4 METAL WALLS

54 GLASS WALLS 11

Newtecnic is an international world leader in the engineering design and architectural design of complex, highly ambitious construction projects and advanced building envelope systems.

| | |
|--|----|
| Design to prototype | B |
| Comparison of systems | 1B |
| Preliminary specification for inventory models | 22 |
| Prototyping | 44 |
| BIM to fabrication | 50 |

| | |
|----------------------------|-----|
| 01 Sheet metal | 56 |
| 02 Profiled metal cladding | 66 |
| •3 Composite panels | 76 |
| •4 Metal rainscreens | 86 |
| •5 Mesh screens | 96 |
| 06 Louvre screens | 106 |

| | |
|-----------------------|-----|
| 07 Stick glazing | 1 |
| 08 Unitised glazing | 11j |
| 09 Clamped glazing | 1E |
| 10 Bolt fixed glazing | 1i |
| 11 Glass blocks | 1! |
| 12 Steel windows | 1ij |
| 13 Aluminium windows | 11 |
| 14 Timber windows | 19 |

The company undertakes the engineering and architectural design of building structures, facades and MEP installations in partnership with leading international developers and large contractors. Newtecnic also works on some projects with signature architects.

In partnership with the Engineering Departments of Cambridge University and the University of Houston. Newtecnic's R&D team analyses, develops, tests, validates and specifies new building products, technologies and methods.

| | |
|-------------------------|------------|
| METAL ROOFS | 316 |
| 26 Metal standing seam | 318 |
| 27 Profiled metal sheet | 328 |
| 28 Composite panels | 338 |
| 29 Rainscreens | 348 |
| 30 Metal canopies | 358 |

| | | |
|---|------------|-----------------------|
| GLASS ROOFS | 368 | CONCRETE ROOFS |
| 31 Silicone-sealed glazing and rooflights | 370 | 36 Concealed membrane |
| 32 Bolt fixed glazing: small scale rooflights | 380 | 37 Exposed membrane |
| 33 Bolt fixed glazing: large scale rooflights | 390 | 38 Planted |
| 34 Bolt fixed glazing: twin wall roofs | 400 | |
| 35 Bonded glass rooflights | 410 | |
