

DRY STONE WALLS

Fundamentals, Construction, Significance

Environmental Action Foundation

Editor

Scheidegger & Spiess

TABLE OF CONTENTS

A – AT THE BEGINNING...

<i>A Dry Stone World – Making Stones Sing</i>	8
By Richard Tufnell	
<i>Photographic Essay on Dry Stone Walls from All Language Regions of Switzerland</i>	18
By Michael Rast	

K – KNOWLEDGE

By Ingrid Schegk

<i>Dry Stone Walling is Gentle Construction</i>	45
<i>Stone – The Stuff Mountains are Made of</i>	47
<i>The Emergence of Stone – How Stones Originated</i>	47
Igneous Rocks	47
Sedimentary Rocks	48
Metamorphic Rocks	49
Young and Old	49
<i>Properties of Stone – How Stones Vary</i>	50
Color and Texture	50
Surface and Friction	51
Density and Specific Weight	51
Hardness	52
Cleavability	54
Strength	54
Durability	55
Significance	55
Age and Degree of Weathering	55
Appearance and Reality	56
<i>Extracting Stone – From the Quarry to the Building Site</i>	58
Exposure	59
Extraction	59
Extraction using a "Natural Explosive"	60
Finishing and Reworking	60
<i>Landscape – Synthesis of Nature and Culture</i>	65
<i>Landscape and Time – On the Development of the Landscape</i>	66
Stone, Water, Ice	66

<i>From Hunter-Gatherer to Farmer</i>	67
Transalpine Landscape	68
Cities and Wine –Roman Cultural Revolution	68
Comeback and End of Mobility	69
Cities Flourish –Landscapes in Crisis	70
Garden Art and Landscape Design	71
Industrialization and Land Consolidation	73
<i>Landscape and Mankind – On Culture and Utilization</i>	75
Cultural Landscape	75
Uses and Cultures: Wine and Stone	75
Intensive – Extensive	81
Hedges, Walls, Fences, and Trenches as Additions to Cultivation	81
Cultural Landscape – Recreational Landscape	83
<i>Landscape and Stone – On Man-Made Landscapes</i>	85
Terraced Landscapes	85
Pasture Landscapes	86
<i>Building – Elementary Design in Spaces</i>	93
<i>History of Building – The Ancestors of Dry Stone Walls</i>	93
Megalithic Culture	94
Mediterranean Dry Stone Walling in the Bronze Age	96
Cement, the Modern Age Stone	97
<i>Building without Master Builders – Building Culture away from the Cities</i>	101
City versus Country – Power versus People	101
Anonymous Building and Sustainability	102
<i>Structural Elements – Types of Dry Stone Walls</i>	106
Uphill – Downhill: Access and Development	106
Protection for Sheep and Trees	III
Stone Pantries	III
Under Corbelled Domes – Dry Stone Rotundas	113
The Wall that Went for a Walk – Dry Stone Walling in Art	116
<i>Stone Walls – Craftsmanship in Stones</i>	119
<i>History of Walls – Antique Masonry</i>	119
Opus incertum, opus antiquum	120
Opus reticulatum	120
Opus quadratum	121
Opus africanum	122
Opus implectum	122
Opusmixtum	123
Opusspicatum	123
<i>Masonry Techniques – The Structural System Dry Stone Wall</i>	129
Gravity Walls	129
Retaining Walls	131
Revetment Walls	132
Self-Draining System and Filter Stability	133

Pros and Cons of Geotextiles	134
Steps	135
Arches – Fascinating Spans	136
Freestanding Walls	136
Advantage Dry Stone Wall – A Technical Conclusion	137
<i>Wall Styles – Design and Craftsmanship</i>	140
Joint, Shape, Workmanship	140
Polygonal Patterns: Boulder and Cyclopean Masonry	141
Orthogonal Patterns: Layers and Courses	141
Diagonal Patterns: Herringbone	142
Mechanical Walling and Bonding: Blocks and Gabions	147
<i>Final Comments</i>	148
<i>Bibliography</i>	152
B – BUILDING	
<i>Building Dry Stone Walls in the Civilian Service</i>	160
By Christine Loriol	
<i>Dry Stone Walls on the Montoz</i>	164
Photo reportage by Katherina Wernli	
<i>The Project – What It Takes to Build a Wall</i>	179
<i>Step by Step: An Outline of the Building Project</i>	179
<i>The Task: Different Types of Stone Walls</i>	180
Freestanding Walls	180
Retaining Walls	180
Revetment Walls	181
Renovations and Reconstructions	182
