CHAPTER 1	Foundations of Eclipse RCP1
	Benefits of Eclipse.       1         How Is RCP Different from the Eclipse Workbench?       2         Eclipse RCP Architecture.       2         Equinox OSGi.       3         Core Platform.       3         Standard Widget Toolkit.       4         JFaee       5         The Eclipse Workbench.       6         Hands-on Exercise: Getting Your Feet Wet with the OSGi Console.       6         Starting a New Plug-in Project.       6         Creating the Plug-in.       9         Testing the Plug-in.       12         Using OSGi Console Commands.       15         Using Logging Services.       16         Summary.       19
LCHAPTER 2	Plug-ins: A First Glimpse
	Introducing the Eclipse Plug-in Model.       21         The Plug-in Class and BundleCohtext.       22         Manifests.

	Hands-on Exercise: Fun with a Web Browser Plug-in	.38
	Adding a Perspective Extension Point	.39
	Adding a Perspective Factory	.40
	Adding Views and Content	.41
	Testing the Plug-in	.48
	Enhancing the Web Browser.	.49
	Summary	.50
ICHAPTER 3	RCP Basics	.53
	Components of an RCP Application.	.53
	Extension Points for an RCP Application.	
	OSGi Manifest	
	Plug-in Manifest	.60
	Advisor Classes.	.61
	Plug-in Class.	.63
	Defining and Branding Products.	
	Using Features.	67
	Product Testing and Packaging.	. <u>6</u> 7
	Hands-on Exercise: An RCP Application for the Web Browser Plug-in	.68
	Adding an Application Extension Point	. 68
	Changing the Default Perspective.	70
	Modifying Advisor Classes.	70
	Adding Menu and Toolbar Extension Points	72
	Adding Commands, Key Bindings, and Handlers.	. 73
	Creating the Product Configuration File.	75
	Summary	76
CHAPTER 4	User Interface Concepts	. 77
	Hierarchical Navigation with the Common Navigator Framework	.77
	CNF Basics.	
	Using CNF Within RCP	. 79
	Concurrency Infrastructure	
	Jobs API Basics.	. <u>.</u> 84
	Using the Concurrency Infrastructure.	86
	Hands-on Exercise: A CNF File System Navigator.	93
	Creating an RCP Project Template.	. 93
	Adding CNF Extension Points,,	94
	Implementation Classes	96
	Summary	.106

ighapter 5	Forms API and Presentation Framework	107
	Forms API Basics.	107
	Common Controls	
	Form Look and Feel	111
	Custom Layouts	115
	Complex Controls.	115,
	Complex Forms	124
	Managed Forms	124
	Master/Details Form	125
	Multipage Editors	
	Hands-on Exercise: A Web Look for the Mail Template	
	Customizing the Workbench Window.	
	Customizing the Window Contents.	
	Modifying the Navigation View.	
	Modifying the Mail View.	
	Summary	138
CHAPTER 6	Help Support	141
	Configuring a Product to Use the Help System.	141
	Adding the Dependency Plug-ins.	142
	Updating the Menu Bar	
	Adding Help Content	144
	Help System Extension Points	
	TOC Pile.	
	Index File	
	Internationalization <	
	Adding Context Help Support.	
	Product Plug-in Modifications.	
	Help Plug-in Modifications.	
	Customizing the Help System	
	Hands-on Exercise: Create an Infocenterfrom Custom Documentation	
	Splitting the Documentation into Topic HTML/XHTML Files	
	Creating the Help Contents Plug-in	
	Adding a Product Configuration File to the Infocenter Plug-in. Adding a TOC to the Help Contents Plug-in	
	Adding a Help Menu to the Infocenter Plug-in.	
	Adding Help System Dependencies to the Product Configuration	
	Testing the Infocenter Plug-in.	

	Deploying the Infocenter Plug-in.	. 166
	Starting the Infocenter from the Command Line	. 166
	Customizing the Infocenter	. 168
	Summary	170
iCHAPTER 7	2D Graphics with GEF and Zest	. 173
	Draw2d—The Big Picture	173
	Using GEF.	
	Displaying Figures.	
	Exploring the GEF Shapes Example.	
	Adding EditPolicies.	
	Adding a Palette	
	Using Zest.	
	Zest Components	
	Zest Layouts	
	Hands-on Exercise: Build Your Own Advanced 2D Graphics Editor	195
	Creating the RCP Product	. 196
	Building a Zest Plug-in.	. 200
	Testing the Final Product	. 206
	Summary	. 207
ICHAPTER 8	3D Graphics for RCP with OpenGL	. 209
ICHAPTER 8		
ICHAPTER 8	OpenGL and SWT.	209
ICHAPTER 8	OpenGL and SWT	. 209 . 210
ICHAPTER 8	OpenGL and SWT.	. 209 . 210 . 211
ICHAPTER 8	OpenGL and SWT	209 210 211 211
ICHAPTER 8	OpenGL and SWT The Device-Independent Package OpenGL Bindings for SWT Creating OpenGL Scenes with JOGL and SWT	209 210 211 211 211 212
ICHAPTER 8	OpenGL and SWT	209 210 211 211 211 212 212
ICHAPTER 8	OpenGL and SWT	. 209 . 210 . 211 . 211 . 212 . 220 . 228 . 236
ICHAPTER 8	OpenGL and SWT	. 209 . 210 . 211 . 211 . 212 . 220 . 228 . 236
ICHAPTER 8	OpenGL and SWT.       •.         The Device-Independent Package.       OpenGL Bindings for SWT.         OpenGL Bindings for SWT.       Creating OpenGL Scenes with JOGL and SWT.         Setting Up for the OpenGL Scenes.       Creating the Wire Cubes Scene.         Creating the Wire Cubes Scene.       Creating the 3D Chart Scene.         Rotating and Moving the Scene.       •         Putting the Scene into an RCP View.       •	. 209 . 210 . 211 . 211 . 212 . 220 . 228 . 236 . 241 . 241
ICHAPTER 8	OpenGL and SWT.       •.         The Device-Independent Package.       OpenGL Bindings for SWT.         OpenGL Bindings for SWT.       Creating OpenGL Scenes with JOGL and SWT.         Setting Up for the OpenGL Scenes.       Creating the Wire Cubes Scene.         Creating the Wire Cubes Scene.       Creating the 3D Chart Scene.         Creating and Moving the Scene.       •         Refreshing the Scene.       •         Putting the Scene into an RCP View.       •         Hands-on Exercise: Build a Powerful 3D Earth Navigator.       •	. 209 . 210 . 211 . 211 . 212 . 220 . 228 . 236 . 241 . 241 . 242
ICHAPTER 8	OpenGL and SWT.       •.         The Device-Independent Package.       OpenGL Bindings for SWT.         Oreating OpenGL Scenes with JOGL and SWT.       Setting Up for the OpenGL Scenes.         Creating the Wire Cubes Scene.       Creating the Wire Cubes Scene.         Creating the 3D Chart Scene.       Creating and Moving the Scene.         Rotating and Moving the Scene.       •         Putting the Scene into an RCP View.       •         Hands-on Exercise: Build a Powerful 3D Earth Navigator.       WWJ Basics.	. 209 . 210 . 211 . 211 . 212 . 220 . 228 . 236 . 241 . 241 . 242 . 242
ICHAPTER 8	OpenGL and SWT.       ●.         The Device-Independent Package.       OpenGL Bindings for SWT.         OpenGL Bindings for SWT.       Creating OpenGL Scenes with JOGL and SWT.         Setting Up for the OpenGL Scenes.       Creating the Wire Cubes Scene.         Creating the Wire Cubes Scene.       Creating the 3D Chart Scene.         Creating the 3D Chart Scene.       ■.         Rotating and Moving the Scene.       ●.         Putting the Scene into an RCP View.       ■.         Hands-on Exercise: Build a Powerful 3D Earth Navigator.       WWJ Basics.         Setting Up~the Earth Navigator Project.       ●.	. 209 . 210 . 211 . 211 . 212 . 220 . 228 . 236 . 241 . 241 . 242 . 242 . 245
ICHAPTER 8	OpenGL and SWT.       •.         The Device-Independent Package.       OpenGL Bindings for SWT.         Creating OpenGL Scenes with JOGL and SWT.       Setting Up for the OpenGL Scenes.         Creating the Wire Cubes Scene.       Creating the Wire Cubes Scene.         Creating the 3D Chart Scene.       Creating the 3D Chart Scene.         Rotating and Moving the Scene.       •         Putting the Scene into an RCP View.       •         Hands-on Exercise: Build a Powerful 3D Earth Navigator.       WWJ Basics.         Setting Up-the Earth Navigator Project.       Creating the Earth Navigator View.	. 209 . 210 . 211 . 211 . 212 . 220 . 228 . 236 . 241 . 241 . 242 . 242 . 245 . 248
ICHAPTER 8	OpenGL and SWT.       •.         The Device-Independent Package.       OpenGL Bindings for SWT.         Creating OpenGL Scenes with JOGL and SWT.       Setting Up for the OpenGL Scenes.         Creating the Wire Cubes Scene.       Creating the Wire Cubes Scene.         Creating the 3D Chart Scene.       Creating and Moving the Scene.         Rotating and Moving the Scene.       •         Putting the Scene into an RCP View.       •         Hands-on Exercise: Build a Powerful 3D Earth Navigator.       WWJ Basics.         Setting Up-the Earth Navigator Project.       Creating the Earth Navigator View.         Flying to a Location Within a Globe.       •	. 209 . 210 . 211 . 211 . 212 . 220 . 228 . 236 . 241 . 241 . 242 . 242 . 245 . 248 . 250
ICHAPTER 8	OpenGL and SWT.       •.         The Device-Independent Package.       OpenGL Bindings for SWT.         Creating OpenGL Scenes with JOGL and SWT.       Setting Up for the OpenGL Scenes.         Creating the Wire Cubes Scene.       Creating the Wire Cubes Scene.         Creating the 3D Chart Scene.       Creating the 3D Chart Scene.         Rotating and Moving the Scene.       •         Putting the Scene into an RCP View.       •         Hands-on Exercise: Build a Powerful 3D Earth Navigator.       •         WWJ Basics.       Setting Up-the Earth Navigator Project         Creating the Earth Navigator View.       Flying to a Location Within a Globe.         Finding Latitude and Longitude with the Yahoo Geocoding API	. 209 . 210 . 211 . 212 . 220 . 228 . 228 . 228 . 241 . 241 . 241 . 242 . 242 . 245 . 248 . 250 . 251
ICHAPTER 8	OpenGL and SWT.       •.         The Device-Independent Package.       OpenGL Bindings for SWT.         Creating OpenGL Scenes with JOGL and SWT.       Setting Up for the OpenGL Scenes.         Creating the Wire Cubes Scene.       Creating the Wire Cubes Scene.         Creating the 3D Chart Scene.       Creating and Moving the Scene.         Rotating and Moving the Scene.       •         Putting the Scene into an RCP View.       •         Hands-on Exercise: Build a Powerful 3D Earth Navigator.       WWJ Basics.         Setting Up-the Earth Navigator Project.       Creating the Earth Navigator View.         Flying to a Location Within a Globe.       •	. 209 . 210 . 211 . 211 . 212 . 220 . 228 . 236 . 241 . 241 . 242 . 242 . 245 . 248 . 250 . 251 . 256

CHAPTER g	Professional Reports with the Business Intelligence	
	and Report Toolkit	261
	Using the Report Designer Within the Eclipse IDE Installing BIRT Using the Software Updates Manager	262
	Report Anatomy.	
	Getting Your Feet Wet with the Report Designer.	
	Using BIRT Within a Servlet Container.	
	Using the Report Viewer Servlet.	
	Using the JSP Tag Library.	
	Using the Report Engine API.	
	Configuring and Creating a Report Engine	
	What Kinds of Operations Can Be Done with the Report Engine?	
	Hands-on Exercise: Report Generation from the OSGi Console	
	Extending the OSGi Console	283
	Generating the Report	
	Running the Report Generator Plug-in.	
	Summary.	
ICHAPTER 10	Automated Updates	
	Updating and Installing Software the Eclipse Way	
	Defining and Configuring a Product	
	Grouping Plug-ins in Features.	
	Grouping Plug-ins Within Fragments.	
	Building an Update Site Project	
	Software Update UI Tools.	
	Using the Software Updates and Add-ons Dialog	
	Installing Software from the Command Line, Product Build Automation with the Headless Build System	
	Build Configuration	
	Build Phases	
	Hands-on Exercise: Automated Updates and Builds for RCP	
	Creating a Feature.	
	Creating an Update Site.	
	Testing and Publishing	
	Building the Product Headless.	
	Building the Product Headless from a CVS Repository	
	Summary.
