CONTENTS

Introduction	7
The Material	
The Properties of Wood	io
Species of Wood	32
Notes	40
Working with Wood	
Uses	42
The Carpenter	54
The Carpenter's Tools	67
Forms of Construction	78
Notes	83
Types and Functions of Wood Joints	
Typology	85
Classification Systems in the Literature	91
Limits to the Classification Systems	97
The Functions of Wood Joints	100
Notes	in
Wood Joints and Their Evolution	
The Role of the Tool	112
Building Tasks and Their Solutions	132
Log Construction	140
Column-and-Beam Construction	153
Roof Construction	176
The Influence of Climatic Conditions	211
Abundance and Scarcity of Timber	226
Notes	242
Wood Joints as an Expression of Aesthetic Values	
The Visible and the Invisible	247
Protection and Prestige	253
Construction and Decoration	258
Notes	265
Bibliography	266
Acknowledgements	271
Index of Persons and Buildings	272
Index of Pieces	273
Subject Index	274
