5	Characteristics of hyperinflations	72
5.1	Introduction	72
5.2	Some characteristics of the French hyperinflation	74
5.3	Hyperinflations are caused by government budget deficits	77
5.4	Real stock of money and currency substitution	82
5.5	Undervaluation and currency substitution	90
5.6	*Undervaluation as a consequence of currency substitution: a simple model	98
5.7	Other characteristics of hyperinflations	100
	5.7.1 Consequences of high inflation for capital markets	100
	5.7.2 The development of prices	103
5.8	Economic activity and unemployment	109
5.9	The political economy of high inflation	112
5.10	Social and political consequences of hyperinflation	115
5.11	Conclusions	118
6	Currency competition, inflation, Gresham's Law and exchange rate	122
6.1	Introduction	122
6.2	Empirical evidence for periods one to three	124
6.3	*The model	126
6.4	*First period: introduction of paper money	129
6.5	*Second period: fixed exchange rate and loss of official reserves	130
6.6	Third period: Gresham's Law at work	131
6.7	*Fourth Period: The return of good money	134
6.8	Conclusions	139
7	Ending mild or moderate inflations	143
7.1	Conditions favouring the stabilisation of moderate inflation	143
7.2	Restoration of stable monetary constitutions after wars at the old parity	144
7.3	Preconditions for returning to a stable monetary regime at a new parity	146
7.4	Further discussion of historical examples	154
7.5	More recent historical examples	159
7.6	Conclusions	165
8	Currency reforms ending hyperinflations	168
8.1	Introduction	168
8.2	Political-economic preconditions for initiating successful reforms	170

8.3	Sufficient economic and institutional conditions for successful currency reforms	171-
8.4	Characteristics of most successful currency reforms: empirical evidence	174
8.5	Less and least successful reforms	183
8.6	The influence of wrong evaluations of reform packages by the public	197
8.7	Conclusions	201
§		
9	Forces establishing, maintaining and eroding stable monetary regimes	205
9.1	Stable monetary regimes before the gold standard	205
9.2	Forces eroding and destroying stable monetary regimes	208
9.3	Conditions favouring the introduction of stable monetary regimes	210
9.4	Conclusions	212
<i>Appendix</i>	Sources for historical data not identified in the text and literature relating to different cases of hyperinflation	214
<i>Index</i>		225
