

Creating Breakthrough Products

Revealing the Secrets that
Drive Global Innovation

(Second Edition)

Jonathan Cagan and Craig M. Vogel

Contents

	Foreword by Dee Kapurxix
	Acknowledgmentsxxi
	About the Authorsxxiii
	Prefacexxv
	Glossary of Acronyms and Termsxxxv
	Part One The Argument1
Chapter 1	What Drives New Product Development2
	Redefining the Bottom Line3
	Positioning Breakthrough Products5
	Products, Services, and Product-Service Ecosystems7
	Identifying Product Opportunities: The SET Factors10
	POG and SET Factor Case Studies15
	The Margaritaville Frozen Concoction Maker15
	The BodyMedia FIT System19
	Starbucks25
	The GE Healthcare Adventure MRI Series28
	Summary Points33
	Notes34

Chapter 2	Moving to the Upper Right	36
	Integrating Style and Technology	37
	Style Versus Technology: A Brief History of the Evolution of Style and Technology in the Nineteenth and Twentieth Centuries	40
	In the Beginning	40
	The Growth of Consumer Culture	41
	The Introduction of Style to Mass Production	42
	Post–World War II Growth of the Middle Class and the Height of Mass Marketing	44
	The Rise of Consumer Awareness and the End of Mass Marketing	45
	The Era of Customer Value, Mass Customization, and the Global Economy	46
	Positioning Map: Style Versus Technology	47
	Lower Left: Low Use of Style and Technology	48
	Lower Right: Low Use of Style, High Use of Technology	49
	Upper Left: High Use of Style, Low Use of Technology	50
	Upper Right: High Use of Style and Technology	50
	Positioning Map of Margaritaville Frozen Concoction Maker	52
	Positioning Map of BodyMedia FIT System	53
	Positioning Map of Starbucks	55
	Positioning Map of GE Adventure Series	56
	Knockoffs and Rip-offs	57
	The Upper Right and Intellectual Property	59
	Revolutionary Versus Evolutionary Product Development	60
	Summary Points	62
	References	62
 Chapter 3	 The Upper Right: The Value Quadrant	 64
	The Sheer Cliff of Value: The Third Dimension	65
	The Shift in the Concept of Value in Products and Services	66
	Qualities and a Customer's Value System: Cost Versus Value	70

Value Opportunities	73
Emotion	74
Aesthetics	75
Product Identity	75
Impact	76
Ergonomics	77
Core Technology	80
Quality	80
Value Opportunity Charts and Analysis	81
VOA of Margaritaville Frozen Concoction Maker	84
VOA of BodyMedia FIT System	86
VOA of Starbucks	87
VOA of GE Adventure Series MRI	89
The Time and Place for Value Opportunities	90
VOs and Product Goals	91
The Upper Right for Industrial Products	93
The Upper Right of Commodity Products: Trading off Value among the Aluminum Can, the Plastic Bottle, and the Glass Bottle	96
Summary Points	98
References	98

Chapter 4

The Core of a Successful Brand Strategy: Breakthrough Products and Services100

Brand Strategy and Product Strategy	101
Corporate Commitment to Product and Brand	105
Corporate Values and Customer Values	108
Managing Product Brand	109
Building an Identity	110
Company Identity Versus Product Identity	111
Building Brand Versus Maintaining Brand	114
Starting from Scratch: Cirque du Soleil	114
Redefining a Brand: Herbal Essences	115
Maintaining an Established Identity: Harley	118

	Brand and the Value Opportunities	120
	Summary Points	122
	References	122
	Part Two The Process	125
Chapter 5	A Comprehensive Approach to User-Centered, Integrated New Product Development	126
	Clarifying the Fuzzy Front End of New Product Development	127
	A New Way of Thinking	128
	iNPD Is Only Part of the Process	130
	User-Centered iNPD Process	132
	Resource Allocation	156
	Allocating the Time Resource: Scheduling	157
	Allocating the Cost Resource: Financing	158
	Allocating the Human Resource: Team Selection	159
	Summary Points	160
	References	160
Chapter 6	Integrating Disciplines and Managing Diverse Teams	162
	User-Centered iNPD Facilitates Customer Value	163
	Understanding Perceptual Gaps	166
	Team Functionality	171
	Team Collaboration	171
	Negotiation in the Design Process	172
	Team Performance	176
	Part Differentiation Matrix	181
	Team Conflict and the PDM	188
	PDM and the Role of Core Disciplines	190
	Issues in Team Management: Team Empowerment	191
	Understand the Corporate Mission	192
	Serve As a Catalyst and a Filter	192
	Be Unbiased	193

Empower and Support the Team	194
Let the Team Become the Experts	196
Recognize the Personality and Needs of the Team	196
Use of an Interests-Based Management Approach	196
Visionaries and Champions	198
Summary: The Empowered Team	199
iNPD Team Integration Effectiveness	199
Summary Points	200
References	201

Chapter 7

Understanding the User's Needs, Wants, and Desires	204
Overview: Usability and Desirability	205
An Integrated Approach to a User-Driven Process	210
Scenario Development (Part I)	212
New Product Ethnography	214
Using Ethnography to Understand Parrotheads	220
Lifestyle Reference and Trend Analysis	223
Ergonomics: Interaction, Task Analysis, and Anthropometrics	225
Interaction	225
Task Analysis	228
Anthropometrics	231
Scenarios and Stories	236
Scenario Development (Part II)	236
Storytelling	238
Broadening the Focus	241
Other Stakeholders	241
Identifying Users in Nonconsumer Products: Designing Parts within Products	243
Product Definition	244
Visualizing Ideas and Concepts Early and Often	247
Summary Points	252
References	253
Research Acknowledgments	254

Part Three Further Evidence255

Chapter 8

Service Innovation: Breakthrough Innovation on the Product–Service Ecosystem Continuum256

The Era of Interconnected Ecosystems: Product, Interface, and Service257

 Empathy Versus Logic260

 Traditional Service Design262

 Umpqua: Designing a Bank Like a Product265

 UPS Moves Beyond the Package Delivery Industry267

 The Disney Renaissance: The Ultimate Entertainment Service272

 Interaction Design276

Interaction Through a Multisensory Interactive Teaching Tool277

 Summary Points279

 References280

Chapter 9

Case Studies: The Power of the Upper Right282

Reinventing the Classroom with Upper Right Seating Systems: The IDEO and Steelcase Node283

Ball Parks Play in the Upper Right: The Dallas Stadium and PNC Park291

Innovation in Machining: Kennametal Beyond Blast Titanium Manufacturing296

Electric Vehicle Innovation: Bringing Upper Right Transportation to the Twenty-First Century300

Upper Right Open Innovation Partnerships between Companies and Universities305

 Innovation along the Highway: Navistar International LoneStar . . .307

 The 50+ and Environmental Responsibilities: Designing a New Refillable Sustainable Packaging System311

 Making University–Industry Innovation Partnerships Work315

 Summary Points316

 Endnotes316

Chapter 10	Case Studies: The Global Power of the Upper Right318
	The BRIC Countries319
	Brazil: Innovation and Growth in South America320
	China: Haier, The First Major Chinese Global Brand323
	India: Design Impact and Social Responsibility in India328
	Be Green Packaging: <i>The World Is Flat Meets Cradle to Cradle</i> in Connect+Develop330
	DesignSingapore Council: The Third Component from the Little Country That Can332
	Summary Points335
	References335
Chapter 11	Where Are They Now?338
	Changing SET Factors339
	The OXO GoodGrips Peeler340
	The Crown Wave346
	Retired Case Studies348
	Summary Points360
	Epilogue361
	Future Innovators361
	Have Faith in the Leap363
	References365
	Index367
