

EJB 3 Developer Guide

A Practical Guide for developers and architects to the
Enterprise Java Beans Standard

Michael Sikora

BIRMINGHAM - MUMBAI

Table of Contents

Preface	1
Chapter 1: Introduction to the EJB 3 Architecture	7
Introduction to the Java EE Architecture	7
The EJB 3 Architecture	9
EJB Container Services	11
The JPA Persistence Engine	12
EJB 3 Compared with Earlier Versions	13
Getting Started	14
Installing GlassFish	14
Testing the Installation	16
Accessing the Administrator Console	17
Shutting Down GlassFish	19
Downloading Example Source Code	19
Summary	19
Chapter 2: Session Beans	21
Introduction	21
Stateless Session Beans	22
Annotations	23
Creating a Session Bean Client	25
Running the Example	26
The Program Directory Structure	28
The Ant Build Script	29
The Application Client Container	31
Building the Application	32
Stateless Session Bean's LifeCycle	34
Stateful Session Beans	36
Stateful Session Bean's LifeCycle	39
Local Interfaces	41
Summary	44

Chapter 3: Entities	45
Introduction	45
EJB 3 Entities	46
Comparison with EJB 2.x Entity Beans	47
Mapping an Entity to a Database Table	48
Introducing the EntityManager	49
Packaging and Deploying Entities	53
The Program Directory Structure	53
Building the Application	54
Field-Based Annotations	56
Generating Primary Keys	57
Table Strategy	57
Sequence Strategy	58
Identity Strategy	59
Auto Strategy	59
Overriding Metadata Defaults	60
Summary	62
Chapter 4: Object/Relational Mapping	63
O/R Mapping Default Behavior	63
A Banking Example Application	64
Customer Entity	65
Account Entity	68
Address Entity	69
Referee Entity	70
Testing the Application	71
O/R Mapping Overriding Defaults	74
Customer Entity	75
Account Entity	79
Address Entity	80
BankServiceBean	82
O/R Mapping Additional Annotations	84
Referee Class	88
BankServiceBean	88
Composite Primary Keys	89
O/R Inheritance Mapping	91
SINGLE_TABLE Strategy	92
JOINED Strategy	94
Table per Concrete Class Strategy	95
Summary	96

Chapter 5: The Java Persistence Query Language	97
Introduction	97
Simple Queries	98
Projection	99
Conditional Expressions	99
Aggregate Functions	101
GROUP BY	102
HAVING	102
Queries with Relationships	103
Joins	103
Inner Joins	103
Outer Joins	104
Fetch Joins	104
Collection Comparison Expressions	105
Constructor Expressions	105
SubQueries	106
Functions	107
CONCAT	107
SUBSTRING	107
TRIM	107
LOWER and UPPER	107
LENGTH	108
LOCATE	108
ABS	108
SQRT	108
MOD	108
SIZE	109
Queries with Parameters	109
Positional Parameters	109
Named Parameters	110
Named Queries	110
Handling Date and Time	112
@Temporal annotation	112
Queries with Date Parameters	113
Datetime Functions	113
Bulk Update and Delete	114
Native SQL	114
Summary	118

Chapter 6: Entity Manager	119
Application-managed Entity Manager	119
Entity Manager Merge	123
Entity Manager Methods	124
remove()	124
contains()	125
flush()	125
setFlushMode()	125
refresh()	126
clear()	126
Cascade Operations	126
persist	126
remove	127
merge	127
refresh	127
all	128
Extended Persistence Context	128
Entity LifeCycle Callback Methods	130
Entity Listeners	131
Summary	134
Chapter 7: Transactions	135
Introduction	135
Container-Managed Transaction Demarcation	136
SUPPORTS	137
NOT_SUPPORTED	137
REQUIRED	137
REQUIRES_NEW	137
MANDATORY	137
Never	138
Examples of Transaction Attributes	138
REQUIRED Example	138
REQUIRES_NEW Example	140
NOT_SUPPORTED Example	141
SUPPORTS Example	141
MANDATORY Example	143
NEVER Example	144
Controlling Container Managed Transactions	145
SessionSynchronization Interface	146
Doomed Transactions	148
Concurrency and Database Locking	149

Isolation Levels	149
Lost Update Problem	151
Versioning	152
Read and Write Locking	154
UserTransaction Interface	154
Summary	158
Chapter 8: Messaging	159
Introduction	159
Java Message Service (JMS) API	160
Queue Producer and Consumer Examples	161
Synchronous Queue Consumer Example	163
Running the Queue Producer and Synchronous Queue Consumer Examples	165
An Asynchronous Queue Consumer Example	167
Running the Asynchronous Queue Consumer Example	169
Topic Producer and Consumer Examples	169
Synchronous Topic Consumer Example	170
Running the Topic Producer and Synchronous Topic Consumer Examples	171
An Asynchronous Topic Consumer Example	172
Running the Asynchronous Topic Consumer Example	173
Motivation for Message-Driven Beans	174
A Simple Message-Driven Bean Example	174
A Session Bean Queue Producer	174
A Message-Driven Bean Queue Consumer	176
MDB Activation Configuration Properties	177
acknowledgeMode	177
subscriptionDurability	178
messageSelector	179
MessageDrivenContext	179
MDB LifeCycle	180
MDB Example Revisited	181
Sending Message Confirmation to a Client	183
MDBs and Transactions	187
Summary	188
Chapter 9: EJB Timer Service	189
Introduction	189
Timer Service Examples	190
A Single Event Example	190
An Interval Event Example	192
A Timer Interface Example	194
Timers and Transactions	196
Summary	197

Chapter 10: Interceptors	199
Interceptor Methods	200
Interceptor Classes	201
Default Interceptors	204
Interceptor Communication	206
Summary	209
Chapter 11: Implementing EJB 3 Web Services	211
Overview of Web Service Concepts	211
The SOAP Protocol	212
The WSDL Standard	213
The UDDI Standard	213
SOA and Web Services	213
Creating a Java Application Web Service	214
Creating an Endpoint Implementation Interface	216
The WSDL Document	217
The <portType> Element	218
The <binding> Element	219
The <service> Element	219
The <message> and <types> Elements	220
The GlassFish WSGEN Tool	220
Deploying a Java Application as a Web Service	222
The GlassFish Admin Console Test Harness	223
Creating a Java Web Service Client	224
Overriding JAX-WS Annotation Defaults	226
Deploying an EJB Session Bean as a Web Service	229
Packaging an EJB Web Service	230
Creating an EJB Web Service Client	230
Summary	232
Chapter 12: EJB 3 Security	233
Java EE Container Security	233
Authentication	234
GlassFish Authentication	234
Mapping Roles to Groups	235
Authenticating an EJB Application Client	237
EJB Authorization	239
Declarative Authorization	240
Denying Authorization	241
EJB Security Propagation	242
Programmatic Authorization –	243
Java EE Web Container Security	245
Web-Tier Authorization	245

Transport Layer Security	246
Web-Tier Authentication	246
Example of Web-Tier Authentication and Authorization	247
Summary	248
<u>Appendix A: Annotations and Their Corresponding Packages</u>	<u>249</u>
<u>Index</u>	<u>251</u>
