

The Economic Theory of Annuities

Eytan Sheshinski

PRIN' CETON UNIVERSITY PRESS
PRINCETON AND OXFORD

Contents

<i>Preface</i>	xiii
CHAPTER 1	
Introduction	1
1.1 Brief Outline of the Book	5
1.2 Short History of Annuity Markets	9
1.3 References to Actuarial Finance	11
CHAPTER 2	
Benchmark Calculations: Savings and Retirement	12
CHAPTER 3	
Survival Functions, Stochastic Dominance, and Changes in Longevity	15
3.1 Survival Functions	15
3.2 Changes in Longevity	18
CHAPTER 4	
Life Cycle Model with Longevity Risk: First Best and Competitive Equilibrium	21
4.1 First Best	21
4.2 Competitive Equilibrium: Full Annuitization	23
4.3 Example: Exponential Survival Function	25
4.4 Equivalence of Short-term, Long-term, and Deferred Annuities	26
Appendix	27
CHAPTER 5	
Comparative Statics, Discounting, Partial Annuitization, and No Annuities	29
5.1 Increase in Wages	29
5.2 Increase in Longevity	30
5.3 Positive Time Preference and Rate of Interest	32
5.4 Partial Annuitization: No Short-term Annuity Market	33
5.5 Partial Annuitization: Low Returns on Annuities	35
5.6 Length of Life and Retirement	35
5.7 Optimum Without Annuities	38
5.8 No Annuities: Risk Pooling by Couples	40

5.9	Welfare Value of an Annuity Market	41
5.10	Example: Exponential Survival Function	42
	Appendix	44
CHAPTER 6		
	Subjective Beliefs and Survival Probabilities	45
6.1	Deviations of Subjective from Observed Frequencies	45
6.2	Behavioral Effects	45
6.3	Exponential Example	47
6.4	Present and Future Selves	48
CHAPTER 7		
	Moral Hazard	51
7.1	Introduction	51
7.2	Comparison of First Best and Competitive Equilibrium	51
7.3	Annuity Prices Depending on Medical Care	54
	Appendix	55
CHAPTER 8		
	Uncertain Future Survival Functions	56
8.1	First Best	56
8.2	Competitive Separating Equilibrium (Risk-class Pricing)	59
8.3	Equilibrium with Short-term Annuities	60
8.4	The Efficiency of Equilibrium with Long-term Annuities	62
8.5	Example: Exponential Survival Functions	65
CHAPTER 9		
	Pooling Equilibrium and Adverse Selection	67
9.1	Introduction	67
9.2	General Model	69
9.3	Example	71
	Appendix	75
CHAPTER 10		
	Income Uncertainty	77
10.1	First Best	77
10.2	Competitive Equilibrium	78
10.3	Moral Hazard	79
CHAPTER 11		
	Life Insurance and Differentiated Annuities	81
11.1	Bequests and Annuities	81
11.2	First Best	83

11.3 Separating Equilibrium	84
11.4 Pooling Equilibrium	84
11.5 Period-certain Annuities and Life Insurance	87
11.6 Mixed Pooling Equilibrium	90
11.7 Summary	93
Appendix	94
CHAPTER 12	
Annuities, Longevity, and Aggregate Savings	97
12.1 Changes in Longevity and Aggregate Savings	97
12.2 Longevity and Individual Savings	98
12.3 Longevity and Aggregate Savings	98
12.4 Example: Exponential Survival Function	102
12.5 No Annuities	103
12.6 Unintended Bequests	104
Appendix	106
CHAPTER 13	
Utilitarian Pricing of Annuities	109
13.1 First-best Allocation	109
13.2 Competitive Annuity Market with Full Information	112
13.3 Second-best Optimum Pricing of Annuities	113
Appendix	116
CHAPTER 14	
Optimum Taxation in Pooling Equilibria	118
14.1 Introduction	118
14.2 Equilibrium with Asymmetric Information	119
14.3 Optimum Commodity Taxation	122
14.4 Optimum Taxation of Annuities	125
Appendix	129
CHAPTER 15	
Bundling of Annuities and Other Insurance Products	131
15.1 Introduction	131
15.2 Example	132
CHAPTER 16	
Financial Innovation—Refundable Annuities (Annuity Options)	135
16.1 The Timing of Annuity Purchases	135
16.2 Sequential Annuity Market Equilibrium Under Survival Uncertainty	137

xii • Contents

16.3 Uncertain Future Incomes: Existence of a Separating Equilibrium	140
16.4 Refundable Annuities	144
16.5 A Portfolio of Refundable Annuities	146
16.6 Equivalence of Refundable Annuities and Annuity Options	147
Appendix	150
<i>References</i>	153
<i>Index</i>	157
