Introduction.....	xx
Self-Assessment.....	xxiv
Chapter 1	
The PMP Exam.....	1
What Is the PMP Exam Like? 2	
What Is PMI? 4	
Study and Exam-taking Strategies 5	
Study Tips 5	
Exam-taking Strategies 7	
Tips for the IT Professional 10	
Common "Conceptual" Gaps 11	
Common "Experience" Gaps 12	
Common "Terminology" Gaps 13	
What's Important to PMI? 14	
Key PMI Assumptions 15	
Exam Topics Not Covered by PMBOK 16	
Chapter 2	
Project Management Framework.....	17
The Project Management Framework 18	
What a Project Is and How It's Different from a Program 18	
What Is Project Management? 19	
The Project Management Knowledge Areas and Processes 20	
The Differences Between Core Processes and Facilitating Processes 21	
The Impact of Project Management on Other Forms of Management 21	
The Project Management Context 22	
Functional, Matrix, and Projectized Organizations 23	

- General Management Skills 26
 - Managing People Versus Leading People 26
 - Communicating 26
 - Negotiating 27
 - Problem Solving 27
- Influence of the Organization 27
- Socioeconomic and Environmental Influences 27
- Project Management Triple Constraint 28
- Process Groups 29
- The Relationship Between Project Lifecycle and Project Management Processes 30
- Customizing Process Interactions 33
- Exam Prep Questions 34
- Need to Know More? 39

Chapter 3

Project Initiation.....41

- The Importance of Project Initiation 42
- The Purpose of the Project Charter 43
 - Elements of a Project Charter 43
 - The Proper Role to Issue the Project Charter 44
 - The Importance of the Project Charter to the Project Manager 44
- The Timing and Importance of the Project Manager Assignment 45
- The Value of Project-Selection Methods 45
 - Two General Types of Project-Selection Methods 46
- Using Expert Judgment for Project Initiation 46
- Management by Objectives 47
- The Relationship to Planning Activities 48
- Project Selection Accounting Concepts 49
- Exam Prep Questions 52
- Need to Know More? 57

Chapter 4

Project Planning—Core Processes.....59

- Core Planning Process 60
- Key Analysis of the Core Planning Process 63
 - Project Plan—It's Not a Microsoft Project File 63
 - Differences Among the Project Charter, Scope Statement, WBS, Activity List, Project Schedule, and Project Plan 64
 - Differences Among the Project Initiation, Scope Planning, and Scope Definition 65

Differences Between the Scope Definition and Activity Definition	66
Work Breakdown Structure (WBS): You Shall Manage No Project Without It	67
Effective Techniques for Developing a WBS	67
Benefits of a WBS	68
Different Types of Breakdown Structures	69
The Process of Building a Project Schedule	69
Types of Task Dependencies	71
Benefits of Network Diagrams	72
Time Estimating Guidelines and Methods for Schedule Development	75
Critical Path, Lag, Lead, Slack and Other Scheduling Concepts	77
Scheduling Techniques	81
Various Methods of Presenting a Project Schedule	83
Techniques for Shortening the Schedule	83
Key Cost Estimating Factors	84
The Role of Risk Management in the Core Planning Process	86
Exam Prep Questions	87
Need to Know More?	92

Chapter 5

Project Planning—Facilitating Processes.....93

The Differences Between the Core and Facilitating Planning Processes	95
The Impact of the Facilitating Processes on the Core Processes	96
The Relationships Among Quality, Risk and Procurement, and HR Management	98
The Differences Between Risk Management Planning and Risk Response Planning	99
The Differences Among Resource Planning, Organizational Planning, and Communications Planning	100
The Purpose and Key Elements of Each Supplemental Project Plan	101
Key Factors for Communications Planning	103
Techniques for Better Project Communications	104
HR Responsibilities of the Project Manager	106
Quality Management Principles and the PMI Philosophy	106
Key PMI Quality Principles	107
Similarities Between Quality Management and Project Management	108

- Quality Responsibility 108
- Quality Costs 109
- The Differences Among Quality Planning, Quality Assurance, and Quality Control 109
- Quality Pioneers 110
- Risk Management Principles and the PMI Philosophy 111
 - Key PMI Risk Management Principles 111
 - The Common Gaps with Implementing Risk Management 112
 - The Common Sources of Project Risk 114
 - Key Risk Management Tools 115
 - Data Precision and Other Uncommon Risk Terms 116
 - How to Use Decision Tree Analysis 117
 - Types of Risk Response Strategies 119
- Procurement Management Principles and the PMI Philosophy 121
 - The Overall Procurement Management Process 121
 - Key PMI Procurement Management Principles 123
 - The Project Management Skills Used in Procurement Management 123
 - The Key Elements of the Procurement Management Plan 124
 - Key Contract Facts 124
 - Key Factors in a "Build Versus Buy" Decision 128
 - Advantages of Centralized Versus Decentralized Contracting Organizations 129
- Exam Prep Questions 130
- Need to Know More? 135

Chapter 6

- Project Management Executing Processes..... .137**
 - Project Plan Execution 138
 - Project Plan Execution Outputs 141
 - Quality Assurance 141
 - Inputs to Quality Assurance 142
 - Tools and Techniques for Quality Assurance 143
 - Quality Assurance Outputs 144
 - Team Development 144
 - Tools and Techniques for Team Development 145
 - Outputs to Team Development 146
 - Problem Solving 146
 - Types of Power 147
 - Conflict Resolution 148
 - Team Development Theories 149

Information Distribution	151
Tools and Techniques Associated with Information Distribution	152
Outputs from Information Distribution	154
Project Procurement Management	154
Inputs to Solicitation	154
Tools and Techniques for Solicitation	155
Solicitation Outputs	156
Source Selection	156
Inputs to Source Selection	158
Tools and Techniques for Source Selection	158
Outputs from Source Selection	158
Contract Administration	159
Inputs to Contract Administration	159
Tools and Techniques for Contract Administration	160
Outputs from Contract Administration	160
Exam Prep Questions	162
Need to Know More?	167
Chapter 7	
Lead Control.....	.169
Project Control Defined	170
Core Controlling Processes	170
Facilitating Processes	171
Factors That Cause Change	171
External Events That Cause Change	172
Errors and Omissions That Cause Change	172
Value-Adding Change Versus Gold Plating	172
The Purpose of Performance Reporting	173
Approving Change in Projects	174
Feedback Loop	174
Providing Corrective Action	175
Scope Control and the WBS	175
The Difference Between Scope Verification and Quality Control	176
Schedule Control	176
Cost Control	177
Using Earned Value Management	177
Quality Control	179
Tracking Risks: Risk Monitoring and Risk Control	180
Exam Prep Questions	182
Need to Know More?	187

Chapter 8	
Project Closing.....	189
Closing Process Steps	190
Contract Closeout	191
Similarities Between Contract Closeout and Administrative Closure	191
Contract Documentation That Should be Reviewed During Contract Closeout	192
The Criteria for Project Closure	192
Benefits of Lessons Learned and Why They Are Valued by PMI	193
When Administrative Closure Should be Performed	193
Methods for Ending a Contract or a Project	194
Exam Prep Questions	195
Need to Know More?	200
Chapter 9	
Professional Responsibility.....	201
Professional Responsibility and the Code of Professional Conduct	202
Where Do I Find the Information Concerning Professional Responsibility?	202
Conflict of Interest	204
Affiliations	205
Responsibilities to the Profession	205
What Are the Organizational Rules and Policies?	206
Candidate/Certificant Professional Practice	207
Advancement of the Profession	208
Responsibilities to Customers and the Public	208
Dealing with Conflicts of Interest for Your Customer	209
Performance, Qualifications, and Experience of Professional Services	209
Acting in a Professional Manner	210
Knowledge of the Project and Processes	210
Cultural Differences in a Global Economy	210
Exam Prep Questions	212
Need to Know More?	217
Chapter 10	
Practice Exam 1	.219

Chapter 11	
First Practice Exam 1.....	237
Chapter 12	
Practice Exam 2.....	249
Chapter 13	
First Practice Exam 2.....	267
