	Cecil E. Bohanon and Michelle Albert Vachris	
22	The interdisciplinary approach to teaching economics	234
	Arthur H. Goldsmith and James F. Casey	
23	Pluralism in economics education	242
~ (Robert F. Garnett, Jr. and Jack Reardon	
24	Threshold concepts in economics education	250
	Peter Davies	
Sec	tion E Elementary, Secondary Economic Education	
25	Economic education in American elementary and secondary schools	259
	Paul W. Grimes	
26	Organizations focused on economic education	273

Sue Lynn Sasser and Helen Meyers

PART III RESEARCH

Section A Principles Courses

27	The purpose, structure and content of the principles of economics course	285
	Geoffrey Schneider	

	Contents	vii
28	The principles of economics textbook: content coverage and usage Jane S. Lopus and Lynn Paringer	296
Sec	tion B Measurement Techniques of Student Performance and Literacy: College and High School	
29	Measurement techniques of student performance and literacy: college and high school Carlos Asarta and Ken Rebeck	307
Sec	tion C Factors Influencing Student Performance in Economics	
30	Research on the effectiveness of non-traditional pedagogies Joshua D. Miller and Robert P. Rebelein	323
31	Factors influencing performance in economics: graphs and quantitative usage	334
32	Mary Ellen Benedict and John Hoag Student characteristics, behavior, and performance in economics classes Ann L. Owen	341
33	Factors influencing student performance in economics: class and instructor characteristics Wayne A. Grove and Stephen Wu	351
Sec	tion D What Every Economist Should Know about the Evaluation of Teaching: A Review of Literature	
34	What every economist should know about the evaluation of teaching: a review of the literature <i>Stephen B. DeLoach</i>	363
Sec	tion E Scholarship of Teaching and Learning	
35	Data resources and econometric techniques William Bosshardt and Peter E. Kennedy	373
36	Learning from physics education research: lessons for economics education Mark Maier and Scott Simkins	384
37	Journals and beyond: publishing economics education research <i>Peter Davies and William L. Goffe</i>	393
PA	RT IV CONTENT	
38	Less is more: the perils of trying to cover too much in microeconomic principles Robert H. Frank	403
39	<i>Robert H. Frank</i> Macroeconomic principles are still relevant and still important <i>William A. McEachern</i>	413

40	Teaching non-majors Deborah M. Figart	423
41	Intermediate microeconomics Walter Nicholson	433
42	Intermediate macroeconomics Christopher L. Foote	442
43	Teaching undergraduate econometrics Jeffrey M. Wooldridge	452
44	An interdisciplinary approach to teaching antitrust economics Roger D. Blair and Christine Piette Durrance	463
45	The economics of education: applying economic theory and empirical tools to public policy <i>Jessica S. Howell</i>	473
46	Environmental and natural resource economics: teaching the non-major and major simultaneously Lynne Y. Lewis	482
47	Teaching experimental economics: reinforcing paradigms and bringing research into the undergraduate classroom <i>Charles A. Holt</i>	494
48	Game theory in a liberal arts education	505
49	Joseph E. Harrington, Jr. Teaching a research-inspired course on growth and development Maria Ripoll	514
