

**Visionaries
and Engineers
Unsung Heroes
Design
Tomorrow**

Edition DETAIL

Edited by
Werner Lang and Cornelia Hellstern

- 6 Engineers in the Building Sector
Werner Lang, Cornelia Hellstern
- 9 Designing Life
Wilhelm Vossenkuhl

On Inventors, Entrepreneurs, Problem-Solvers and Designers

- 14 Civil and Building Engineers – the Emergence of the Professions
Bill Addis
- 20 Networks of Engineering Expertise
Dirk Buhler
- 26 Women Pioneers of the Big Modern Building Sites – How They Became Who They Are
Margot Fuchs
- 30 On the Education of Engineers
Gerhard Muller
- 36 Engineering Aesthetics
Nina Rappaport

ENCLOSURE + SPACE

Arch and Shell Structures

- 43 Creating Spaces: Linking Aesthetics and Structure
- 44 On the Development of the Zeiss-Dywidag Shell Construction System
Cengiz Dicleli
- 47 Form Finding – Graphical Tools, Experiments and Models, Numerical Methods
- 51 Computer-Based Processes for Biomimetic Structures
Jan Knippers, Achim Menges
- 58 Structural Design and Form Finding Processes
Christoph Gengnagel

Tensile Structures

- 65 Wide and Light
- 66 Lightweight Textile Construction – Development of Simulation **Methods from the 1970s to the Present**
Kai-Uwe Bietzinger
- 71 The Spoked Wheel for Ring Cable Roofs in Lightweight **Construction**
Knut Goppert
- 75 Lightweight Construction in Motion

Building Construction – Focus on Timber

- 77 Exploring New Dimensions with Timber
- 82 Material and Design – Is Hybrid the Future?
Stefan Winter

Towers and High-Rises

- 87 Aiming High
- 89 Pushing the Limits
Annette Bogle, Christian Hartz, Bill Baker
- 94 The Buttressed Core

WATER + ENERGY

Water Supply and Wastewater Disposal

- 99 Water in Cities
- 100 Water Transitions in Cities of the Future
Jorg E. Drewes
- 105 Sewage Becomes Heat Energy
- 106 Emscher Conversion: Ecological Restructuring of a Wastewater System

Functional and Protective Structures

- 109 Protection and Safety, Water and Energy Supply
- 110 Protection from the Forces of Nature
- 114 Reinforcing Reservoir Dams: the Sylvenstein Dam Pilot Project
Peter Rutschmann
- 116 Challenges in the Discourse Between Technology and Society
Peter Rutschmann

Table of Contents

- 119 Engineers as Entrepreneurs – Influences on the Development of Civil Engineering and Society
Roland Pawlitschko
- 124 The TUM Hydro Shaft Power Plant Innovation
Peter Rutschmann

Offshore Wind Turbines

- 127 Wind Becomes Energy
- 128 Electricity from the Sea
- 130 The Energy Transition as an Assignment for Civil Engineers
Christian Dehiinger
- 133 Floating Wind Farm – Hywind Scotland
- 134 Floating and Self-Erecting: TELWIND
- 135 Flexible Membrane Wings for Wind Turbines
- 136 The Role of Environmental Engineers in Limiting the Side Effects of Modern Technology
Joachim Scheuren, Carl-Christian Hantschk

MOBILITY + TRANSPORTATION

Construction of Roads and Railways

- 141 Gaining Access
- 145 Record Heights: the Zugspitze Cable Car
- 147 Slab Tracks for Rail Traffic
Stephan Freudenstein

Beam Bridges

- 151 Bridges into the Future
- 152 Integral and Semi-Integral Bridges
- 154 Ulrich Finsterwalder and the Development of Cantilever Construction
Cengiz Dicieli
- 157 Improving Quality and Efficiency through Procurement Procedures Involving Supplemental Offers and Alternative Proposals

Roland Pawlitschko

Tunnel Construction

- 161 Below the Water and Through the Mountain

- 162 The Development of Tunnel Construction and Tunnelling Machines
Roberto Cudmani
- 166 Traversing Mountain Ranges
- 168 Geodesy – a Breakthrough Success
Thomas Wunderlich
- 171 Using Tunnels for the Extraction of Geothermal Energy
Roberto Cudmani

Cable and Suspension Bridges

- 175 Overcoming Distances
- 176 Linking Continents
- 178 Spanning Farther
- 180 Shortening Journeys

Traffic Technology

- 183 New Mobility
- 184 Mobility and Traffic as Dynamic Fields for Engineers
Fritz Busch
- 188 Diagonal Crossings: Oxford Circus
- 189 Cooperative Systems

Outlook

- 192 Future Challenges for Civil Engineers
Werner Lang

Appendix

- 198 Biographical Listing of Engineers
- 209 Index of Names
- 209 Project Index
- 210 Subject Index
- 211 Picture Credits
- 212 References
- 213 Authors, Panel of Experts and Specialist Advisors
- 216 Imprint

introductory texts and project descriptions are written by the curators of the exhibition.
