ELSEVIER

North Holland is an imprint of Elsevier

| | |
|-----------------------------------|-------------|
| <i>Introduction to the Series</i> | <i>xi</i> |
| <i>Contributors</i> | <i>xiii</i> |

| | |
|-------------------------------------|----------|
| Section I: Macro Forecasting | 1 |
|-------------------------------------|----------|

| | |
|---------------------------------|----------|
| 1. Forecasting Inflation | 3 |
|---------------------------------|----------|

Jon Faust and Jonathan H. Wright

| | |
|---|----|
| 1. Introduction | 4 |
| 2. Approach for Our General Review | 6 |
| B. Market-Based Measures of the Inflation Outlook | 37 |
| 4. Other Topics | 42 |
| 5. International Inflation Forecasts | 47 |
| 6. Conclusions | 50 |
| Acknowledgments | 51 |
| References | 51 |

| | |
|--|-----------|
| 2. DSGE Model-Based Forecasting | 57 |
|--|-----------|

Marco Del Negro and Frank Schorfheide

| | |
|--|-----|
| 1. Introduction | 58 |
| 2. The DSGE Models | 63 |
| B. Generating Forecasts with DSGE Models | 70 |
| 4. Accuracy of Point Forecasts | 76 |
| 5. DSGE Model Forecasts Using External Information | 90 |
| 6. Forecasts Conditional on Interest Rate Paths | 107 |
| 7. Moving Beyond Point Forecasts | 117 |
| 8. Outlook | 129 |
| Appendix A. Details for Figure 2.5 | 134 |
| Acknowledgments | 137 |
| References | 137 |

| | |
|------------------------------|------------|
| 3. Forecasting Output | 141 |
|------------------------------|------------|

Marcelle Chauvet and Simon Potter

| | |
|---|-----|
| 1. Introduction | 142 |
| 2. Forecasting Models | 155 |
| 3. Forecast Comparison: Real-Time Performance | 165 |
| 4. Conclusion | 188 |
| Acknowledgments | 189 |
| References | 189 |

| | |
|--|------------|
| 4. Now-Casting and the Real-Time Data Flow | 195 |
| Marta Baribura, Domenico Giannone, Michele Modugno and Lucrezia Reichlin | |
| 1. Introduction | 196 |
| 2. Now-Casting: Problem and Overview of Approaches | 199 |
| 3. Empirical Application | 211 |
| 4. Conclusions and Discussion on Further Developments | 226 |
| Appendix: Details on the State Space Representation and Estimation | 228 |
| Acknowledgments | 233 |
| References | 233 |
| | |
| 5. Forecasting and Policy Making | 237 |
| Volker Wieland and Maik Wolters | |
| 1. Introduction | 241 |
| 2. The Role of Forecasts in Policy Making: A Practical Example and a Theoretical Framework | 243 |
| 3. Examples of Forecasts Produced at Fiscal Authorities and Central Banks | 251 |
| 4. Empirical Evidence that Policymakers' Decisions Respond to Forecasts | 258 |
| 5. Computing Forecasts that Account for the Interaction with Policy Decisions | 273 |
| 6. Evaluating the Performance of Policy Rules that Respond to Forecasts | 307 |
| 7. Outlook | 315 |
| Appendix A. A Medium-scale DSGE Model | 317 |
| Acknowledgments | 320 |
| References | 320 |
| | |
| Section II: Forecasting Financial Variables | 325 |
| | |
| 6. Forecasting Stock Returns | 327 |
| David Rapach and Guofu Zhou | |
| 1. Introduction | 330 |
| 2. What Level of Predictability Should We Expect? | 331 |
| 3. U.S. Aggregate Stock Market Return Forecastability | 335 |
| 4. Stock Return Forecastability Along Other Dimensions | 372 |
| 5. Conclusion | 375 |
| Acknowledgments | 376 |
| References | 376 |
| | |
| 7. Forecasting Interest Rates | 385 |
| Gregory Duffee | |
| 1. Introduction | 386 |
| 2. Forecasting Methods from a Finance Perspective | 387 |

| | |
|---|------------|
| 3. Regression Approaches to Forecasting Treasury Yields | 394 |
| 4. A Dynamic Term Structure Framework | 403 |
| 5. Macro-Finance Models | 411 |
| 6. Economic Fundamentals and Risk Premia | 414 |
| 7. A Robustness Check | 419 |
| 8. Concluding Comments | 424 |
| Acknowledgments | 424 |
| References | 424 |
| | |
| 8. Forecasting the Price of Oil | 427 |
| Ron Alquist, Lutz Kilian, and Robert J. Vigfusson | |
| 1. Introduction | 428 |
| 2. Alternative Oil Price Measures | 431 |
| 3. Alternative Oil Price Specifications | 434 |
| 4. Granger Causality Tests | 436 |
| 5. Short-Horizon Forecasts of the Nominal Price of Oil | 446 |
| 6. Long-Horizon Forecasts of the Nominal Price of Oil Based on Oil Futures Prices | 456 |
| 7. Survey Forecasts of the Nominal Price of Oil | 459 |
| 8. What Have we Learned about Forecasting the Nominal Price of Oil? | 463 |
| 9. Short-Horizon Forecasts of the Real Price of Oil | 464 |
| 10. What Have we Learned about Forecasting the Real Price of Oil? | 473 |
| 11. Structural VAR Forecasts of the Real Price of Oil | 474 |
| 12. The Ability of Oil Prices to Forecast U.S. Real GDP | 477 |
| 13. The Role of Oil Price Volatility | 491 |
| 14. Avenues for Future Research | 499 |
| 15. Conclusions | 500 |
| Acknowledgments | 503 |
| References | 503 |
| | |
| 9. Forecasting Real Estate Prices | 509 |
| Eric Ghysels, Alberto Plazzi, Rossen Valkanov and Walter Torous | |
| 1. Introduction | 510 |
| 2. The Real Estate Data | 520 |
| 3. Forecasting Real Estate Returns | 535 |
| 4. REITs | 557 |
| 5. Real Estate, Leverage, and Monetary Policy | 564 |
| 6. Concluding Remarks | 571 |
| 7. Appendix A. Data Sources | 572 |
| References | 573 |

| | |
|--|------------|
| 10. Forecasting with Option-Implied Information | 581 |
| Peter Christoffersen, Kris Jacobs, and Bo Young Chang | |
| 1. Introduction | 572 |
| 2. Extracting Volatility and Correlation from Option Prices | 586 |
| 3. Extracting Skewness and Kurtosis from Option Prices | 610 |
| 4. Extracting Densities from Option Prices | 625 |
| 5. Allowing for Risk Premia | 640 |
| 6. Summary and Discussion | 647 |
| Acknowledgment | 648 |
| References | 648 |
| | |
| 11. Prediction Markets for Economic Forecasting | 657 |
| Erik Snowberg, Justin Wolfers, and Eric Zitzewitz | |
| 1. Introduction | 658 |
| 2. Types of Prediction Markets | 658 |
| 3. Why Prediction Markets Work | 661 |
| 4. Forecast Accuracy | 669 |
| 5. Discovering Economic Models | 675 |
| 6. Conclusion | 684 |
| Acknowledgments | 684 |
| References | 684 |
| | |
| Index | I |

ELSEVIER

North Holland is an imprint of Elsevier

| | |
|--|-------------|
| <i>Introduction to the Series</i> | <i>xi</i> |
| <i>Contributors</i> | <i>xiii</i> |
| Section III: Forecasters' Objectives | 689 |
| 12. Forecasters' Objectives and Strategies | 691 |
| Ivan Marinovic and Marco Ottaviani | |
| 1. Introduction | 692 |
| 2. Model with Mixed Reputational and Contest Payoffs | 694 |
| 3. Development of Reputational and Contest Theories | 697 |
| 4. Equilibrium with Mixed Incentives | 702 |
| 5. Estimation | 707 |
| 6. Robustness and Extensions | 713 |
| 7. Role of Anonymity | 716 |
| 8. Summary and Outlook | 717 |
| Acknowledgments | 718 |
| References | 718 |
| 13. Forecasting Exchange Rates: an Investor Perspective | 721 |
| Michael Melvin, John Prins, and Duncan Shand | |
| 1. Introduction | 722 |
| 2. Successful Investing Does not Require Beating a Random Walk | 723 |
| 3. Constructing a Currency Portfolio | 729 |
| 4. Benchmarks for Currency Investors | 731 |
| 5. Forecast Skill Evaluation: Tilt and Timing | 735 |
| 6. Enhancing Forecasts with Conditioners | 742 |
| 7. Summary | 747 |
| References | 748 |
| Section IV: Methodology | 751 |
| 14. Variable Selection in Predictive Regressions | 753 |
| Serena Ng | |
| 1. Introduction | 753 |
| 2. Criterion-Based Methods when $N < T$ | 757 |
| 3. Regularization Methods | 762 |
| 4. Dimension Reduction Methods | 769 |
| 5. Three Practical Problems | 774 |

| | |
|--|------------|
| 6. Conclusion | 785 |
| Acknowledgments | 785 |
| References | 786 |
| 15. Forecasting with Bayesian Vector Autoregression | 791 |
| Sune Karlsson | |
| 1. Introduction | 792 |
| 2. Bayesian Forecasting and Computation | 794 |
| 3. Reduced Form VARs | 803 |
| 4. Structural VARs | 820 |
| 5. Co-Integration | 832 |
| 6. Conditional Forecasts | 844 |
| 7. Time-Varying Parameters and Stochastic Volatility | 847 |
| 8. Model and Variable Selection | 858 |
| 9. High-Dimensional VARs | 868 |
| Appendix A. Markov Chain Monte Carlo Methods | 880 |
| Appendix B. State-Space Models | 887 |
| Appendix C. Distributions | 889 |
| Acknowledgments | 892 |
| References | 892 |
| 16. Copula Methods for Forecasting Multivariate Time Series | 899 |
| Andrew Patton | |
| 1. Introduction | 900 |
| 2. Dependence Summary Statistics | 908 |
| 3. Estimation and Inference for Copula Models | 918 |
| 4. Model Selection and Goodness-of-Fit Testing | 933 |
| 5. Other Issues in Applications | 945 |
| 6. Applications of Copulas in Economics and Finance | 952 |
| 7. Conclusions and Directions for Further Research | 954 |
| Acknowledgments | 955 |
| References | 955 |
| 17. Quantile Prediction | 961 |
| Ivana Komunjer | |
| 1. Introduction | 962 |
| 2. Prediction | 966 |
| 3. Evaluation | 977 |
| 4. Specific Issues | 986 |

| | |
|--|-------------|
| 5. Conclusion and Directions for Future Research | 989 |
| Acknowledgments | 990 |
| References | 990 |
| 18. Panel Data Forecasting | 995 |
| Badi H. Baltagi | |
| 1. Introduction | 995 |
| 2. The Best Linear Unbiased Predictor | 999 |
| 3. Homogeneous versus Heterogeneous Panel Forecasts | 1011 |
| 4. Caveats, Related Studies, and Future Work | 1020 |
| Acknowledgments | 1021 |
| References | 1021 |
| 19. Forecasting Binary Outcomes | 1025 |
| Kajal Lahiri, Liu Yang, and Suny Albany | |
| 1. Introduction | 1026 |
| 2. Probability Predictions | 1027 |
| 3. Evaluation of Binary Event Predictions | 1051 |
| 4. Binary Point Predictions | 1077 |
| 5. Improving Binary Predictions | 1092 |
| 6. Conclusion | 1097 |
| Acknowledgments | 1099 |
| References | 1099 |
| 20. Advances in Forecast Evaluation | 1107 |
| Todd Clark and Michael McCracken | |
| 1. Introduction | 1108 |
| 2. Modeling and Forecasting Framework | 1111 |
| 3. Pairs of Models: Population-Level and Finite-Sample Inference | 1113 |
| 4. Unconditional Versus Conditional Evaluation | 1137 |
| 5. Evaluation of Multiple Forecasts | 1142 |
| 6. Evaluation of Real-Time Forecasts | 1150 |
| 7. Small-Sample Properties of Tests of Equal Predictive Ability | 1159 |
| 8. On the Choice of Sample Split | 1182 |
| 9. Why Do Out-of-Sample Forecast Evaluation? | 1189 |
| 10. Conclusion | 1191 |
| Appendix A. Asymptotic Derivations for Out-of-Sample Inference: Examples | 1192 |
| Acknowledgments | 1197 |
| References | 1197 |

| | |
|---|-------------|
| 21. Advances in Forecasting under Instability | 1203 |
| Barbara Rossi | |
| 1. Introduction | 1204 |
| 2. Is the Predictive Content Unstable Over Time? | 1207 |
| 3. What is the Relationship Between In-sample and Out-of-Sample Forecasting Ability in the Presence of Instabilities? | 1252 |
| 4. Empirical Evidence | 1262 |
| 5. Conclusions | 1304 |
| Acknowledgments | 1314 |
| Appendix A. Critical Value Tables | 1315 |
| References | 1317 |
| Index | I |
