

MARTIN PECK (EDITOR)

Modern Concrete Construction

W

STRUCTURAL DESIGN
MATERIAL PROPERTIES
SUSTAINABILITY

Contents

Imprint	4
Foreword	6
Part A Introduction	
1 On the stage of architecture Torsten Forster	10
Part B Fundamentals I	
Building material and products Martin Peck	22
2 Concrete construction operations Martin Peck	46
3 Materiality and surface Martin Peck	54
4 Designing structures with structural concrete Stephan Engelsmann, Stefan Peters, Valerie Spalding, Franz Forstlechner	70
5 Digital design and fabrication methods Tobias Wallisser	106
Part C Fundamentals II	
1 Sustainable construction with concrete Peter Lieblang	116
2 *.Costs"and economics Peter- Lieblang	130
3 Thermal building physics and energy efficiency Peter Lieblang	136
4 Building acoustics Peter Lieblang '	152
5 Renovation and restoration . Arthur WolfrutV; Christoph Dauberschmidt	160
6 Interiors, design, vision Ulrike Forschler	172
Part D Examples of completed buildings in detail	
Project examples 1 to 19	181
Part E Appendix	
Authors	261
Regulations, directives, standards	262
Bibliography	263
Picture credits	266
Index	268
