

Concepts – Methods – Materials

# Architecture and Model Building

Alexander Schilling

Birkhauser Basel

# Foreword

## 1 Historical Context

- 17 The emergence of the architectural profession
- 17 The wooden model as an expression of the architecture
- 17 Model making craftsmanship and materials
- 25 New materials and new constructions

## 2 The Representation of Architecture

- 31 The role of the architectural model
- 31 Models and other media for representation
- 31 Analog drawings
- 33 Digital medium – Building Information Modeling

## 3 Typology

- 37 Scale
- 37 Abstraction
- 41 Model types

## 4 Function

- 99 The function of the architectural model during design
- 109 Presentation models in architecture courses
- m Presentation models in practice – final construction models
- 119 Model and reality

## 5 Model Construction Site

- 123 From concept to model
- 131 Materials and modeling resources
- 145 Making the model
- 155 Staffage
- 162 Tools
- 171 Machines
- 173 Digital model making

## 6 Presentation and Views

- 181 Architectural models in the eye of the beholder
- 185 Model photography

## ,« Outlook

## 198 Conclusion

- 200 Acknowledgments
- 201 Further Reading
- 202 Image credits
