Ina Horn

Understanding Superior New Product Development

A dynamic capabilities perspective

UNIVERSITÄT
LIECHTENSTEIN
Bibliothek

VerlagW. Kohlhammer

Contents

1. Introduction.....	1
2. Theoretical Background.....	7
2.1 Introduction.....	7
2.2 Explaining idiosyncrasies in new product development.....	8
2.3 New product development.....	11
2.3.1 <i>Key concepts of new product development</i>	12
2.3.2 <i>Innovation at the heart of new product development..</i> ..	20
2.4 Dynamic capabilities.....	24
2.4.1 <i>The underlying theoretical framework of the resource-based view</i>	24
2.4.2 <i>Extension of the resource-based view to dynamic markets: dynamic capabilities</i>	31
2.4.3 <i>The nature of dynamic capabilities</i>	37
2.4.3.1 Existing theoretical and empirical evidence.....	37
2.4.3.2 Underlying processes I: learning mechanisms ..	41
2.4.3.3 Underlying processes II: path dependencies.....	63
2.5 New product development and dynamic capabilities... ..	65
3. Research Methodology.....	73
3.1 Introduction.....	73
3.2 Research paradigm.....	73
3.3 Research design.....	76
3.3.1 <i>Research method: why case studies?</i>	76
3.3.2 <i>Unit of analysis: new product development processes</i> ..	77
3.3.3 <i>Why aerospace and semiconductor industries?</i>	78
3.4 Data collection.....	84
3.4.1 <i>Access</i>	84
3.4.2 <i>Interviews</i>	85

3.4.3	<i>Archival sources</i>	89
3.4.4	<i>Participant observation</i>	90
3.5	Data analysis.....	92
4.	Case Study Evidence.....	97
4.1	Introduction.....	97
4.2	Case studies in the aerospace industry.....	98
4.2.1	<i>Dynamic capabilities — case study A1</i>	99
4.2.2	<i>Dynamic capabilities - case study A 2</i>	103
4.3	Case studies in the semiconductor industry.....	106
4.3.1	<i>Dynamic capabilities - case study S1</i>	107
4.3.2	<i>Dynamic capabilities - case study S2</i>	110
4.4	Cross-industry analysis - dynamic capabilities in new product development.....	113
5.	Discussion and Conclusions.....	115
5.1	Introduction.....	115
5.2	Evolution of dynamic capabilities in new product development.....	115
5.2.1	<i>Evolution of higher-order integration routines</i>	118
5.2.1.1	Evolution of dynamic integration capabilities in the aerospace industry.....	119
5.2.1.2	Evolution of dynamic integration capabilities in the semiconductor industry.....	149
5.2.1.3	Conclusion evolution of higher-order integration routines.....	161
5.2.2	<i>Evolution of higher-order reconfiguration routines</i> ..	164
5.2.2.1	Evolution of dynamic reconfiguration capabilities in the aerospace industry.....	166
5.2.2.2	Evolution of dynamic reconfiguration capabilities in the semiconductor industry.....	175
5.2.2.3	Conclusion evolution of higher-order reconfiguration routines.....	186
5.2.3	<i>Conclusion evolution of higher-order routines</i>	189

5.3 Characteristics of dynamic integration and reconfiguration capabilities relevant for new product development195

5.3.1 *Characteristics of dynamic integration capabilities .. relevant for new product development*.....196

5.3.1.1 Characteristics of dynamic integration capabilities relevant for new product development in the aerospace industry.....196

5.3.1.2 Characteristics of dynamic integration capabilities relevant for new product development in the semiconductor industry.....210

5.3.2 *Characteristics of dynamic reconfiguration capabilities relevant for new product development*.....215

5.3.2.1 Characteristics of dynamic reconfiguration capabilities relevant for new product development in the aerospace industry.....216

5.3.2.2 Characteristics of dynamic reconfiguration capabilities relevant for new product development in the semiconductor industry.....224

5.3.3 *Conclusion on characteristics of dynamic capabilities relevant for new product development*.....231

5.4 Research limitations.....234

5.5 Implications for practice and further research.....236

Appendix.....241

 Interview guide.....241

References.....245
