# Contents

<b>Preface</b>	
<b>Introduction: Perspectives on New School Building</b>	<b>8</b>
9 About this book / 11 Selected school building programmes / 20 Lessons learned	
<b>1 From Ideas for Learning to Architectural Form</b>	<b>24</b>
26 Transformational ideas / 28 The school as a workplace / 33 Subject-specific learning bases / 38 A school within a school / 42 Open Studio Learning	
<b>2 Nature, Ecology and Environmental Design</b>	<b>48</b>
50 Linking learning to ecology – The Forest School movement – Schools and the natural elements / 54 Genius loci – Life cycles in schools – Native materials and indigenous technologies – Environmental and social sustainability / 60 School design and environmental standards – The Passivhaus – Towards carbon neutral schools	
<b>3 Flexible Space for Learning</b>	<b>70</b>
72 Moving parts – Reconfiguring learning space – Dividing large spaces / 76 Large multi-purpose spaces – Central atrium – The multi-functional staircase / 81 Temporary school buildings – Modular solutions – Mobile lessons / 83 Long-term flexibility: adaptable space design – Manipulating internal space – Learning cluster organisation / 87 Moving the whole school	
<b>4 Schools and the Community</b>	<b>90</b>
92 Community access – An open facility – Bringing generations together – Schools integrated into social fabric – Cultural cohesion and celebration of diversity / 100 Catalysts for regeneration – Raising aspirations	
<b>5 Participating in the Design and Construction Process</b>	<b>108</b>
110 The benefits of a participative approach – The difference between consultation and participation – The role of young people within the design process / 111 Developing a design brief – Collaborative brief-building – Empowering the users / 114 Design involvement – Participatory involvement in smaller projects – Collaborative design – Getting active at the building site – Learning through building – Community self-build projects – Post-occupancy evaluation: monitoring use and performance	
<b>6 Learning Outside the Classroom</b>	<b>130</b>
132 Settings for personalised learning – Entering a school – Entrances to subject areas / 143 Colour and material / 147 Circulation spaces, corridors and service areas – Toilets	

<b>7 Learning in the Landscape</b>	<b>156</b>
158 Learning outside: using the school landscape – A community playground – Topography and existing soft landscape – Recreation and sport – Teaching in the landscape	
<b>8 Special Schools should be Special</b>	<b>172</b>
174 Mainstream or special schools? /175 Legibility /179 Inclusion and equality /183 Co-location / 184 Community interaction /188 Preparing for adult life	
<b>9 Refurbishment and Extension of Existing Schools</b>	<b>192</b>
194 Transforming school buildings / 203 Creating new or reinforcing existing identities / 207 Unifying the campus / 212 Strategic alterations and phased development / 214 Adaptation of other buildings and prefabrication	
<b>10 Furniture and Equipment in Learning Spaces</b>	<b>220</b>
222 Making and marking space – Chairs and desks – Creating a sense of entrance – Dividing space / 226 'Where are we going to put everything?': furniture for storage – Fixed and mobile storage solutions – Integrating storage into the building / 229 Furniture components: a variety of approaches – Convertible furniture – Furniture integrated with fixtures and services – Using the building fabric	
Bibliography	236
Index of Buildings, Architects and Locations	238
Illustration Credits	240
