ADVENTURES /. SOCIAL RESEARCH

Data Analysis Using IBM* SPSS* Statistics

Earl Babbie
Chapman University

William E. Wagner, III
California State University, Channel Islands

Jeanne Zaino
lona College

(DSAGE

Los Angeles | London | New Delhi
Singapore | Washington DC | Boston

BRIEF CONTENTS

Preface xvii

About the Authors xxiii

Part I Preparing for Data Analysis

Chapter 1 Introduction: The Theory and Practice of Social Research 3

Chapter 2 The Logic of Measurement 15

Chapter 3 Description of Data Sets: The General Social Survey 25

Part II Univariate Analysis

Chapter 4 Using SPSS Statistics: Some Basics 33

Chapter 5 Describing Your Data: Religiosity 51

Chapter 6 Presenting Your Data in Graphic Form: Political Orientations

Chapter 7 Recoding Your Data: Religiosity and Political Orientations 99

Chapter 8 Creating Composite Measures: Exploring Attitudes Toward Abortion in More Depth 123

Chapter 9 Suggestions for Further Analysis 143

Part III Bivariate Analysis

Chapter 10 Examining the Sources of Religiosity 159

Chapter 11 Political Orientations as Cause and Effect 177

Chapter 12 What Causes Different Attitudes Toward Abortion? 193

Chapter 13 Measures of Association for Nominal and Ordinal Variables

Chapter 14 Correlation and Regression Analysis 235

Chapter 15 Tests of Significance 263

Chapter 16 Suggestions for Further Bivariate Analyses 287

Part IV Multivariate Analysis 297

Chapter 17 Multiple Causation: Examining Religiosity in Greater Depth 299

Chapter 18 Dissecting the Political Factor 321

Chapter 19 A Powerful Prediction of Attitudes Toward Abortion 333

Chapter 20 Suggestions for Further Multivariate Analyses 355

PartV The Adventure Continues 367

Chapter 21 Designing and Executing Your Own Survey 369

Chapter 22 Further Opportunities for Social Research 391

Appendix A: The Codebook 399

Appendix B: Questionnaire for Class Survey 437

Index/Glossary 455

DETAILED CONTENTS

Preface xvii

About the Authors xxiii

Part I Preparing for Data Analysis 1

Chapter 1 Introduction: The Theory and Practice of Social Research 3
Overview 3
Why Use a Database? 4
SPSS Statistics 4
Social Research: A Primer 5
Concepts and Theories: Deprivation Theory 6
Variables and Hypotheses: Religiosity 7
Table 1.1: Concepts, Theories, Variables, and Hypotheses 7
Table 1.2: Variables and Categories 8
Social Research Strategies: Inductive and Deductive 8
Theory and Research in Practice 10
Example 1: Political Orientations 10
Example 2: Attitudes Toward Abortion 10
Conclusion 11
Main Points 12
Key Terms 12
Review Questions 12

Chapter 2 The Logic of Measurement 15
Validity Problems 15
Reliability Problems 16
Distinguishing Between Validity and Reliability 17
Multiple Indicators 18
Levels of Measurement 18
Nominal Variables 18
Ordinal Variables 19
Ratio Variables 19
Interval Variables 19
Measurement and Information 20
Table 2.1: Levels of Measurement 20
Measurement Options 21
Classifying Variables as Discrete or Continuous 21
Conclusion 21
Table 2.2: Tips for Distinguishing Between Discrete and Continuous Variables 22
Main Points 22
Key Terms 22
Review Questions 23

Chapter 3 Description of Data Sets: The General Social Survey 25
Sampling 26
Data Collection 27
The Codebook: Appendix A 27
Data Set 1: DEMO.SAV 28
Data Set 2: EXER.SAV 28
Data Set 3: GSS2012.SAV 28
Conclusion 28
Main Points 28
Key Terms 29
Review Questions 29

Part II Univariate Analysis 31

Chapter 4 Using SPSS Statistics: Some Basics 33
Demonstration 4.1: Starting an SPSS Statistics Session 33
SPSS Statistics Command 4.1: Starting an SPSS Statistics Session 33
Demonstration 4.2: Exploring the Data View Portion of the Data Editor 35

Menu Bar 35
Getting Help 36
SPSS Statistics Command 4.2: Accessing the Help Menu 36
Toolbar 36
Dialog Boxes 36
SPSS Statistics Command 4.3: Getting Help in a Dialog Box 37
Scroll Bars: Moving Through the Data Editor 37
SPSS Statistics Command 4.4: Moving Through the Data Screen 38
Demonstration 4.3: Entering Data—A Preview 38
Demonstration 4.4: Loading a Data Set 39
SPSS Statistics Command 4.5: Opening a Data File 40
Demonstration 4.5: Raw Data in Data View 41
Finding Variable Information: Values and Labels 41
Option 1: Variables Dialog Box 42
Option 2: Toggling Between Numeric Values and Value Labels 43
Option 3: Value Labels Tool 44
SPSS Statistics Command 4.6: Finding Information on Variables 44
Demonstration 4.6: Variable View Tab 45
SPSS Statistics Command 4.7: Finding Information on Variables in Variable View 46
Demonstration 4.7: Ending Your SPSS Statistics Session 46
SPSS Statistics Command 4.8: Ending Your SPSS Statistics Session 46
Conclusion 47
Main Points 47
Key Terms 47
SPSS Statistics Commands Introduced in This Chapter 47
Review Questions 47
SPSS Statistics Lab Exercise 4.1 49

Chapter 5 Describing Your Data: Religiosity 51
Demonstration 5.1: Opening Frequently Used Data Files 51
SPSS Statistics Command 5.1: Shortcut for Opening Frequently Used Data Files 52
Demonstration 5.2: Setting Options—Variable Lists and Output Labels 53
SPSS Statistics Command 5.2: Setting Options—Displaying Abbreviated Variable Names Alphabetically 53
SPSS Statistics Command 5.3: Setting Options—Output Labels 54
SPSS Statistics Command 5.4: Setting Values and Labels as "Missing" 56
Demonstration 5.3: Frequency Distributions 56
SPSS Statistics Command 5.5: Running Frequency Distributions 59
The SPSS Statistics Viewer: Output 59
SPSS Statistics Command 5.6: Navigating Through the SPSS Statistics Viewer 59
SPSS Statistics Command 5.7: Changing the Width of the Outline Pane 59
Hiding and Displaying Results in the Viewer 60
SPSS Statistics Command 5.8: Hiding and Displaying Results in the Viewer 60
SPSS Statistics Command 5.9: Hiding and Displaying All Results From a Procedure 60
Reading Frequency Distributions 60
Demonstration 5.4: Frequency Distributions—Running Two or More Variables at One Time 61
SPSS Statistics Command 5.10: Running Frequency Distributions With Two or More Variables 63
Writing Box 5.1 64
Descriptive Statistics: Basic Measures of Central Tendency and Dispersion 65
Table 5.1: Basic Descriptive Statistics Appropriate for Different Types of Variables 66
Table 5.2: Basic Descriptive Statistics Appropriate for Different Levels of Measurement 66

Demonstration 5.5: The Frequencies Procedure 67
SPSS Statistics Command 5.11: The Frequencies Procedure—Descriptive Statistics (Discrete Variables) 69
Demonstration 5.6: The Descriptives Procedure—Calculating Descriptive Statistics for Continuous Variables 69
SPSS Statistics Command 5.12: The Descriptives Procedure—Descriptive Statistics (Continuous Variables) 71
Demonstration 5.7: Printing Your Output (Viewer) 71
SPSS Statistics Command 5.13: Printing Your Output (Viewer) 71
SPSS Statistics Command 5.14: Print Preview 71
Demonstration 5.8: Adding Headers/Footers and Titles/Text 72
SPSS Statistics Command 5.15: Adding Headers and Footers 72
SPSS Statistics Command 5.16: Adding Titles/Text 72
Demonstration 5.9: Saving Your Output (Viewer) 72
SPSS Statistics Command 5.17: Saving Your Output (Viewer) 73
Demonstration 5.10: Saving Changes to Your Data Set 73
SPSS Statistics Command 5.18: Saving Changes Made to an Existing Data Set 74
Conclusion 74
Main Points 74
Key Terms 75
SPSS Statistics Commands Introduced in This Chapter 75
Review Questions 76
SPSS Statistics Lab Exercise 5.1 77

Chapter 6 Presenting Your Data in Graphic Form: Political Orientations 79
Graphing Data With Direct "Legacy" Dialogs 79
Demonstration 6.1: Frequency Table—POLVIEWS 79
Bar Chart: POLVIEWS 80
SPSS Statistics Command 6.1: Simple Bar Chart 83
Demonstration 6.2: SPSS Statistics Chart Editor 83
SPSS Statistics Command 6.2: SPSS Statistics Chart Editor 84
Demonstration 6.3: Frequency Table—PARTYID 85
Pie Chart: PARTYID 85
SPSS Statistics Command 6.3: Pie Chart 87
SPSS Statistics Command 6.4: Accessing Pie Options (SPSS Statistics Chart Editor) 88
Demonstration 6.4: Political Attitudes 89
Writing Box 6.1 89
Demonstration 6.5: Histogram—AGE 90
SPSS Statistics Command 6.5: Histogram 91
Demonstration 6.6: Line Chart—INCOME 92
SPSS Statistics Command 6.6: Simple Line Chart 94
Some Guidelines for Choosing a Chart or Graph 94
Table 6.1: Charts Appropriate for Variables of Different Types 94
Table 6.2: Charts Appropriate for Variables at Different Levels of Measurement 94
Saving and Printing Your Charts 95
Conclusion 95
Main Points 95
Key Terms 95
SPSS Statistics Commands Introduced in This Chapter 95
Review Questions 96
SPSS Statistics Lab Exercise 6.1 97

Chapter 7 Recoding Your Data: Religiosity and Political Orientations 99
Demonstration 7.1: Modifying Variables With Recode—ATTEND CHATT 99
Summary of Steps Involved in Recoding 107
Demonstration 7.2: Recoding AGE —» AGECAT 108
Writing Box 7.1 110

SPSS Statistics Command 7.1: Recoding a Variable 111
Demonstration 7.3: Recoding POLVIEWS -> POLREC 111
Demonstration 7.4: Recoding PARTYID -> PARTY 113
Writing Box 7.2 115
Demonstration 7.5: Saving Changes to Your Data Set 115
SPSS Statistics Command 7.2: Saving Changes Made to an Existing Data Set 116
Conclusion 116
Main Points 116
Key Term 117
SPSS Statistics Commands Introduced in This Chapter 117
Review Questions 117
SPSS Statistics Lab Exercise 7.1 119

Chapter 8 Creating Composite Measures: Exploring Attitudes Toward Abortion in More Depth 123
Demonstration 8.1: Identifying the Seven Abortion Variables—File Info 123
SPSS Statistics Command 8.1: Identifying Variables—File Info 124
Demonstration 8.2: Running Frequencies for Several Variables at Once 124
SPSS Statistics Command 8.2: Running Frequencies for Several Variables (Not Clustered) 124
Items With the Highest Levels of Support 125
Items With Less Support 126
Unconditional Support for Abortion 126
Support for Abortion: An Overview 127
Table 8.1: Variations in Levels of Support for Abortion 127
Index: A Form of Composite Measure 128
ABORT Index 128
ABORT Index Scores 129
Demonstration 8.3: ABORT Index 129
Demonstration 8.4: Defining ABORT 132
Demonstration 8.5: Checking New Index—Comparing Scores on Old and New Variables 133
Demonstration 8.6: Running Frequencies for ABORT 133
SPSS Statistics Command 8.3: Creating a Simple Index Using Count 134
ABINDEX: Index Based on Six Abortion Variables 135
Demonstration 8.7: ABINDEX 135
Demonstration 8.8: Running Frequencies 137
Writing Box 8.1: Description of ABINDEX 138
Conclusion 138
Main Points 139
Key Terms 139
SPSS Statistics Commands Introduced in This Chapter 139
Review Questions 139
SPSS Statistics Lab Exercise 8.1 141

Chapter 9 Suggestions for Further Analysis 143
Desired Family Size 143
Demonstration 9.1: Respondents' Ideal Family Size (CHLDIDEL) 144
Writing Box 9.1 145
Child Rearing 145
Demonstration 9.2: Important Qualities for Children 145
Writing Box 9.2 148
Attitudes About Sexual Behavior 148
Demonstration 9.3: Index of Sexual Permissiveness 149
SPSS Statistics Command 9.1: Setting Values and Labels as "Missing" Using "Range Plus One" Option 149
Writing Box 9.3: Description of SEXPERM Index 151
Prejudice 151
Writing Box 9.4 153
Conclusion 153
Main Points 154
Key Term 154
SPSS Statistics Command Introduced in This Chapter 154
Review Questions 154
SPSS Statistics Lab Exercise 9.1 155

Part III Bivariate Analysis 157

Chapter 10 Examining the Sources of Religiosity 159

Table 10.1: Distinctions Between Univariate and Bivariate Analysis 159

The Deprivation Theory of Religiosity 159
Testing Our Hypothesis: Correlating Religiosity and Gender 160
Demonstration 10.1: Running Crosstabs to Test Our Hypothesis 160

Table 10.2: Tips for Identifying Independent and Dependent Variables 161

Examining Your Output 163
SPSS Statistics Command 10.1: Running Crosstabs—Specifying the Dependent and Independent Variables 163
Interpreting Crosstabs 163
Interpreting Crosstabs: Association, Strength, and Direction 164
Demonstration 10.2: Interpreting a Crosstab With Limited Categories 164
First Question: Is There an Association? 164
Second Question: How Strong Is the Association? 165
Demonstration 10.3: Correlating Another Measure of Religiosity and Gender 165

Writing Box 10.1 166

Drawing Conclusions Carefully: Reassessing Our Original Hypothesis 166
Demonstration 10.4: Interpreting a Crosstab With Ordinal Variables—Religiosity and Age 167
Interpreting Crosstabs With Ordinal Variables 167

Table 10.3: Hypothetical Example of a Positive Association 168

Table 10.4: Hypothetical Example of a Negative Association 168

Examining Your Output 168
Demonstration 10.5: Correlating Other Measures of Religiosity and Age 169

Writing Box 10.2 170

Epsilon 170
Conclusion 170
Main Points 171
Key Terms 171
SPSS Statistics Command Introduced in This Chapter 172
Review Questions 172
SPSS Statistics Lab Exercise 10.1 173

Chapter 11 Political Orientations as Cause and Effect 177

The Relationship Between POLVIEWS and PARTYID 177
Demonstration 11.1: POLREC by PARTY 177
Demonstration 11.2: PARTY by POLREC 178
Age and Politics 179
Demonstration 11.3: POLREC by AGECAT 179
Demonstration 11.4: PARTY by AGECAT 179
Interpreting Your Table: The Relationship Between Age and Party Identification 180
Religion and Politics 180
Demonstration 11.5: POLREC by RELIG 180
Demonstration 11.6: PARTY by RELIG 181
Gender and Politics 182
Demonstration 11.7: PARTY and POLREC by SEX 182
Race and Politics 183
Demonstration 11.8: POLREC by RACE 183
Demonstration 11.9: PARTY by RACE 183
Education and Politics 183
Demonstration 11.10: Recoding EDUC –> EDCAT 184
Demonstration 11.11: POLREC by EDCAT 185
Demonstration 11.12: PARTY by EDCAT 186

Some Surprises: Class, Marital Status, and Politics 186
Social Class 186
Marital Status 187
The Impact of Party and Political Philosophy 187
Saving Recoded Variable: EDCAT 187
Conclusion 187
Main Points 188
Key Terms 188
Review Questions 188
SPSS Statistics Lab Exercise 11.1 189

Chapter 12 What Causes Different Attitudes Toward Abortion? 193
Demonstration 12.1: Gender and Abortion 193
Demonstration 12.2: Age and Abortion 194
Demonstration 12.3: Religion and Abortion 196
Writing Box 12.1 198
Demonstration 12.4: Politics and Abortion 198
Writing Box 12.2 199
Demonstration 12.5: Sexual Attitudes and Abortion 199
Other Factors You Can Explore on Your Own 200
Conclusion 201
Main Points 201
Key Terms 201
Review Questions 202
SPSS Statistics Lab Exercise 12.1 203

Chapter 13 Measures of Association for Nominal and Ordinal Variables 209
The Logic of Statistical Association: Proportionate Reduction of Error 209
Lambda (A,): A Measure Appropriate for Nominal Variables 210
An Indication of Strength of Association 210
Table 13.1: A Summary of Lambda (X)
Example 1: The Logic of Lambda (X) 211
Example 2: The Logic of Lambda ***(X)*** 211
Demonstration 13.1: Instructing SPSS Statistics to Calculate Lambda *(X)* 212
Interpreting Lambda and Other Measures 215
Table 13.2: Some General Guidelines for Interpreting Strength of Association (Lambda [X], Gamma [y], etc.) 215
Caveat: Interpreting Lambdas ofO.OO 216
Writing Box 13.1 216
SPSS Statistics Command 13.1: Running Crosstabs With Lambda *(X)* 216
Gamma (y): A Measure Appropriate for Ordinal Variables 217
An Indication of Strength and Direction (With a Caveat) of Association 217
Table 13.3: Direction of Association: Using Class and Prejudice as an Example 217
Table 13.4: A Summary of Gamma (X) 218
Example 1: The Logic of Gamma **(y) 218**
Example 2: The Logic of Gamma **(y) 221**
Demonstration 13.2: Instructing SPSS Statistics to Calculate Gamma (y)—Example 1 222
Writing Box 13.2 224
Demonstration 13.3: Running Gamma (y)—Example 2 (Reverse Scoring Case) 224
SPSS Statistics Command 13.2: Running Crosstabs With Gamma (y) 227
Additional Measures of Association 227
Table 13.5: Measures of Association Reviewed in This Chapter 227
Table 13.6: Additional Measures of Association 228
Analyzing the Association Between Variables at Different Levels of Measurement 228
Conclusion 228
Main Points 229
Key Terms 229
SPSS Statistics Commands Introduced in This Chapter 229
Review Questions 229
SPSS Statistics Lab Exercise 13.1 231

Chapter 14 Correlation and Regression Analysis 235
Pearson's *r:* A Measure Appropriate for Interval/Ratio Variables 235
An Indication of Strength and Direction of Association 235
Example 1: The Logic of Pearson's r 235
***Table 14.1: Summary of Pearson's* r** 236
Interpreting Pearson's *r* and the Coefficient of Determination (r^2) 240
Table 14.2: Some General Guidelines for Interpreting Strength of Association (Pearson's r, Coefficient of Determination) 240
Instructing SPSS Statistics to Calculate Pearson's *r* 240
Demonstration 14.1: Recoding RINCOMO6 -» RECINC 240
Demonstration 14.2: Using SPSS Statistics to Compute Pearson's r 244
SPSS Statistics Command 14.1: Producing a Correlation Matrix With Pearson's *r* 246
Demonstration 14.3: Requesting Several Correlation Coefficients 246
Writing Box 14.1 247
A Note of Caution 248
Regression Analysis 248
Example 1: The Logic of Regression 248
Demonstration 14.4: Regression 250
SPSS Statistics Command 14.2: Regression 253
Demonstration 14.5: Presenting Data Graphically—Producing a Scatterplot With a Regression Line 253
An Indication of Direction and Strength of Association 256
Writing Box 14.2 257
SPSS Statistics Command 14.3: Producing a Scatterplot With a Regression Line 257
Measures of Association for Interval and Ratio Variables 257
Table 14.3: Measures of Association Reviewed in This Chapter 257
Analyzing the Association Between Variables at Different Levels of Measurement 258
Conclusion 258
Main Points 258
Key Terms 259
SPSS Statistics Commands Introduced in This Chapter 259
Review Questions 259
SPSS Statistics Lab Exercise 14.1 261

Chapter 15 Tests of Significance 263
Statistical Significance 263
Significance Tests: Part of the Larger Body of Inferential Statistics 264
Statistical Significance Versus Measures of Association 264
Chi-Square (x^2) 264
The Logic of Statistical Significance: Chi-Square (%²) 267
Demonstration 15.1: Instructing SPSS Statistics to Calculate Chi-Square 268
Reading Your Output 269
SPSS Statistics Command 15.1: Producing Crosstabs With Chi-Square 270
Practice Running Chi-Square 270
Writing Box 15.1 270
Significance and Association 270
Table 15.1: A Guide to Interpreting Tests of Association and Significance 271
t *Tests* 271
Demonstration 15.2: Instructing SPSS Statistics to Run Independent-Samples *t* Test 273
Reading Your Output 274
SPSS Statistics Command 15.2: Running *t* Test (Independent-Samples *t* Test) 275
Demonstration 15.3: *t* Test—EDUC by SEX 275
Analysis of Variance 276
Demonstration 15.4: Instructing SPSS Statistics to Run ANOVA 276
Reading Your Output 278
SPSS Statistics Command 15.3: ANOVA (GLM Univariate) 279
Writing Box 15.2 279
A Statistical Toolbox: A Summary 280
Table 15.2: A Statistical Toolbox 280
Conclusion 280
Main Points 281
Key Terms 281
SPSS Statistics Commands Introduced in This Chapter 281

Review Questions 282
SPSS Statistics Lab Exercise 15.1 283

Chapter 16 Suggestions for Further Bivariate Analyses 287
Demonstration 16.1: Desired Family Size 287
Writing Box 16.1 289
Child Rearing 289
Attitudes About Sexual Behavior 290
Demonstration 16.2: Investigating Sexual Permissiveness Further 290
Writing Box 16.2 290
Prejudice 290
Additional Resources 291
Conclusion 291
Main Points 292
Review Questions 292
SPSS Statistics Lab Exercise 16.1 292

Part IV Multivariate Analysis 297

Chapter 17 Multiple Causation: Examining Religiosity in Greater Depth 299
Multiple Causation 299
Demonstration 17.1: The Impact of Age and Sex on Religiosity 299
SPSS Statistics Command 17.1: Running Crosstabs With a Control or Third Variable 302
Demonstration 17.2: Family Status and Religiosity 302
Demonstration 17.3: Family Status and Religiosity, Controlling for Age 303
Demonstration 17.4: Social Class and Religiosity 304
Writing Box 17.1 305
Other Variables to Explore 305
Chi-Square and Measures of Association 305
Chi-Square (χ^2) 305
Measures of Association 306
Multiple Regression 306
Dummy Variables 306
Recoding SEX to Create a Dummy Variable: MALE 306
Recoding RACE to Create a Dummy Variable: WHITE 307
SPSS Statistics Command 17.2: Recoding to Create a Dummy Variable 309
Multiple Regression 309
SPSS Statistics Command 17.3: Multiple Regression 312
Conclusion 312
Main Points 312
Key Terms 312
SPSS Statistics Commands Introduced in This Chapter 313
Review Questions 313
SPSS Statistics Lab Exercise 17.1 315

Chapter 18 Dissecting the Political Factor 321
Political Philosophy and Party Identification 321
Demonstration *18.1:* Controlling for Education 322
Demonstration 18.2: The Mystery of Politics and Marital Status 323
Recoding MARITAL 323
POLREC by MARITAL2 323
POLREC by MARITAL2 by AGECAT 324
POLREC by MARITAL2 by SEX 325
POLREC by MAR1TAL2 by EDCAT 325
POLREC by MARITAL2 by RACE 325
POLREC as Independent Variable 326
Writing Box 18.1 327
Political Issues 327
Conclusion 327
Main Points 328
Key Terms 328
Review Questions 328
SPSS Statistics Lab Exercise 18.1 329

Chapter 19 A Powerful Prediction of Attitudes Toward Abortion 333
Religion and Abortion 333
Demonstration 19.1: Religious Affiliation and Church Attendance 333
Demonstration 19.2: Religious Affiliation, Church Attendance, and Abortion 335
Recoding RELIG and ATTEND Into Different Variables 336
SPSS Statistics Command 19.1: Recoding Into Different Variables 336

Crosstab Recoded Variables 338
Relationship Between ABORT and Recoded Items 338
Politics (POLREC, PARTY) and Abortion (ABORT) 339
Demonstration 19.3: The Interaction of Religion and Politics on Abortion Attitudes 339
Demonstration 19.4: Constructing an Index of Ideological Traditionalism 340
Step 1: Create IND 341
Step 2: Assign Points—If Liberal (1) on POLREC, Get Two Points on IND 341
Step 3: *Assign Points—If Moderate (2) on POLREC, Get One Point on IND* 343
Step 4: Assign Points—If "None" (2) on RELIG, Get One Point on IND 343
Step 5: Assign Points—If Seldom (2) on ATTEND, Get One Point on IND 343
Step 6: Handle Missing Data 343
Step 7: *Define IND* 345
SPSS Statistics Command 19.2: Creating an Index Using Compute Variable 346
Run Frequencies to Check IND 346
Does IND Predict Attitudes Toward Abortion? 347
Sexual Attitudes and Abortion 347
Demonstration 19.5: Recode PREMARSX and HOMOSEX 347
Demonstration 19.6: The Relationship Between Sexual Permissiveness and IND 348
Writing Box 19.1 349
Conclusion 349
Main Points 349
Key Terms 350
SPSS Statistics Commands Introduced in This Chapter 350
Review Questions 350
SPSS Statistics Lab Exercise 19.1 351

Chapter 20 Suggestions for Further Multivariate Analyses 355
Ideal Family Size and Abortion 355
Writing Box 20.1 356
Child Rearing 356
The Protestant Ethic 357
Capital Punishment, Gender, and Race 358
Demonstration 20.1: CAPPUN by SEX 358
Demonstration 20.2: CAPPUN by SEX, Controlling for RACE 359
Conclusion 361
Main Points 361
Key Term 361
Review Questions 361

PartV The Adventure Continues 367

Chapter 21 Designing and Executing Your Own Survey 369
The Social Research Process and Proposal 369
Designing and Executing Your Own Survey 370
Sample Questionnaire 371
Getting Ready for Data Analysis Using SPSS Statistics 371
Step 1: Defining Your Data *371*
Demonstration 21.1: Example 1—Defining ID 372
Variable Names 372
Type 373
Decimal 373
Width 374
Label 374
Values 375
Missing 375
Columns and Align 375
Measure 376
Demonstration 21.2: Example 2—Defining CHLDIDEL 377
SPSS Statistics Command 21.1: Defining a Variable 378
Copying Variables With Shared Attributes: Abortion Variables 378
Demonstration 21.3: Copying a Variable 378
SPSS Statistics Command 21.2: Copying a Variable 381
Demonstration 21.4: Saving Your New File 381
SPSS Statistics Command 21.3: Saving a New Data File 381
LOCAL.SAV 382

Step 2: Editing and Coding Your Data *382*
Unique ID Number 382
Coding Open-Ended Questions 382
Ensuring That Codes Are Easy to Read 382
Editing Questionnaires 383
Demonstration 21.5: Accessing File Information for Coding and Editing 383
SPSS Statistics Command 21.4: Accessing File Information for Coding and Editing 384
Step 3: Entering Your Raw Data *384*
Demonstration 21.6: Moving Through Data View 384
SPSS Statistics Command 21.5: Some Tips for Moving Through Data View 384
Demonstration 21.7: Entering Data 384
SPSS Statistics Command 21.6: Entering Numeric Data 385
Demonstration 21.8: Revising or Deleting Data 385
SPSS Statistics Command 21.7: Deleting an Entire Case 385
Demonstration 21.9: Saving Your Data File 385
Writing a Research Report 385
Conclusion 386
Main Points 386
Key Terms 386
SPSS Statistics Commands Introduced in This Chapter 386
Review Questions 387
