#### INTRODUCTION

#### Chapter 1

| A tour of the world                 |    |
|-------------------------------------|----|
| 1.1 Europe and the euro             | 3  |
| 1.2 The economic outlook in the USA | 6  |
| 1.3 The largest emerging economies  | 10 |
| 1.4 Looking ahead                   | 11 |
| Key terms                           |    |
| Questions and problems              |    |
| Further reading                     |    |
| Appendix Where to find the numbers? | 14 |
|                                     |    |

#### Chapter 2

#### A tour of the book

| 2.1  | Aggregate output                               | 16 |
|------|--|----|
| 2.2  | Other major macroeconomic variables            | 21 |
| 2.3  | Output, unemployment and the inflation rate,   |    |
|      | Okun's law and the Philips curve               | 27 |
| 2.4  | The short run, the medium run and the long run | 29 |
| 2.5  | A tour of the book                             | 30 |
| Sum  | nmary  | 32 |
| Key  | terms  | 33 |
| Que  | stions and problems                            | 33 |
| Furt | her reading                                    | 35 |
| Арр  | endix The construction of real GDP and         |    |
|      | chain-type indexes                             | 36 |
|      |  |    |

### THE CORE

| THE SHORT | RUN |
|-----------|-----|
|-----------|-----|

#### Chapter 3

| The | e goods market         | 42 |
|-----|------------------------|----|
| 3.1 | The composition of GDP | 43 |
| 3.2 | The demand for goods   | 44 |

| 3.2 The demand for goods |  |
|--------------------------|--|
|--------------------------|--|

| I | 3.3                    | The determination of equilibrium output         | 47 |
|---|------------------------|---|----|
|   | 3.4                    | Investment equals saving: an alternative way of |    |
| ĺ |                        | thinking about the goods-market equilibrium     | 54 |
|   | 3.5                    | Is the government omnipotent? A warning         | 57 |
|   | Surr                   | imary   | 58 |
|   | Key                    | terms   | 58 |
|   | Questions and problems |   | 59 |
|   |                        |   |    |

#### Chapter 4

1

15

41

| Financial markets      |  | 61 |
|------------------------|--|----|
| 4.1                    | The demand for money                   | 62 |
| 4.2                    | Determining the interest rate: part 1  | 66 |
| 4.3                    | Determining the interest rate: part 2  | 70 |
| 4.4                    | Two alternative ways of looking at the |    |
|                        | equilibrium                            | 76 |
| Summary                |  | 79 |
| Key terms              |  | 79 |
| Questions and problems |  | 80 |
| Further reading        |  | 81 |
|                        |  |    |

#### Chapter 5

#### Goods and financial markets: the IS-LM model

| 5.1   | The goods market and the IS relation         | 83  |
|---|--|-----|
| 5.2   | Financial markets and the LM relation        | 87  |
| 5.3   | Putting the IS and the LM relations together | 90  |
| 5.4   | Using a policy mix                           | 95  |
| 5.5   | IS-LM and the liquidity trap                 | 96  |
| 5.6   | How does the IS-LM model fit the facts?      | 99  |
| Summary   |  | 101 |
| Key   | terms  | 101 |
| Questions and problems                            |  | 102 |
| Further reading                                   |  | 103 |
| Appendix An analytical version of the IS-LM model |  | 104 |

82

#### Chapter 6

#### The IS-LM model in an open economy 108 109 6.1 Openness in goods markets 6.2 Openness in financial markets 116 6.3 The IS relation in an open economy 122 6.4 The *LM* relation in an open economy 128 6.5 Putting goods and financial markets together in an open economy 131 Summary 133 Key terms 133 Questions and problems 134 Further reading 135

#### VIII CONTENTS

#### Chapter 7

#### Output, the interest rate and the exchange rate

7.1 Increases in demand, domestic or foreign 7.2 Depreciation, the trade balance and output 7.3 Looking at dynamics: the J-curve 7.4 Saving, investment and the trade balance 7.5 The effects of policy in an open economy 7.6 Fixed exchange rates Summary Key terms Questions and problems Further reading Appendix Derivation of the Marshall-Lerner condition

#### THE MEDIUM RUN

#### **Chapter 8**

| The labour market                                |     |
|--|-----|
| 8.1 A tour of the labour market                  | 165 |
| 8.2 Wage determination                           | 170 |
| 8.3 Price determination                          | 177 |
| 8.4 The natural rate of unemployment             | 178 |
| 8.5 Where we go from here                        | 182 |
| Summary  |     |
| Key terms  |     |
| Questions and problems                           |     |
| Further reading                                  |     |
| Appendix Wage and price setting relations versus |     |
| labour supply and labour demand                  | 187 |

#### Chapter 9

#### Putting all markets together: the AS-AD model

| 9.1     | Aggregate supply                    | 190 |
|---------|-------------------------------------|-----|
| 9.2     | Aggregate demand                    | 192 |
| 9.3     | Equilibrium in the short run and in |     |
|         | the medium run                      | 194 |
| 9.4     | The effects of a monetary expansion | 197 |
| 9.5     | A decrease in the budget deficit    | 200 |
| 9.6     | An increase in the price of oil     | 204 |
| 9.7     | Conclusions                         | 210 |
| Summary |                                     | 211 |
| Key     | terms                               | 212 |
| Que     | estions and problems                | 212 |

#### Chapter 10

#### The Phillips curve, the natural rate of unemployment and inflation

10.1 Inflation, expected inflation and unemployment

|  | 10.2 The Phillips curve   | 217  |
|--|---|--|
|  | 10.3 The Phillips curve and the natural rate of   |  |
| 136  | unemployment in Europe  | 224  |
|  | Summary   | 232  |
| 137  | Key terms   | 232  |
| 143  | Questions and problems  | 233  |
| 145  | Further reading   | 234  |
| 147  | Appendix From the aggregate supply relation to  |  |
| 151  | a relation between inflation, expected  |  |
| 152<br>157   | inflation and unemployment  | 235  |
| 157<br>157   |   |  |
| 157  | Chapter 11  |  |
| 160  | Inflation, money growth and   |  |
| 100  | the real rate of interest   | 236  |
| 161  | 11.1. Output unemployment and inflation   | 237  |
|  | 11.1 Output, unemployment and inflation<br>11.2 Nominal versus real interest rates  | 237  |
|  | 11.3 Nominal and real interest rates and  | 241  |
| 163  | the IS-LM model   | 244  |
|  | 11.4 The effects of money growth  | 244  |
|  | 11.5 Money growth, inflation and nominal and  | 240  |
| 164  |   | 252  |
|  | real interest rates<br>11.6 Disinflation  | 254  |
| 165  |   | 260  |
| 170  | Summary<br>Key terms  | 261  |
| 177  | Questions and problems  | 261  |
| 178<br>182   |   | 201  |
| 183  | Chapter 12  |  |
|  |   |  |
|  |   |  |
| 184  | The medium run in an open   |  |
| 184<br>184   |   | 264  |

#### Chapter 14

## Saving, capital accumulation and output

| •   |     |
|---|-----|
| 14.1 Interactions between output and capital      | 305 |
| 14.2 The implications of alternative saving rates | 308 |
| 14.3 Getting a sense of magnitudes                | 317 |
| 14.4 Physical versus human capital                | 320 |
| Summary   | 323 |
| Key terms   | 323 |
| Questions and problems                            | 323 |
| Further reading                                   | 325 |
| Appendix The Cobb-Douglas production function     |     |
| and the steady state                              | 326 |
|   |     |

#### Chapter 15

| Technological progress and growth                | 327 |
|--|-----|
| 15.1 Technological progress and the rate         |     |
| of growth  | 328 |
| 15.2 The determinants of technological progress  | 334 |
| 15.3 The facts of growth revisited               | 337 |
| Summary  | 342 |
| Key terms  | 343 |
| Questions and problems                           | 343 |
| Further reading                                  | 345 |
| Appendix Constructing a measure of technological |     |
| progress   | 346 |
|  |     |

### EXTENSIONS

#### **EXPECTATIONS**

#### Chapter 16

| Financial markets and expectations           | 352 |
|--|-----|
| 16.1 Expected present discounted values      | 353 |
| 16.2 Bond prices and bond yields             | 359 |
| 16.3 The stock market and movements in stock |     |
| prices                                       | 367 |
| 16.4 Risk, bubbles, fads and asset prices    | 374 |
| Summary                                      | 378 |
| Key terms                                    | 379 |
| Questions and problems                       | 379 |
| Further reading                              | 381 |
|  |     |

#### Chapter 17

#### Expectations, consumption and investment 17.1 Consumption theory and the role of

| concerns and the rele of                     |   |
|--|---|
| expectations                                 | 383   |
| Toward a more realistic description          | 387   |
| Investment                                   | 391   |
| The volatility of consumption and investment | 398   |
|  | expectations<br>Toward a more realistic description<br>Investment |

| Summary                                     | 400 |
|---|-----|
| Key terms                                   | 401 |
| Questions and problems                      | 401 |
| Appendix Derivation of the expected present |     |
| value of profits under static               |     |
| expectations                                | 404 |
|   |     |

#### Chapter 18

304

| Expectations, output and policy                 |     |
|---|-----|
| 18.1 Expectations and decisions: taking stock   | 406 |
| 18.2 Monetary policy, expectations and output   | 409 |
| 18.3 Deficit reduction, expectations and output | 415 |
| Summary   |     |
| Key terms                                       |     |
| Questions and problems                          |     |

#### EUROPE: PAST, PRESENT AND FUTURE 423

#### Chapter 19

| The euro at fourteen: was it a good idea and why is it in trouble? |     |  |
|--|-----|--|
| 19.1 The monetary history of Europe from post-war                  |     |  |
| to the present day   | 425 |  |
| 19.2 Is Europe an optimal currency area?                           | 431 |  |
| 19.3 The European system of central banks:                         |     |  |
| structure and objectives   | 434 |  |
| 19.4 The first fourteen years of the euro (1999-2013)              | 439 |  |
| 19.5 Should the outs join?   | 443 |  |
| Summary  | 445 |  |
| Key terms  | 446 |  |
| Questions and problems   |     |  |
| Further reading  | 447 |  |

#### Chapter 20

351

382

| The crisis  | 4 <b>48</b> |
|---|-------------|
| 20.1 From a housing problem to a financial crisis | 449         |
| 20.2 The use and limits of policy                 | 454         |
| 20.3 The slow recovery                            | 464         |
| Summary   | 468         |
| Key terms   | 469         |
| Questions and problems                            |             |
| Further reading                                   | 470         |

#### Chapter 21

| High debt                                   | 471 |
|---|-----|
| 21.1 The government's budget constraint     | 472 |
| 21.2 The evolution of the debt-to-GDP ratio | 476 |
| 21.3 The return from a high debt            | 486 |
| Summary                                     | 490 |
| Key terms                                   | 490 |
| Questions and problems                      | 490 |
| Further reading                             | 491 |

| SHOULD POLICY MAKERS BE<br>RESTRAINED?                   | <b>49</b> 3 | Further reading<br>Appendix The time inconsistency problem:<br>Barro and Gordon model | 536<br>537 |
|--|-------------|---|------------|
| Chapter 22   |             |   |            |
| Policy and policy makers: what do we know?               | 494         | EPILOGUE  | 539        |
| 22.1 Uncertainty and policy                              | 495         | Chapter 24  |            |
| 22.2 Expectations and policy<br>22.3 Politics and policy | 498<br>503  | The story of macroeconomics   | 540        |
| Summary  | 505         | 24.1 Keynes and the Great Depression  | 541        |
| Key terms  | 506         | 24.2 The neoclassical synthesis   | 541        |
| Questions and problems                                   | 506         | 24.3 The rational expectations critique   | 544        |
| Further reading  | 508         | 24.4 Recent developments up to the crisis   | 547        |
|  |             | 24.5 First lessons from the crisis  | 550        |
| Chapter 23   |             | Summary   | 552        |
| Monetary and fiscal policy rules and                     |             | Key terms   | 552        |
| constraints  | 509         | Further reading   | 553        |
| 23.1 The optimal inflation rate                          | 510         |   |            |
| 23.2 Monetary policy rules                               | 514         | Appendix 1 A maths refresher  | 554        |
| 23.3 Fiscal policy rules and constraints                 | 523         | Appendix 2 An introduction to econometrics  | 559        |
| Summary  | 532         | Glossary  | 564        |
| Key terms  | 533         | Symbols used in this book   | 575        |
| Questions and problems                                   | 533         | Index   | 577        |

#### Supporting resources

Visit www.MyEconLab.com to find valuable online resources.

#### **MyEconLab for students**

**X** CONTENTS

- A personalised study plan with self-assessment questions to check your understanding
- Multiple-choice questions to test your learning
- Extensive annotated hotlinks to relevant websites
- An online glossary to explain key terms with flashcards to test your knowledge
- Pearson e-text with search tool to help locate specific items of content

#### MyEconLab for instructors

- Customisable testbank of question material that can be set as tests and homework assignments
- E-mail results and profile tools to send results of quizzes to instructors
- Downloadable PowerPoint slides
- Complete instructor's manual and solutions guide to end of chapter questions.
- Economics Experiments that provide you with engaging activities that allow your students to apply their knowledge to real-life situations
- Online help and support to assist with website usage and troubleshooting
