## BUSINESS PROCESS CHANGE A BUSINESS PROCESS MANAGEMENT GUI&E FOR MANAGERS AND PROCESS PROFESSIONALS

**Third Edition** 

PAUL HARMON Executive Editor, www.BPTrends.com Chief Methodologist, Business Process Trends Associates Foreword by Tom Davenport

> Amsterdam • Boston • Heidelberg • London New York • Oxford • Paris • San Diego San Francisco • Singapore • Sydney • Tokyo, Morgan Kaufmann is an imprint of Elseyier

## CONTENTS

Foreword		xvii
Preface to the Third	Edition	xix
Introduction	^	xxiii

1.	Business Process Change		1
	Organizations as systems		2
	Systems and value chains		2
	The Six Sigma movement		7
	Business processjchange in the 1990s	tf ^.	8
	Lean and the Toyota Production System		11
	Other process change work in the 1990s		12
	A quick summary		15
	Business process change in the new millennium		16
	What drives business process change?		17
	Notes and references		19

## Part I Organization-Wide Concerns

2.	Strategy, Value Chains, Business Initiatives, and	nd Competitive Advantage	27
	Defining a strategy		28
	Porter's model of competition		30
	Industries, products, and value propositions		33
	Strategies for competing		34
	Porter's theory of competitive advantage		36
	Porter's strategic themes		40
	Treacy and Wiersemp's positioning strategies		42
	The balanced scorecard approach to strategy		43
	Business models		47
	Business initiatives		47
	Summary		48
	Notes and references		50
3.	Understanding Your Organization		53
	A comprehensive business process method		53
	Strategy and enterprise BPM		56
	Understand the enterprise	n -	57
	The traditional view of an organization's structure	^	57
	A case study of organization transformation		59

Contents

4. Business Architecture V	.73
Notes and references	71
Systems and processes	69
Organizations and value chains	66
Organization diagrams	64
Models and diagrams	63
The systems vieVv of an organization	62

The Supply Chain Council's SCOR framework			76	
Business architecture: The IT approach			79	
Business process architecture			84	
Defining an architecture using a framework			95	
The Supply Chain Council's SCOR framework			95	
Developing a supply chain architecture with <sup>1</sup> *COR	1 *•	••	96	
The extension of SCOR			100	
Another approach			103	
Summary			106	
Notes and references			107	

Notes	and	reterences

Notes and references

5.	Measuring Process Performance	109
	Key measurement terms	109
	Developing a comprehensive measurement system	114
	Balanced Scorecard and process measures	115
	Aligning process measures,	120
	Deriving measures from business process frameworks	122
	Putting it all together	125
	Completing the business process architecture worksheet	127

6.	Process Management	131
	The process perspective •'	131
	What is management?	133
	Matrix management	140
	The management of outsourced processes	143
	Value chains and process standardization	143
	Management processes	146
	Documenting management processes in an architecture	153
	Completing the business process architecture worksheet	154
	Notes and references	155

127

7. An Executive Level BPM Group   157     What does a BPM group do?   157     Create and maintain the enterprise business process architecture   158     Identify, prioritize, and scope business process change projects   159     Help create, maintain, and manage the process performance system   166     Help create and support the process manager system   167     Recruit, train and manage business process change professionals   168     Manage risk/compliance reporting and documentation ^   168     A case study: Boeing's GMS division   189     Summary   180     The BPM group   181     Notes and references   181     Porcess 'llevel Concerns   1 ****     8.
