BUSINESS PROCESS MODELING, SIMULATION AND DESIGN SECOND EDITION

Manuel Laguna Johan Marklund

Contents

1. Introduction to Business Process Pesign 1 1.1 What Is a Business Process? 1 1.1.1 Process Types and Hierarchies 3 1.1.2 Determinants of the Process Architecture 4 1.1.2.1 Inputs and Outputs 5 1.1.2.2 Flow Units 5 1.1.2.4 Resources 8 1.1.2.5 Information Structure 8 1.1.2 Workflow Management Systems 9 1.2 Essence of Business Process Design 10 1.2.1 Incremental Process Improvement and Process Design 12 1.2.2 Illustrative Example 13 1.3 Business Process Design, Overall Business Performance, and Strategy 16 1.3.1 Business Process Design and Overall Business Performance 16 1.3.2 Business Process Design and Overall Business Performance 16 1.3.3 Business Process Design and Strategy 17 1.4 Why Do Inefficient and Ineffective Business Processes Exist? 18 1.5 Summary 20 Discussion Questions and Exercises 21 References 25 2. Process Management and Process-Oriented Improvement Programs 27 2.1 Phase II: Initialization 29 2.1.1 Phase II	Pre	eface			xi
1.1 What Is a Business Process? 1 1.1.1 Process Types and Hierarchies 3 1.1.2 Determinants of the Process Architecture 4 1.1.2.1 Inputs and Outputs 5 1.1.2.2 Flow Units 5 1.1.2.3 Network of Activities and Buffers 5 1.1.2.4 Resources 8 1.1.2.5 Information Structure 8 1.1.2.6 Information Structure 8 1.1.2.7 Information Structure 8 1.1.2.8 Information Structure 8 1.1.2.9 Incremental Process Design 9 1.2 Essence of Business Process Design 10 1.2.1 Incremental Process Design and Overall Business Performance, and Strategy 16 1.3.1 Business Process Design and Overall Business Performance, and Strategy 16 1.3.1 Business Process Design and Strategy 17 1.4 Why Do Inefficient and Ineffective Business Processes Exist? 18 1.5 Summary 20 Discussion Questions and Exercises 21 2. Process Management and Process-Oriented	1.	Intro	ductio	on to Business Process Design	1
1.1.1 Process Types and Hierarchies 3 1.1.2 Determinants of the Process Architecture 4 1.1.2.1 Inputs and Outputs 5 1.1.2.2 Flow Units 5 1.1.2.3 Network of Activities and Buffers 5 1.1.2.4 Resources 8 1.1.2.5 Information Structure 8 1.1.2 Information Structure 8 1.1.2.1 Incremental Process Improvement and Process Design 10 1.2.1 Incremental Process Improvement and Process Design 10 1.2.2 Illustrative Example 13 1.3 Business Process Design, Overall Business Performance, and Strategy 16 1.3.1 Business Process Design and Overall Business Performance 16 1.3.2 Business Process Design and Strategy 17 1.4 Why Do Inefficient and Ineffective Business Processes Exist? 18 1.5 Summary 20 Discussion Questions and Exercises 22 2. Process Management and the Process-Oriented Improvement Programs 27 2.1 Process Management and the Power of Adopting a Process View 27 <th></th> <th></th> <th></th> <th></th> <th></th>					
1.1.2 Determinants of the Process Architecture 4 1.1.2.1 Inputs and Outputs 5 1.1.2.2 Flow Units 5 1.1.2.3 Network of Activities and Buffers 5 1.1.2.4 Resources 8 1.1.2.5 Information Structure 8 1.1.2 Workflow Management Systems 9 1.2 Essence of Business Process Design 10 1.2.1 Incremental Process Improvement and Process Design 12 1.2.2 Illustrative Example 13 1.3.1 Business Process Design and Overall Business Performance, and Strategy 16 1.3.1 Business Process Design and Overall Business Performance 16 1.3.2 Business Process Design and Strategy 17 1.4 Why Do Inefficient and Ineffective Business Processes Exist? 18 1.5 Summary 20 Discussion Questions and Exercises 21 References 25 2. Process Management and Process-Oriented Improvement Programs 27 2.1 Process Management and the Power of Adopting a Process View 27 2.1.1 <td< td=""><td></td><td></td><td></td><td></td><td></td></td<>					
1.1.2.1 Inputs and Outputs 5 1.1.2.2 Flow Units 5 1.1.2.3 Network of Activities and Buffers 5 1.1.2.4 Resources 8 1.1.2.5 Information Structure 8 1.1.3 Workflow Management Systems 9 1.2 Essence of Business Process Design 10 1.2.1 Incremental Process Improvement and Process Design 12 1.2.2 Illustrative Example 13 1.3 Business Process Design and Overall Business Performance, and Strategy 16 1.3.1 Business Process Design and Overall Business Performance 16 1.3.2 Business Process Design and Overall Business Performance 16 1.3.2 Business Process Design and Strategy 17 1.4 Why Do Inefficient and Ineffective Business Processes Exist? 18 1.5 Summary 20 Discussion Questions and Exercises 21 References 25 2. Process Management and Process-Oriented Improvement Programs 27 2.1 Process Management and the Power of Adopting a Process View 27 2.1 Process Management and the Power of Adopting a Process View 27 2.1 Phase II: Inititalization 29					
1.1.2.2 Flow Units 5 1.1.2.3 Network of Activities and Buffers 5 1.1.2.4 Resources 8 1.1.2.5 Information Structure 8 1.1.3 Workflow Management Systems 9 1.2 Essence of Business Process Design 10 1.2.1 Incremental Process Improvement and Process Design 12 1.2.2 Illustrative Example 13 1.3 Business Process Design Active Example 13 1.3.1 Business Process Design and Overall Business Performance, and Strategy 16 1.3.2 Business Process Design and Overall Business Performance 16 1.3.2 Business Process Design and Strategy 17 1.4 Why Do Inefficient and Ineffective Business Processes Exist? 18 1.5 Summary 20 Discussion Questions and Exercises 21 2.6 Process Management and Process-Oriented Improvement Programs 27 2.1 Process Management and Process-Oriented Improvement Programs 27 2.1 Pracess Initialization 29 2.1.1 Praces I: Initialization 29 2.1.1 Phase I: Initialization 29 2.1.1 Process Ownership 30 2.1.2					
1.1.2.3 Network of Activities and Buffers 5 1.1.2.4 Resources 8 1.1.2.5 Information Structure 8 1.1.3 Workflow Management Systems 9 1.2 Essence of Business Process Design 10 1.2.1 Incremental Process Improvement and Process Design 12 1.2.2 Illustrative Example 13 1.3 Business Process Design, Overall Business Performance, and Strategy 16 1.3.1 Business Process Design and Overall Business Performance 16 1.3.2 Business Process Design and Strategy 17 1.4 Why Do Inefficient and Ineffective Business Processes Exist? 18 1.5 Summary 20 Discussion Questions and Exercises 21 References 25 2. Process Management and Process-Oriented Improvement Programs 27 2.1 Process Management and the Power of Adopting a Process View 27 2.1 Process Management and Process-Ownership 30 2.1.1.1 Process Ownership 30					
1.1.2.4 Resources 8 1.1.2.5 Information Structure 8 1.1.3 Workflow Management Systems 9 1.2 Essence of Business Process Design 10 1.2.1 Incremental Process Improvement and Process Design 12 1.2.2 Illustrative Example 13 1.3 Business Process Design, Overall Business Performance, and Strategy 16 1.3.1 Business Process Design and Overall Business Performance 16 1.3.2 Business Process Design and Strategy 17 1.4 Why Do Inefficient and Ineffective Business Processes Exist? 18 1.5 Summary 20 Discussion Questions and Exercises 21 References 25 2. Process Management and Process-Oriented Improvement Programs 27 2.1 Process Management and the Power of Adopting a Process View 27 2.1.1 Phase I: Initialization 29 2.1.1.2 Phase II: Definition 30 2.1.2 Phase II: Definition 33 2.1.3 Phase III: Control 34 2.1.3.1 Establishing Control Points 34 2.1.3.2 Developing and Implementing Measurements 35 2.1.4.1 Assign Process Ownership 36 2.1.4.2 Ana					
1.1.2.5 Information Structure					
1.1.3 Workflow Management Systems 9 1.2 Essence of Business Process Design 10 1.2.1 Incremental Process Improvement and Process Design 12 1.2.2 Illustrative Example 13 1.3 Business Process Design, Overall Business Performance, and Strategy 16 1.3.1 Business Process Design and Overall Business Performance 16 1.3.2 Business Process Design and Strategy 17 1.4 Why Do Inefficient and Ineffective Business Processes Exist? 18 1.5 Summary 20 Discussion Questions and Exercises 21 References 25 2. Process Management and Process-Oriented Improvement Programs 27 2.1 Process Management and the Power of Adopting a Process View 27 2.1.1 Phase I: Initialization 29 2.1.1.1 Process Ownership 30 2.1.2 Analyzing Process Boundaries and Interfaces 31 2.1.2 Phase III: Control 34 2.1.3 Establishing Control Points 34 2.1.3 Feedback and Control 36 2.1.4.1 <td></td> <td></td> <td></td> <td></td> <td></td>					
1.2 Essence of Business Process Design. 10 1.2.1 Incremental Process Improvement and Process Design. 12 1.2.2 Illustrative Example. 13 1.3 Business Process Design, Overall Business Performance, and Strategy. 16 1.3.1 Business Process Design and Overall Business Performance. 16 1.3.2 Business Process Design and Strategy. 17 1.4 Why Do Inefficient and Ineffective Business Processes Exist? 18 1.5 Summary. 20 Discussion Questions and Exercises. 21 References. 25 2. Process Management and Process-Oriented Improvement Programs. 27 2.1 Process Management and the Power of Adopting a Process View. 27 2.1.1 Phase I: Initialization. 29 2.1.1.1 Process Ownership. 30 2.1.2.1 Analyzing Process Boundaries and Interfaces. 31 2.1.2 Phase II: Definition. 33 2.1.3 Phase III: Control. 34 2.1.3.1 Establishing Control Points. 34 2.1.4.2 Analyze Boundaries and Interfaces. 37 <td></td> <td></td> <td>1.1.3</td> <td></td> <td></td>			1.1.3		
1.2.1 Incremental Process Improvement and Process Design 12 1.2.2 Illustrative Example 13 1.3 Business Process Design, Overall Business Performance, and Strategy 16 1.3.1 Business Process Design and Overall Business Performance 16 1.3.2 Business Process Design and Overall Business Performance 16 1.3.2 Business Process Design and Overall Business Performance 16 1.3.2 Business Process Design and Overall Business Performance 16 1.3.2 Business Process Design and Overall Business Performance, and Strategy 16 1.3.2 Business Process Design and Overall Business Performance, and Strategy 16 1.3.2 Business Process Design and Strategy 17 1.4 Why Do Inefficient and Inteffective Business Process Exist? 18 1.5 Summary 20 Discussion Questions and Exercises 21 22 Exercises 21 22 2.1 Process Management and Exercises 21 2.1 Process Management and Process-Oriented Improvement Programs 27 2.1.1 Phase II: Initialization 29 2.1.1		1.2			
1.2.2 Illustrative Example					
1.3 Business Process Design, Overall Business Performance, and Strategy					
1.3.1 Business Process Design and Overall Business Performance 16 1.3.2 Business Process Design and Strategy 17 1.4 Why Do Inefficient and Ineffective Business Processes Exist? 18 1.5 Summary 20 Discussion Questions and Exercises 21 References 25 2. Process Management and Process-Oriented Improvement Programs 27 2.1 Process Management and the Power of Adopting a Process View 27 2.1.1 Phase I: Initialization 29 2.1.1.1 Process Ownership 30 2.1.1.2 Analyzing Process Boundaries and Interfaces 31 2.1.2 Phase III: Control 34 2.1.3.1 Establishing Control Points 34 2.1.3.2 Developing and Implementing Measurements 35 2.1.3.3 Feedback and Control 36 2.1.4.1 Assign Process Ownership 37 2.1.4.2 Analyze Boundaries and Interfaces 37 2.1.4.3 Define the Process 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Mea		1.3			
1.3.2 Business Process Design and Strategy 17 1.4 Why Do Inefficient and Ineffective Business Processes Exist? 18 1.5 Summary 20 Discussion Questions and Exercises 21 References 25 2. Process Management and Process-Oriented Improvement Programs 27 2.1 Process Management and the Power of Adopting a Process View 27 2.1.1 Phase I: Initialization 29 2.1.1.1 Process Ownership 30 2.1.2.2 Analyzing Process Boundaries and Interfaces 31 2.1.2 Phase III: Control 34 2.1.3.1 Establishing Control Points 34 2.1.3.2 Developing and Implementing Measurements 35 2.1.3.3 Feedback and Control 36 2.1.4.1 Assign Process Ownership 36 2.1.4.1 Assign Process Ownership 37 2.1.4.2 Analyze Boundaries and Interfaces 37 2.1.4.3 Define the Process 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures 40		2.0			
1.4 Why Do Inefficient and Ineffective Business Processes Exist? 18 1.5 Summary 20 Discussion Questions and Exercises 21 References 25 2. Process Management and Process-Oriented Improvement Programs 27 2.1 Process Management and the Power of Adopting a Process View 27 2.1 Phase I: Initialization 29 2.1.1.1 Process Ownership 30 2.1.2.2 Analyzing Process Boundaries and Interfaces 31 2.1.2 Phase II: Definition 33 2.1.3 Phase III: Control 34 2.1.3.1 Establishing Control Points 34 2.1.3.2 Developing and Implementing Measurements 35 2.1.3.3 Feedback and Control 36 2.1.4.1 Assign Process Ownership 36 2.1.4.1 Assign Process Ownership 37 2.1.4.2 Analyze Boundaries and Interfaces 37 2.1.4.3 Define the Process 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures 40			1.3.2		
1.5 Summary 20 Discussion Questions and Exercises 21 References 25 2. Process Management and Process-Oriented Improvement Programs 27 2.1 Process Management and the Power of Adopting a Process View 27 2.1.1 Phase I: Initialization 29 2.1.1.1 Process Ownership 30 2.1.1.2 Analyzing Process Boundaries and Interfaces 31 2.1.2 Phase II: Definition 33 2.1.3 Phase III: Control 34 2.1.3.1 Establishing Control Points 34 2.1.3.2 Developing and Implementing Measurements 35 2.1.3.3 Feedback and Control 36 2.1.4 Illustrative Example: Managing a Document Distribution Process 36 2.1.4.1 Assign Process Ownership 37 2.1.4.2 Analyze Boundaries and Interfaces 37 2.1.4.3 Define the Process 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures 40 2.1.4.6 Perform Feedback and Control 41		1.4		Do Inefficient and Ineffective Business Processes Exist?	18
Discussion Questions and Exercises 21 References 25 2. Process Management and Process-Oriented Improvement Programs 27 2.1 Process Management and the Power of Adopting a Process View 27 2.1.1 Phase I: Initialization 29 2.1.1.1 Process Ownership 30 2.1.2 Phase II: Definition 33 2.1.3 Phase III: Control 34 2.1.3.1 Establishing Control Points 34 2.1.3.2 Developing and Implementing Measurements 35 2.1.3.3 Feedback and Control 36 2.1.4 Illustrative Example: Managing a Document Distribution Process 36 2.1.4.1 Assign Process Ownership 37 2.1.4.2 Analyze Boundaries and Interfaces 37 2.1.4.3 Define the Process 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures 40 2.1.4.6 Perform Feedback and Control 41 2.1.4.7 Summary and Final Remarks 41 2.2.1 Six Sigma Quality Programs 42 2.2.1 Six Sigma Definitions 42					
References 25 2. Process Management and Process-Oriented Improvement Programs 27 2.1 Process Management and the Power of Adopting a Process View 27 2.1.1 Phase I: Initialization 29 2.1.1.1 Process Ownership 30 2.1.2 Phase II: Definition 33 2.1.3 Phase III: Control 34 2.1.3.1 Establishing Control Points 34 2.1.3.2 Developing and Implementing Measurements 35 2.1.3.3 Feedback and Control 36 2.1.4 Illustrative Example: Managing a Document Distribution Process 36 2.1.4.1 Assign Process Ownership 37 2.1.4.2 Analyze Boundaries and Interfaces 37 2.1.4.3 Define the Process 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures 40 2.1.4.6 Perform Feedback and Control 41 2.1.4.7 Summary and Final Remarks 41 2.2.2 Six Sigma Quality Programs 42 2.2.1 Six Sigma Definitions 42					
2. Process Management and Process-Oriented Improvement Programs 27 2.1 Process Management and the Power of Adopting a Process View 27 2.1.1 Phase I: Initialization 29 2.1.1.1 Process Ownership 30 2.1.2 Analyzing Process Boundaries and Interfaces 31 2.1.2 Phase II: Definition 33 2.1.3 Phase III: Control 34 2.1.3.1 Establishing Control Points 34 2.1.3.2 Developing and Implementing Measurements 35 2.1.3.3 Feedback and Control 36 2.1.4 Illustrative Example: Managing a Document Distribution Process 36 2.1.4.1 Assign Process Ownership 37 2.1.4.2 Analyze Boundaries and Interfaces 37 2.1.4.3 Define the Process 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures 40 2.1.4.6 Perform Feedback and Control 41 2.1.4.7 Summary and Final Remarks 41 2.2 Six Sigma Quality Programs 42 2.2.1 Six Sigma Definitions 42					
2.1 Process Management and the Power of Adopting a Process View 27 2.1.1 Phase I: Initialization 29 2.1.1.1 Process Ownership 30 2.1.2.2 Analyzing Process Boundaries and Interfaces 31 2.1.2 Phase II: Definition 33 2.1.3 Phase III: Control 34 2.1.3.1 Establishing Control Points 34 2.1.3.2 Developing and Implementing Measurements 35 2.1.3.3 Feedback and Control 36 2.1.4 Illustrative Example: Managing a Document Distribution Process 36 2.1.4.1 Assign Process Ownership 37 2.1.4.2 Analyze Boundaries and Interfaces 37 2.1.4.3 Define the Process 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures 40 2.1.4.6 Perform Feedback and Control 41 2.1.4.7 Summary and Final Remarks 41 2.2 Six Sigma Quality Programs 42 2.2.1 Six Sigma Definitions 42					
2.1 Process Management and the Power of Adopting a Process View 27 2.1.1 Phase I: Initialization 29 2.1.1.1 Process Ownership 30 2.1.2.2 Analyzing Process Boundaries and Interfaces 31 2.1.2 Phase II: Definition 33 2.1.3 Phase III: Control 34 2.1.3.1 Establishing Control Points 34 2.1.3.2 Developing and Implementing Measurements 35 2.1.3.3 Feedback and Control 36 2.1.4 Illustrative Example: Managing a Document Distribution Process 36 2.1.4.1 Assign Process Ownership 37 2.1.4.2 Analyze Boundaries and Interfaces 37 2.1.4.3 Define the Process 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures 40 2.1.4.6 Perform Feedback and Control 41 2.1.4.7 Summary and Final Remarks 41 2.2 Six Sigma Quality Programs 42 2.2.1 Six Sigma Definitions 42	2.	Proc	ess Ma	nagement and Process-Oriented Improvement Programs	27
2.1.1 Phase I: Initialization					
2.1.1.1 Process Ownership 30 2.1.1.2 Analyzing Process Boundaries and Interfaces 31 2.1.2 Phase III: Definition 33 2.1.3 Phase III: Control 34 2.1.3.1 Establishing Control Points 34 2.1.3.2 Developing and Implementing Measurements 35 2.1.3.3 Feedback and Control 36 2.1.4 Illustrative Example: Managing a Document Distribution Process 36 2.1.4.1 Assign Process Ownership 37 2.1.4.2 Analyze Boundaries and Interfaces 37 2.1.4.3 Define the Process 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures 40 2.1.4.6 Perform Feedback and Control 41 2.1.4.7 Summary and Final Remarks 41 2.2 Six Sigma Quality Programs 42 2.2.1 Six Sigma Definitions 42				Phase I: Initialization	29
2.1.1.2 Analyzing Process Boundaries and Interfaces 31 2.1.2 Phase II: Definition 33 2.1.3 Phase III: Control 34 2.1.3.1 Establishing Control Points 34 2.1.3.2 Developing and Implementing Measurements 35 2.1.3.3 Feedback and Control 36 2.1.4 Illustrative Example: Managing a Document Distribution Process 36 2.1.4.1 Assign Process Ownership 37 2.1.4.2 Analyze Boundaries and Interfaces 37 2.1.4.3 Define the Process 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures 40 2.1.4.6 Perform Feedback and Control 41 2.1.4.7 Summary and Final Remarks 41 2.2 Six Sigma Quality Programs 42 2.2.1 Six Sigma Definitions 42					
2.1.2 Phase II: Definition 33 2.1.3 Phase III: Control 34 2.1.3.1 Establishing Control Points 34 2.1.3.2 Developing and Implementing Measurements 35 2.1.3.3 Feedback and Control 36 2.1.4 Illustrative Example: Managing a Document Distribution Process 36 2.1.4.1 Assign Process Ownership 37 2.1.4.2 Analyze Boundaries and Interfaces 37 2.1.4.3 Define the Process 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures 40 2.1.4.6 Perform Feedback and Control 41 2.1.4.7 Summary and Final Remarks 41 2.2 Six Sigma Quality Programs 42 2.2.1 Six Sigma Definitions 42					
2.1.3 Phase III: Control 34 2.1.3.1 Establishing Control Points 34 2.1.3.2 Developing and Implementing Measurements 35 2.1.3.3 Feedback and Control 36 2.1.4 Illustrative Example: Managing a Document Distribution Process 36 2.1.4.1 Assign Process Ownership 37 2.1.4.2 Analyze Boundaries and Interfaces 37 2.1.4.3 Define the Process 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures 40 2.1.4.6 Perform Feedback and Control 41 2.1.4.7 Summary and Final Remarks 41 2.2 Six Sigma Quality Programs 42 2.2.1 Six Sigma Definitions 42			2.1.2		
2.1.3.1 Establishing Control Points 34 2.1.3.2 Developing and Implementing Measurements 35 2.1.3.3 Feedback and Control 36 2.1.4 Illustrative Example: Managing a Document Distribution Process 36 2.1.4.1 Assign Process Ownership 37 2.1.4.2 Analyze Boundaries and Interfaces 37 2.1.4.3 Define the Process 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures 40 2.1.4.6 Perform Feedback and Control 41 2.1.4.7 Summary and Final Remarks 41 2.2 Six Sigma Quality Programs 42 2.2.1 Six Sigma Definitions 42			2.1.3	1 11a5c 11. Deminion	
2.1.3.2 Developing and Implementing Measurements 35 2.1.3.3 Feedback and Control 36 2.1.4 Illustrative Example: Managing a Document Distribution Process 36 2.1.4.1 Assign Process Ownership 37 2.1.4.2 Analyze Boundaries and Interfaces 37 2.1.4.3 Define the Process 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures 40 2.1.4.6 Perform Feedback and Control 41 2.1.4.7 Summary and Final Remarks 41 2.2 Six Sigma Quality Programs 42 2.2.1 Six Sigma Definitions 42					
2.1.3.3 Feedback and Control 36 2.1.4 Illustrative Example: Managing a Document Distribution Process 36 2.1.4.1 Assign Process Ownership 37 2.1.4.2 Analyze Boundaries and Interfaces 37 2.1.4.3 Define the Process 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures 40 2.1.4.6 Perform Feedback and Control 41 2.1.4.7 Summary and Final Remarks 41 2.2 Six Sigma Quality Programs 42 2.2.1 Six Sigma Definitions 42				Phase III: Control	34
2.1.4 Illustrative Example: Managing a Document Distribution Process				Phase III: Control2.1.3.1 Establishing Control Points	34 34
2.1.4.1 Assign Process Ownership 37 2.1.4.2 Analyze Boundaries and Interfaces 37 2.1.4.3 Define the Process 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures 40 2.1.4.6 Perform Feedback and Control 41 2.1.4.7 Summary and Final Remarks 41 2.2 Six Sigma Quality Programs 42 2.2.1 Six Sigma Definitions 42				Phase III: Control	34 34 35
2.1.4.2 Analyze Boundaries and Interfaces. 37 2.1.4.3 Define the Process. 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures. 40 2.1.4.6 Perform Feedback and Control 41 2.1.4.7 Summary and Final Remarks. 41 2.2 Six Sigma Quality Programs 42 2.2.1 Six Sigma Definitions 42				Phase III: Control	34 35 36
2.1.4.3 Define the Process 39 2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures 40 2.1.4.6 Perform Feedback and Control 41 2.1.4.7 Summary and Final Remarks 41 2.2 Six Sigma Quality Programs 42 2.2.1 Six Sigma Definitions 42				Phase III: Control	34 35 36
2.1.4.4 Establish Control Points 40 2.1.4.5 Develop and Implement Measures 40 2.1.4.6 Perform Feedback and Control 41 2.1.4.7 Summary and Final Remarks 41 2.2 Six Sigma Quality Programs 42 2.2.1 Six Sigma Definitions 42				Phase III: Control	34 35 36 36
2.1.4.5 Develop and Implement Measures 40 2.1.4.6 Perform Feedback and Control 41 2.1.4.7 Summary and Final Remarks 41 2.2 Six Sigma Quality Programs 42 2.2.1 Six Sigma Definitions 42				Phase III: Control 2.1.3.1 Establishing Control Points 2.1.3.2 Developing and Implementing Measurements 2.1.3.3 Feedback and Control Illustrative Example: Managing a Document Distribution Process 2.1.4.1 Assign Process Ownership 2.1.4.2 Analyze Boundaries and Interfaces	34 35 36 36 37
2.1.4.6 Perform Feedback and Control 41 2.1.4.7 Summary and Final Remarks 41 2.2 Six Sigma Quality Programs 42 2.2.1 Six Sigma Definitions 42				Phase III: Control	34 35 36 36 37 37
2.1.4.7 Summary and Final Remarks				Phase III: Control 2.1.3.1 Establishing Control Points 2.1.3.2 Developing and Implementing Measurements 2.1.3.3 Feedback and Control Illustrative Example: Managing a Document Distribution Process 2.1.4.1 Assign Process Ownership 2.1.4.2 Analyze Boundaries and Interfaces 2.1.4.3 Define the Process 2.1.4.4 Establish Control Points	34 35 36 37 37 39
2.2 Six Sigma Quality Programs				Phase III: Control 2.1.3.1 Establishing Control Points 2.1.3.2 Developing and Implementing Measurements 2.1.3.3 Feedback and Control Illustrative Example: Managing a Document Distribution Process 2.1.4.1 Assign Process Ownership 2.1.4.2 Analyze Boundaries and Interfaces 2.1.4.3 Define the Process 2.1.4.4 Establish Control Points 2.1.4.5 Develop and Implement Measures	34 35 36 37 37 39 40
