CONTENTS

An Introduction to International Financial Markets	1
11 Money and Banking: A Brief Review	1
12 The International Payment Mechanism	7
13 Euromarkets	10
14 Exchange Rate Regimes	12
PART I INTERNATIONAL FINANCIAL MARKETS	25
Chapter 1 Spot Exchange Markets	27
1.1 Exchange Rates	27
1.2 Major Markets for Foreign Exchange	32
1.3 The Law of One Price for Spot Exchange Quotes	34
1.4 Triangular Arbitrage	36
1.5 Implications for the Treasurer	40
Chapter Review Questions	41
Chapter 2 Forward Contracts in Perfect Markets	45
2.1 * Introduction to Forward Contracts	45
2.2 The Relationship between Exchange and Money Markets	48
2.3 The Law of One Price and Interest Rate Parity	56
2.4 Interpreting the Forward Premium or Discount	61
2>5 Concluding Remarks	63
Chapter Review Questions	65
Appendix 2A Interest Rates, Returns, and Bond Yields	68
Chapter 3 The Value of a Forward Contract and Its Implications	73
3:1 The Market Value of an Outstanding Forward Contract	73
3.2 . Implications: The Value at Expiration and at Inception	77
3.3 Insights for Financial Reporting	82
3.4 Insights for Corporate Hedging and Investment Policies	84
Chapter Review Questions	92
Chapter 4 Forward Contracts and Market Imperfections	97
4.1 Credit Risk in Forward Contracts	97
4.2 How Forward Rates are Quoted with Bid-Ask Spreads	104
4.3 Synthetic Forward Rates	105

4.4	The Arbitrage Bounds on the Forward Bid and Ask Rates	109
4.5	Empirical Tests of the Arbitrage Bounds	113
4.6	Bounds Imposed on the Forward Rate by Least Cost Dealing	114
4.7	Implications of Spreads for the Financial Manager	119
	Chapter Review Questions	122
Chapter 5	Currency Futures Markets	127
5.1	Currency Futures Markets	127
5.2	Effect of Marking to Market on Futures Prices	133
5.3	Hedging with Futures Contracts	136
5.4	Conclusion: Pros and Cons of Futures Contracts Relative to Forward Contracts	145
	Chapter Review Questions	147
	Appendix 5A Computing the Hedge Regression Coefficient	152
	Appendix 5B The Effect of Interest Rates on Futures Prices: A Formal Discussion	155
Chapter 6	Currency Options	161
6.1	An Introduction to Currency Options	162
6.2	Institutional Aspects of Options Markets	165
6.3	Bounds on Option Values	166
6.4	A Graphical Analysis of European Options	169
6.5	Options as Hedging or Speculating Devices	178
6.6	Implications for the Corporate Treasurer	186
	Chapter Review Questions	187
	Appendix 6A Options on Currency Futures, Premium Affairs, and Futures-Style Options	192
	Appendix 6B The Effect of the Forward Premium on the Probability of Early Exercise	196
Chapter 7	Pricing Currency Options Using the Binomial Model	201
7.1	The Logic of Binomial Option Pricing	202
7.2	Notation and Assumptions for the Multiperiod Binomial Model	207
7.3	Pricing the One-Period European Currency Call	210
7.4	Pricing the TV-Period European Call	213
7.5	Toward the Black-Scholes Formula	218
7.6	Pricing Other European-Type Derivative Assets	224
7.7	Pricing American Options	225
7.8	Conclusion	227
	Chapter Review Questions	229
	Appendix 7A Choosing the Parameters of the Binomial Model	233
	Appendix 7B Pricing Options on Foreign Currency T-Bills and on Currency Futures	238
Chapter 8	Pricing European Options: The Lognormal Model	243
8.1	Assumptions of the Continuous-Time Option Pricing Model	244
8.2	A Discrete-Time Derivation of the Continuous-Time Model	245
8.3	How To Use the Continuous-Time Option Valuation Formula	251
8.4	Related Option Pricing Models	253
8.5	Conclusions	255

	Chapter Review Questions	257
	Appendix 8A Derivation of the Expected Expiration Value of the Call Option	261
	Appendix 8B Stochastic Calculus and the Black-Scholes Equation	266
Chapter 9	International Bond and Money Markets	279
9.1	Eurobanking Products	280
9.2	Eurosecurity Markets	295
9.3	Eurocurrency Futures Contracts	301
9.4	Conclusions	307
	Chapter Review Questions	308
	Appendix 9A Term Structures, Bond Yields, and Interest Rates	312
Chapter 10	Currency and Interest Rate Swaps	319
10.1	Earlier Swap-Like Contracts	319
10.2	The Fixed-for-Fixed Currency Swaps	326
10.3	Interest Rate Swaps	334
10.4	Cross-Currency Swaps	338
10.5	Cocktail Swaps	339
10.6	Conclusions	341
	Chapter Review Questions	342
PART II	EXCHANGE RATE DETERMINATION	345
Chapter 11	Purchasing Power Parity	347
11.1	Commodity Price Parity	348
11.2	Absolute Purchasing Power Parity	350
11.3	Relative Purchasing Power Parity	355
11.4	Empirical Tests of the Price Parity Relations	361
11.5	PPP as a Theory of Exchange Rate Determination	366
11.6	Implications for Managers of the Evidence on PPP	367
	Chapter Review Questions	368
Chapter 12	The Balance of Payments	373
12.1	What Is the Balance of Payments?	374
12.2	The Net International Investment Account	379
12.3	The BOP Approach to Exchange Rate Determination	380
12.4	Conclusions	384
	Chapter Review Questions	386
	Appendix 12A Relationship between the BOP and Fiscal Policy	390
Chapter 13	Portfolio Theories of Exchange Rate Determination	395
13.1	Monetary Theory of Exchange Rate Determination	396
13.2	An Asset's Contribution to Portfolio Mean and Variance	399
13.3	Mean-Variance Portfolio Choice	403
13.4	Conclusion	410
	Chapter Review Questions	411
	Appendix 13A Return and Risk of a Portfolio Containing Risk-Free Assets	413

Chapter 14	Risk and Return in Forward Markets	417
14.1	The Unbiased Expectations Hypothesis (UEH)	418
14.2	Regression Tests of UEH	422
14.3	Can Risk Premiums Explain Violations of UEH?	424
14.4	Other Explanations for Violations of UEH	429
14.5	Testing UEH in Real Terms	430
14.6	Implications for Financial Decision Making	435
	Chapter Review Questions	437
Chapter 15	Forecasting Exchange Rates	441
15.1	Technical Analysis	442
15.2	Fundamental Models of Exchange Rate Forecasting	445
15.3	Evaluating the Performance of Forecasters	448
15.4	Implications for Treasury Management	451
	Chapter Review Questions	452
PART III	INTERNATIONAL RISK MANAGEMENT	453
Chapter 16	The Relevance of Hedging	455
16.1	Conditions for Irrelevance of a Firm's Hedging Decision	455
- 16.2	Arguments in Favor of Hedging Exchange Risk	456
16.3	Irrelevant Arguments	462
16.4	Conclusion	464
	Chapter Review Questions	465
Chapter 17	Measuring and Managing Contractual Exposure to the Exchange Rate	469
17.1	The Concepts of Risk and Exposure	470
17.2	Contractual Exposure from Transactions for a Particular Date and Currency	472
17.3	Aggregate Contractual Exposure over Several Transactions for a Particular Currency	476
17.4	What Does Management of Contractual Exposure Achieve?	482
	Chapter Review Questions	484
Chapter 18	Measuring and Managing Operating Exposure to the Exchange Rate	487
*" 18.1	Introduction to Operating Exposure	488
18.2	The Importance of the Economic Environment in Which the Firm Operates	490
18.3	Measuring and Hedging Operating Exposure	495
• 18.4	Conclusions for Treasury Management *	508
	Chapter Review Questions	510
Chapter 19	Measuring and Managing Accounting Exposure	515
19.1	What Is Accounting Exposure?	515
19.2	Why Firms Need To Translate Financial Statements	516
19.3	The Choice of Different Translation Methods	518
19.4	Conclusions for Managers	525
	Chapter Review Questions	528
Chapter 20	Managing the Risks in International Trade	531
20.1	Payment Modes without Bank Participation	532
20.2	Documentary Payment Modes with Bank Participation	536

20.3	Other Standard Ways to Cope with Default Risk	539
20.4	Export-Backed Financing	540
20.5	Countertrade	542
20.6	Conclusion	546
	Chapter Review Questions	548
	Appendix 20A Some Institutional Details of Documentary Credits	551
PART IV	INTERNATIONAL INVESTMENT DECISIONS	553
Chapter 21	International Capital Budgeting	555
21.1	Domestic Capital Budgeting: A Quick Review	555
21.2	Forms of Foreign Activity	562
21.3	Taxes and Three-Step International Capital Budgeting	565
21.4	Transfer Risks	569
21.5	Other Political Risks	573
21.6	Incremental Cash Flows	574
21.7	Exchange Risk and Market Segmentation	574
21.8	A Checklist for NPV Analysis	574
	Chapter Review Questions	577
	Appendix 21A Alternative Ways to Account for Investment in Working Capital	581
Chapter 22	Exchange Risk and Capital Market Segmentation	583
22.1	Procedures for Valuing Risk-Free Foreign Cash Flows	584
22.2	Procedures for Valuing Risky Foreign Cash Flows	587
22.3	The Single-Country CAPM	591
22.4	The International CAPM	598
22.5	Conclusions for Capital Budgeting	608
	Chapter Review Questions	612
	Appendix 22A Linking the International CAPM to Multivariate Regressions	617
Chapter 23	International Taxation	621
23.1	Multiple Taxation versus Tax Neutrality	622
23.2	International Taxation of a Branch: The Credit System	627
23.3	International Taxation of a Branch: The Exclusion System	632
23.4	Remittances from a Subsidiary: An Overview	635
23.5	International Taxation of a Subsidiary: The Credit System	637
23.6	International Taxation of a Subsidiary: The Exclusion System	643
23.7	Conclusion	645
	Chapter Review Questions	646
Chapter 24	Valuation and Negotiation of Joint Venture Projects	653
24.1	The Three-Step Approach to Joint-Venture Capital Budgeting	654
24.2	A Framework for Profit Sharing	656
24.3	Case I: A Simple Pro-Rata Joint Branch with Neutral Taxes and Integrated Capital Markets	657
24.4	Case II: Valuing a Pro-Rata Joint Branch when Taxes or Discount Rates Differ	659
24.5	Case III: An Unbundled Joint Venture with a License Contract or a Management Contract	662
