CONTENTS

PART 1: THE INVESTMENT BACKGROUND	1		
Chapter 1: The Investment Setting	3		
What Is an Investment?	3		
<i>Investment Defined</i>	4		
Measures of Return and Risk	5		
<i>Measures of Historical Rates of Return</i>	5,		
<i>Computing Mean Historical Returns</i>	7,		
<i>Calculating Expected Rates of Return</i>	9,		
<i>Measuring the Risk of Expected Rates of Return</i>	12,		
<i>Risk Measures for Historical Returns</i>	13		
Determinants of Required Rates of Return	14		
<i>The Real Risk-Free Rate is, Factors Influencing the Nominal Risk-Free Rate (NRF) 15, Risk Premium 17, Risk Premium and Portfolio Theory 19, Fundamental Risk versus Systematic Risk 20, Summary of Required Rate of Return</i>	20		
Relationship between Risk and Return	20		
<i>Movements along the SML 21, Changes in the Slope of the SML 21, Changes in Capital Market Conditions or Expected Inflation 23, Summary of Changes in the Required Rate of Return</i>	23		
Chapter 1 Appendix: Computation of Variance and Standard Deviation	28		
Chapter 2: The Asset Allocation Decision	31		
Individual Investor Life Cycle	32		
<i>The Preliminaries 32, Investment Strategies Over an Investor's Lifetime 32, Life Cycle Investment Goals</i>	34		
The Portfolio Management Process	35		
The Need For a Policy Statement	36		
<i>Understand and Articulate Realistic Investor Goals 36, Standards for Evaluating Portfolio Performance 37, Other Benefits</i>	38		
Input to the Policy Statement	38		
<i>Investment Objectives 39, Investment Constraints</i>	42		
Constructing the Policy Statement	47		
<i>General Guidelines 47, Some Common Mistakes</i>	47		
The Importance of Asset Allocation	48		
			<i>Investment Returns after Taxes and Inflation so, Returns and Risks of Different Asset Classes si, Asset Allocation Summary 52</i>
		Chapter 2 Appendix: Objectives and Constraints of Institutional Investors	56
		Chapter 3: Selecting Investments in a Global Market	61
		The Case for Global Investments	62
		<i>Relative Size of U.S. Financial Markets 63, Rates of Return on U.S. and Foreign Securities 64, Risk of Combined Country Investments</i>	64
		Global Investment Choices	69
		<i>Fixed-Income Investments 69, International Bond Investing 73, Equity Instruments 73, Special Equity Instruments: Options 75, Futures Contracts 76, Investment Companies 76, Real Estate 78, Low-Liquidity Investments</i>	79
		Historical Risk-Returns on Alternative Investments	80
		<i>World Portfolio Performance 80, Art and Antiques 82, Real Estate 84</i>	
		Chapter 3 Appendix: Covariance	89
		Chapter 4: Organization and Functioning of Securities Markets	91
		What Is a Market?	92
		<i>Characteristics of a Good Market 92, Decimal Pricing 93, Organization of the Securities Market</i>	93
		Primary Capital Markets	94
		<i>Government Bond Issues 94, Municipal Bond Issues 94, Corporate Bond Issues 94, Corporate Stock Issues 95, Private Placements and Rule 144A</i>	96,
		Secondary Financial Markets	97
		<i>Why Secondary Markets Are Important 97, Secondary Bond Markets 97, Financial Futures 98, Secondary Equity Markets</i>	98
		Classification of U.S. Secondary Equity Markets	101
		<i>Primary Listing Markets 101, Regional Stock Exchanges 107, The Third Market 107, Alternative Trading Systems (ATSs)</i>	107
		Detailed Analysis of Exchange Markets	108

<i>Exchange Membership 108, Types of Orders 108, Exchange Market Makers 113, New Trading Systems us, Innovations for Competition 116, Future Trading Techniques and Exchange Mergers 117</i>	
Chapter 4 Appendix: Characteristics of Developed and Developing Markets around the World	121
Chapter 5: Security-Market Indexes	127
Uses of Security-Market Indexes	128
Differentiating Factors in Constructing Market Indexes	128
<i>The Sample 128, Weighting Sample Members 129, Computational Procedure 129</i>	
Stock-Market Indexes	129
<i>Price-Weighted Index 129, Value-Weighted Index 131, Unweighted Index 131, Style Indexes 133, Global Equity Indexes 133</i>	
Bond-Market Indexes	137
<i>U.S. Investment-Grade Bond Indexes 139, High-Yield Bond Indexes 139, Global Government Bond Indexes 139</i>	
Composite Stock-Bond Indexes	139
Comparison of Indexes over Time	142
<i>Correlations between Monthly Equity Price Changes 142, Correlations between Monthly Bond Indexes 142, Mean Annual Security Returns and Risk 143</i>	
Chapter 5 Appendix: Stock-Market Indexes	146
Chapter 6: Efficient Capital Markets	151
Why Should Capital Markets Be Efficient?	• 152
Alternative Efficient Market Hypotheses	153
<i>Weak-Form Efficient Market Hypothesis 153, Semistrong-Form Efficient Market Hypothesis 153, Strong-Form Efficient Market Hypothesis 153</i>	
Tests and Results of Efficient Market Hypotheses	154
<i>Weak-Form Hypothesis: Tests and Results 154, Semistrong-Form Hypothesis: Tests and Results '156; Strong-Form Hypothesis: Tests and Results 166</i>	
Behavioral Finance	170
<i>Explaining Biases 170, Fusion Investing 171</i>	
Implications 'of Efficient Capital Markets	172
<i>Efficient Markets and Technical Analysis 172, Efficient Markets and Fundamental Analysis 172, Efficient Markets and Portfolio Management 174</i>	
Chapter 7: An Introduction to Portfolio Management	181
Some Background Assumptions	181
<i>Risk Aversion 182, Definition of Risk 182</i>	
Markowitz Portfolio Theory	182
<i>Alternative Measures of Risk 183, Expected Rates of Return 183, Variance (Standard Deviation) of Returns for an Individual Investment 184, Variance (Standard Deviation) of Returns for a Portfolio 185, Standard Deviation of a Portfolio 189, A Three-Asset Portfolio 196, Estimation Issues 197, The Efficient Frontier 197, The Efficient Frontier and Investor Utility 199</i>	
Chapter 7 Appendix:	
A. Proof That Minimum Portfolio Variance Occurs with Equal Weights When Securities Have Equal Variance	203
B. Derivation of Weights That Will Give Zero Variance When Correlation Equals -1.00	204
Chapter 8: An Introduction to Asset Pricing Models	205
Capital Market Theory: An Overview	205
<i>Background for Capital Market Theory 206, Developing the Capital Market Line 207, Risk, Diversification, and the Market Portfolio 210, Investing with the CML: An Example 213</i>	
The Capital Asset Pricing Model	214
<i>A Conceptual Development of the CAPM 21s, The Security Market Line 216</i>	
Relaxing the Assumptions	
<i>Differential Borrowing and Lending Rates 222, Zero-Beta Model 223, Transaction Costs 224, "Heterogeneous Expectations and Planning Periods 225, Taxes 225</i>	
Additional Empirical Tests of the CAPM	226
<i>Stability of Beta 226, Relationship between Systematic Risk and Return 226, Summary of CAPM Risk-Return Empirical Results 228</i>	
The Market Portfolio: Theory versus Practice	228
Chapter 9: Multifactor Models of Risk and Return	237
Arbitrage Pricing Theory	238
<i>Using the APT 240, Security Valuation with the</i>	
• <i>APT: An Example 241, Empirical Tests of the APT 243</i>	
Multifactor Models and Risk Estimation	246
<i>Multifactor Models in Practice 247, Estimating Risk in a Multifactor Setting: Examples 251</i>	

		<i>General Economic Influences 319, Industry Influences 321, Company Analysis 321, Does the Three-Step Process Work? 322</i>	
Chapter 10: Analysis of Financial Statements	265		
Major Financial Statements	266		
		<i>Generally Accepted Accounting Principles 266, Balance Sheet 266, Income Statement 267, Statement of Cash Flows 267, Measures of Cash Flow 269, Purpose of Financial Statement Analysis 271</i>	
Analysis of Financial Ratios	271		
		<i>Importance of Relative Financial Ratios 271</i>	
Computation of Financial Ratios	272		
		<i>Common Size Statements 273</i>	
Evaluating Internal Liquidity	275		
		<i>Internal Liquidity Ratios 275, Inventory Turnover 277</i>	
Evaluating Operating Performance	278		
		<i>Operating Efficiency Ratios 278, Operating Profitability Ratios 280</i>	
Risk Analysis	286		
		<i>Business Risk 286, Financial Risk 288, Proportion of Debt (Balance Sheet) Ratios 291, Earnings and Cash Flow Coverage Ratios 293, Cash Flow-Outstanding Debt Ratios 295, External Market Liquidity Risk 296</i>	
Analysis of Growth Potential	297		
		<i>Importance of Growth Analysis 297, Determinants of Growth 297</i>	
Comparative Analysis of Ratios	299		
		<i>Internal Liquidity 299, Operating Performance 299, Risk Analysis 301, Growth Analysis 301</i>	
Analysis of Non-U.S. Financial Statements	301		
The Quality of Financial Statements	301		
		<i>Balance Sheet 302, Income Statement 302, Footnotes 302</i>	
The Value of Financial Statement Analysis	302		
Specific Uses of Financial Ratios	303		
		<i>Stock Valuation Models 303, Estimating the Ratings on Bonds 304, Predicting Insolvency (Bankruptcy) 305, Limitations of Financial Ratios 305</i>	
Chapter 11: An Introduction to Security Valuation	317		
An Overview of the Valuation Process	318		
Why a Three-Step Valuation Process?	319		
			Theory of Valuation 322
		<i>Stream of Expected Returns (Cash Flows) 323, Required Rate of Return 323, Investment Decision Process: A Comparison of Estimated Values and Market Prices 323</i>	
			Valuation of Alternative Investments 324
		<i>Valuation of Bonds 324, Valuation of Preferred Stock 325, Approaches to the Valuation of Common Stock 326, Why and When to Use the Discounted Cash Flow Valuation Approach 327, Why and When to Use the Relative Valuation Techniques 327, Discounted Cash Flow Valuation Techniques 328, Infinite Period DDM and Growth Companies 332, Valuation with Temporary Supernormal Growth 333, Present Value of Operating Free Cash Flows 335, Present Value of Free Cash Flows to Equity 336</i>	
			Relative Valuation Techniques 336
		<i>Earnings Multiplier Model 336, The Price/Cash Flow Ratio 339, The Price/Book Value Ratio 339, The Price/Sales Ratio 340, Implementing the Relative Valuation Technique 340</i>	
			Estimating the Inputs: The Required Rate of Return and the Expected Growth Rate of Valuation Variables 341
		<i>Required Rate of Return (k) 341, Estimating the Required Return for Foreign Securities 343, Expected Growth Rates 345, Estimating Dividend Growth for Foreign Stocks 348</i>	
		Chapter 11 Appendix: Derivation of Constant Growth Dividend Discount Model (DDM)	352
MANAGEMENT OF COMMON STOCKS			
Chapter 12: Macroanalysis and Microvaluation of the Stock Market 357			
			The Components of Market Analysis 357
		<i>Macromarket Analysis 358, Economic Activity and Security Markets 358, Economic Series and Stock Prices 359, The Cyclical Indicator Approach 359, Monetary Variables, the Economy, and Stock Prices 363, Money Supply and the Economy 363, Money Supply and Stock Prices 364, Monetary Policy and Stock Returns 364, Inflation, Interest Rates, and Security Prices 364, Analysis of World Security Markets 367</i>	
			Microvaluation Analysis 367
		<i>Applying the DDM Valuation Model to the Market 368, Market Valuation Using the Free Cash Flow to Equity (FCFE) Model 374</i>	

Valuation Using the Earnings Multiplier Approach	377	Global Industry Analysis	444
<i>Two-Part Valuation Procedure 377, Importance of Both Components of Value 377</i>		Chapter 13 Appendix:	
Estimating Expected Earnings per Share	378	A. Preparing an Industry Analysis: What Is an Industry?	450
<i>Estimating Gross Domestic Product 380, Estimating Sales per Share for a Market Series 380, Alternative Estimates of Corporate Net Profits 382, Estimating Aggregate Operating Profit Margin 382, Estimating Depreciation Expense 386, Estimating Interest Expense 388, Estimating the Tax Rate 389, Calculating Earnings per Share: An Example 389</i>		<i>Characteristics to Study 450, Factors in Industry Analysis 450, Sources of Industry Information 451</i>	
Estimating the Stock Market Earnings Multiplier	392	B. Insights on Analyzing Industry ROAs	451
<i>Determinants of the Earnings Multiplier 393, Estimating the Required Rate of Return (k) 393, Estimating the Growth Rate of Dividends (g) 393, Estimating the Dividend-Payout Ratio (D/E) 394, Estimating an Earnings Multiplier: An Example 395, Calculating an Estimate of the Value for the Market Series 398, Using Other Relative Valuation Ratios 398</i>		<i>Insights on Industry ROAs 451</i>	
Microvaluation of World Markets	401	Chapter 14: Company Analysis and Stock Valuation	453
Chapter 13: Industry Analysis	* 407	Company Analysis versus Stock Valuation	454
Why Do Industry Analysis?	408	<i>Growth Companies and Growth Stocks 454, Defensive Companies and Stocks 455, Cyclical Companies and Stocks 455, Speculative Companies and Stocks 455, Value versus Growth Investing 456</i>	
<i>Cross-Sectional Industry Performance 408, Industry Performance over Time 409, Performance of the Companies within an Industry 409, Differences in Industry Risk 410, Summary of Research on Industry Analysis 410, Industry Analysis Process 410</i>		Economic, Industry, and Structural Links to Company Analysis	456
The Business Cycle and Industry Sectors	411	<i>Economic and Industry Influences 456, Structural Influences 456</i>	
<i>Inflation 412, Interest Rates 413, International Economics 413, Consumer Sentiment 413</i>		Company Analysis	457
Structural Economic Changes and Alternative Industries	413	<i>Firm Competitive Strategies 457, Focusing a Strategy 458, SWOT Analysis 459, Some Lessons from Lynch 460, Tenets of Warren Buffett 460</i>	
<i>Demographics 413, Lifestyles 414, Technology 414, Politics and Regulations 414</i>		Estimating Intrinsic Value	461
Evaluating the Industry Life Cycle	415	<i>Present Value of Dividends 461, Present Value of Dividends Model (DDM) 46s, Present Value of Free Cash Flow to Equity 466, Present Value of Operating Free Cash Flow 467, Relative Valuation Ratio Techniques 470</i>	
Analysis of Industry Competition	« 416	Estimating Company Earnings per Share	470
<i>Competition and Expected Industry Returns 417</i>		<i>Company Sales Forecast 473, Estimating the Company Profit Margin 47s</i>	
Estimating Industry Rates of Return	418	Walgreen Co.'s Competitive Strategies	475
<i>Valuation Using the Reduced Form DDM 419, Industry Valuation Using the Free Cash Flow to Equity (FCFE) Model 426</i>		<i>The Internal Performance 476, Importance of Quarterly Estimates 478</i>	
Industry Analysis Using the Relative Valuation Approach	"* 428	Estimating Company Earnings Multipliers	478
<i>The Earnings Multiple Technique 428</i>		<i>Macroanalysis of the Earnings Multiple 480, Microanalysis of the Earnings Multiplier 480, Making the Investment Decision 486</i>	
Other Relative Valuation Ratios	440	" Additional Measures of Relative Value	487
<i>The Price/Book Value Ratio 440, The Price/Cash Flow Ratio 440, The Price/Sales Ratio 443, Summary of Industry/Market Ratios 443</i>		<i>Price/Book Value (P/BV) Ratio 487, Price/Cash Flow (P/CF) Ratio 487, Price/Sales (P/S) Ratio 488, Summary of Relative Valuation Ratios 490</i>	
		Analysis of Growth Companies	491
		<i>Growth Company Defined 491, Actual Returns above Required Returns 491, Growth Companies and Growth Stocks 492, Alternative Growth Models 492, No-Growth Firm 492, Long-Run Growth Models 493, The Real World 49s</i>	

Measures of Value Added	496	An Overview of Style Analysis	562
<i>Economic Value Added (EVA) 496, Market Value Added (MVA) 498, Relationships between EVA and MVA 498, The Franchise Factor 498, Growth Duration Model 499</i>		Asset Allocation Strategies	568
Site Visits and the Art of the Interview	503	<i>Integrated Asset Allocation 568, Strategic Asset Allocation 570, Tactical Asset Allocation 570, Insured Asset Allocation 572, Selecting an Active Allocation Method 572</i>	
When to Sell	503		
Influences on Analysts	504		
<i>Efficient Markets 504, Paralysis of Analysis 504, Analyst Conflicts of Interest 505</i>			
Global Company and Stock Analysis	505	Chapter 17: Bond Fundamentals	579
<i>Availability of Data 505, Differential Accounting Conventions 505, Currency Differences (Exchange Rate Risk) 506, Political (Country) Risk 506, Transaction Costs and Liquidity 506, Valuation Differences 506, Summary 506</i>		Basic Features of a Bond	579
		<i>Bond Characteristics 580, Rates of Return on Bonds 582, The Global Bond Market Structure 582, Participating Issuers 583, Participating Investors 585, Bond Ratings 585</i>	
Chapter 15: Technical Analysis	517	Alternative Bond Issues	587
Underlying Assumptions of Technical Analysis	518	<i>Domestic Government Bonds 587, Government Agency Issues 589, Municipal Bonds 592, Corporate Bonds 593 > International Bonds 601</i>	
Advantages of Technical Analysis	519	Obtaining Information on Bond Prices	601
Challenges to Technical Analysis	520	<i>Interpreting Bond Quotes 602</i>	
<i>Challenges to Technical Analysis Assumptions 520, Challenges to Technical Trading Rules 521</i>		Chapter 18: The Analysis and Valuation of Bonds	609
Technical Trading Rules and Indicators	521	The Fundamentals of Bond Valuation	610
<i>Contrary-Opinion Rules 522, Follow the Smart Money 524, Momentum Indicators 525, Stock Price and Volume Techniques 526</i>		<i>The Present Value Model 610, The Yield Model 612</i>	
Technical Analysis of Foreign Markets	533	Computing Bond Yields	613
<i>Foreign Stock Market Indexes 533, Technical Analysis of Foreign Exchange Rates 533</i>		<i>Nominal Yield 613, Current Yield 613, Promised Yield to Maturity 614, Promised Yield to Call 616, Realized (Horizon) Yield 617</i>	
Technical Analysis of Bond Markets	534	Calculating Future Bond Prices	618
Chapter 16: Equity Portfolio Management Strategies	539	<i>Realized (Horizon) Yield with Differential Reinvestment Rates 619, Price and Yield Determination on Noninterest Dates 620, Yield Adjustments for Tax-Exempt Bonds 621, Bond Yield Books 621</i>	
Passive versus Active Management	540	Bond Valuation Using Spot Rates	622
An Overview of Passive Equity Portfolio Management Strategies	541	What Determines Interest Rates?	623
<i>Index Portfolio Construction Techniques 542, Tracking Error and Index Portfolio Construction 543, Methods of Index Portfolio Investing 543</i>		<i>Forecasting Interest Rates 624, Fundamental Determinants of Interest Rates 625, The Term Structure of Interest Rates 628</i>	
An Overview of Active Equity Portfolio Management Strategies	548	Calculating Forward Rates from the Spot Rate Curve	633
<i>Fundamental Strategies 549, Technical Strategies 552, Anomalies and Attributes 553, Forming Momentum-Based Stock Portfolios: Two Examples 553, Tax Efficiency and Active Equity Management 558</i>		Term-Structure Theories	635
Value versus Growth Investing: A Closer Look	559	<i>Expectations Hypothesis 635, Liquidity Preference (Term Premium) Hypothesis 637, Segmented</i>	

<i>Market Hypothesis</i> 638, <i>Trading Implications of the Term Structure</i> 638, <i>Yield Spreads</i> 639		The Relationship between Forward and Option Contracts	745
What Determines the Price Volatility for Bonds? 640	640	<i>Put-Call-Spot Parity</i> 74s, <i>Put-Call Parity: An Example</i> 747, <i>Creating Synthetic Securities Using Put-Call Parity</i> 748, <i>Adjusting Put-Call-Spot Parity for Dividends</i> 749, <i>Put-Call-Forward Parity</i> 750	
<i>Trading Strategies</i> 642, <i>Duration Measures</i> 642, <i>Modified Duration and Bond Price Volatility</i> 646, <i>Bond Convexity</i> 647, <i>Duration and Convexity for Callable Bonds</i> 652, <i>Limitations of Macaulay and Modified Duration</i> 655		An Introduction to the Use of Derivatives in Portfolio Management	751
Yield Spreads with Embedded Options 663	663	<i>Restructuring Asset Portfolios with Forward Contracts</i> 752, <i>Protecting Portfolio Value with Put Options</i> 753, <i>An Alternative Way to Pay for a Protective Put</i> 755	
<i>Static Yield Spreads</i> 663			
<i>Option-Adjusted Spread</i> 664			
Chapter 19: Bond Portfolio Management Strategies	677	Chapter 21: Forward and Futures Contracts	763
Bond Portfolio Performance, Style, and Strategy	677	An Overview of Forward and Futures Trading	764
Passive Management Strategies	680	<i>Futures Contract Mechanics</i> 76s, <i>Comparing Forward and Futures Contracts</i> 767	
<i>Buy-and-Hold Strategy</i> 680, <i>Indexing Strategy</i> 681, <i>Bond Indexing in Practice: An Example</i> 681		Hedging with Forwards and Futures	767
Active Management Strategies	682	<i>Hedging and the Basis</i> 767, <i>Understanding Basis Risk</i> 768, <i>Calculating the Optimal Hedge Ratio</i> 769	
<i>Interest Rate Anticipation</i> 683, <i>Valuation Analysis</i> 68s, <i>Credit Analysis</i> 685, <i>Yield Spread Analysis</i> 689, <i>Implementing an Active Bond Transaction</i> 690, <i>Active Global Bond Investing: An Example</i> 693		Forward and Futures Contracts: Basic Valuation Concepts	770
Core-Plus Management Strategies	695	<i>Valuing Forwards and Futures</i> 770, <i>The Relationship between Spot and Forward Prices</i> 771	
Matched-Funding Management Strategies	697	Financial Forwards and Futures: Applications and Strategies	773
<i>Dedicated Portfolios</i> 698, <i>Immunitation Strategies</i> 699, <i>Horizon Matching</i> 707		<i>Interest Rate Forwards and Futures</i> 773, <i>Long-Term Interest Rate Futures</i> 773, <i>Short-Term Interest Rate Futures</i> 778, <i>Stock Index Futures</i> 781, <i>Currency Forwards and Futures</i> 787	
Contingent and Structured Management Strategies	708		
<i>Contingent Immunization</i> 708		Chapter 21 Appendix:	
Chapter 19 Appendix: Bond Immunization and Portfolio Rebalancing	722	A. A Closed-Form Equation for Calculating Duration	798
		B. Calculating Money Market Implied Forward Rates	800
Chapter 20: An Introduction to Derivative Markets and Securities	727	Chapter 22: Option Contracts	801
Overview of Derivative Markets	728	An Overview of Option Markets and Contracts	802
<i>The Language and Structure of Forward and Futures Markets</i> 729, <i>Interpreting Futures Price "Quotations: An Example</i> 730, <i>The Language and Structure of Option Markets</i> 732, <i>Interpreting Option Price Quotations: An Example</i> 734		<i>Option Market Conventions</i> 802, <i>Price Quotations for Exchange-Traded Options</i> 803	
Investing with Derivative Securities	735	The Fundamentals of Option Valuation	809
<i>The Basic Nature of Derivative Investing</i> 736, <i>Basic Payoff and Profit Diagrams for Forward Contracts</i> 738, <i>Basic Payoff and Profit Diagrams for Call and Put Option's</i> 740, <i>Option Profit Diagrams: An Example</i> 743		<i>The Basic Approach</i> 809, <i>Improving Forecast Accuracy</i> 810, <i>The Binomial Option Pricing Model</i> 815, <i>The Black-Scholes Valuation Model</i> 817, <i>Estimating Volatility</i> 821, <i>Problems with Black-Scholes Valuation</i> 822	
		Option Valuation: Extensions and Advanced Topics	823
		<i>Valuing European-Style Put Options</i> 823, <i>Valuing Options on Dividend-Bearing Securities</i> 824, <i>Valuing American-Style Options</i> 825, <i>Other Extensions of the Black-Scholes Model</i> 826	

Option Trading Strategies	828	<i>Regulation in the Asset Management Industry</i>	
<i>Protective Put Options</i> 829, <i>Covered Call Options</i>		924, <i>Standards for Ethical Behavior</i> 926,	
<i>831, Straddles, Strips, and Straps</i> 831, <i>Strangles</i> 833,		<i>Examples of Ethical Conflicts</i> 928	
<i>Chooser Options</i> 834, <i>Spreads</i> 835, <i>Range</i>		What Do You Want from a Professional	
<i>Forwards</i> 837		Asset Manager?	929
Chapter 23: Swap Contracts, Convertible		Chapter 25: Evaluation of Portfolio	
Securities, and Other Embedded Derivatives	847	Performance	937
OTC Interest Rate Agreements	848	What Is Required of a Portfolio Manager?	938
<i>Forward-Based Interest Rate Contracts</i> 848,		Early Performance Measurement Techniques	939
<i>Option-Based Interest Rate Contracts</i> 855		<i>Portfolio Evaluation before i960</i> 939, <i>Peer Group</i>	
Swap Contracting Extensions	858	<i>Comparisons</i> 939	
<i>Equity Index-Linked Swaps</i> 858, <i>Credit-Related</i>		Composite Portfolio Performance Measures	939
<i>Swaps</i> 860		<i>Treynor Portfolio Performance Measure</i> 941, <i>Sharpe</i>	
Warrants and Convertible Securities	863	<i>Portfolio Performance Measure</i> 943, <i>Jensen Portfolio</i>	
<i>Warrants</i> 863, <i>Convertible Securities</i> 86s,		<i>Performance Measure</i> 944, <i>The Information</i>	
<i>Convertible Preferred Stock</i> 866, <i>Convertible</i>		<i>Ratio Performance Measure</i> 946, <i>Comparing the</i>	
<i>Bonds</i> 866		<i>Composite Performance Measures</i> 947	
Other Embedded Derivatives	870	Application of Portfolio Performance Measures	950
<i>Dual Currency Bonds</i> 871, <i>Equity-Index Linked</i>		Portfolio Performance Evaluation: Some Extensions	955
<i>Notes</i> 872, <i>Commodity-Linked Bull and Bear</i>		<i>Components of Investment Performance</i> 956,	
<i>Bonds</i> 87s, <i>Swap-Linked Notes</i> 877^		<i>Performance Measurement with Downside Risk</i>	
Valuing Flexibility: An Introduction to Real Options	878	957, <i>Holdings-Based Performance Measurement</i>	
<i>Company Valuation with Real Options</i> 879		9S9, <i>Performance Attribution Analysis</i> 963,	
PART 7% SPECIFICATION AND EWAIUATOON		<i>Measuring Market Timing Skills</i> 966	
OF ASSET MANAGEMENT		Factors That Affect Use of Performance Measures	967
Chapter 24: Professional Money		<i>Demonstration of the Global Benchmark Problem</i>	
Management, Alternative Assets, and		968, <i>Implications of the Benchmark Problems</i> 969,	
Industry Ethics	891	<i>Required Characteristics of Benchmarks</i> 969	
The Asset Management Industry: Structure and		Evaluation of Bond Portfolio Performance	970
Evolution	892	<i>Returns-Based Bond Performance Measurement</i>	
Private Management and Advisory Firms	894	970, <i>Bond Performance Attribution</i> 971
