the Intended Change	320
References	331

9 Developing the Enterprise Concept - The Business Plan

<i>Arturo Molina</i>	333
9.1 Introduction	333
9.2 Strategy Schools Revised	334
9.3 Framework for Enterprise Concept Definition	335
9.4 Methodology for Enterprise Concept Definition	341
9.5 Creation of the Business Concept: Mission, Vision and Intended Set of Cultural Attributes	341
9.6 Development of Strategy: A Decision-making Process	347
9.7 Definition of an Action Plan	355
9.8 Conclusion	364
References	365

Part III Defining the Requirements for Enterprise Change

10 Enterprise Modelling – The Readiness of the Organisation

<i>Ron Hysom</i>	373
10.1 Introduction – The Enterprise Problem Space	373
10.2 Perspective Dimensions	374
10.3 Stages of the Enterprise Improvement Life Cycle	375
10.4 Enterprise Dimensions	376
10.5 Structure Dimensions	377
10.6 Behaviour Dimensions	379
10.7 Value Dimensions	380
10.8 Knowledge Dimensions	381
10.9 Assessment of the Capability to Use Enterprise Modelling Technology	383

11 Modelling Function and Information

<i>Peter Bernus</i>	417
11.1 Introduction	417
11.2 Modelling the Function of the Enterprise Entity	419
11.3 Modelling Information	426
11.4 Reference Models for Function and Data Modelling	429
11.5 Conclusion	432
References	432

12 Modelling the Management System - Enterprise Management and Activities

<i>Cielito Olegario, Peter Bernus</i>	435
12.1 Introduction: The Function of the Management and Control System of Enterprise Entities	435
12.2 Modelling the Management and Control System - What Decisions and Controls are Needed ?	437
12.3 Models of the Mission Delivery Process as Used in the Design of the Decision System	444
12.4 The Nature of Decision Links - Useful Principles	448
12.5 Enterprise Building Transactions	454
12.6 A Reference Model for Creating and Sustaining Virtual Enterprises	464
12.7 Conclusion	496
References	497

13 Resource Requirements of Enterprise Management

<i>Martin Zelm</i>	501
13.1 Introduction	501
13.2 Languages to Model Processes and Resources	505
13.3 Resource Requirements Determination in the Virtual Enterprise	510
13.4 Outcomes of Resource Requirements Determination	512

References	513
------------------	-----

14 Enterprise Modelling

<i>Michael Grunninger</i>	515
14.1 Applications of Enterprise Modelling	515
14.2 Ontologies	518
14.3 Desiderata for Enterprise Modelling Ontologies	521
14.4 Languages for Enterprise Modelling	525
14.5 Ontologies for Enterprise Modelling	528
14.6 Ontologies for Sets of Enterprise Modelling Concepts	532
14.7 Challenge Problems for Enterprise Modelling	534
References	537

Part IV Developing the Master Plan - Architectural Design of the Changed Enterprise

15 Preliminary Design:

Translating Requirements to Design Specifications

<i>David Chen, Bruno Vallespir, Guy Doumeingts</i>	545
15.1 Preliminary Design and General Activity of Design	545
15.2 Main Characteristics of Preliminary Design	556
15.3 From Function & Data to Resource & Organisation: The Assignment Issue	561
15.4 Conclusion	573
References	573

16 Organisational Design

<i>Peter Bernus</i>	575
16.1 Introduction	575
16.2 The Relationship Between the Decisional and Organisational Structures	576
16.3 Defining the Organisational Structure - Organisational Fit and Principles	585
16.4 Conclusion	594
References	594

17 Application Reference Models and Building Blocks for Management and Control

<i>Michael Rosemann</i>	595
17.1 Introduction	595
17.2 Types of Reference Models	596
17.3 An Example Application Reference Model: SAP	603
17.4 Some Limitations of Existing Application Reference Models	606
17.5 Configuration of Application Reference Models	606
17.6 Conclusion and Outlook	613

References 614

18 Designing the Information Technology Subsystem

Luis M. Camarinha-Matos, Hamideh Afsarmanesh 617

18.1 Introduction 617

18.2 Integration Levels 618

18.3 Shop-floor Infrastructure Design 630

18.4 Intra-Enterprise Infrastructure Design 641

18.5 Inter-enterprise Infrastructure Design 662

18.6 Conclusion 675

References 676

Part V Case Studies

19 Ford Motor Company's Investment Efficiency Initiative: A Case Study

James L. Nevins, Robert I. Winner, Danny L. Reed 683

19.1 Introduction 683

19.2 The Need for Investment Efficiency at Ford 686

19.3 The Investment Efficiency Process 689

19.4 Basic Targets of Investment Efficiency at Ford 693

19.5 Strategies of Investment Efficiency 695

19.6 Product and Process Compatibility Tools 701

19.7 Future Small Car Program Pilot 711

19.8 Organizational Changes at Ford 715

19.9 Lessons Learned 717

19.10 Discussion Items 718

19.11 Glossary of Specific Terms Used in This Chapter 720

19.12 Acronyms 723

References 724

20 The Business Process (Quiet) Revolution; Transformation to Process Organization

Meir Levi 725

20.1 Introduction 725

20.2 Process Classification 726

20.3 Process Management with FirstStep 728

20.4 The new Business Process Construct 728

20.5 FirstStep Methodology and Process Standards 730

20.6 Deploying Process Framework with the Enterprise Process Center 731

20.7 Initial Case Report 734

20.8 Summary and Conclusion 736
