

PARIS HAUSSMANN

**MODELE DE VILLE
A MODEL'S RELEVANCE**

BENOIT JALLON
UMBERTO NAPOLITANO
&
FRANCK BOUTTE

PARTIE 1
HAUSSMANN
MODELE DE VILLE

PARTIE 2
ANALYSE
TYPO-
MORPHOLOGIQUE

PARTIE 3
ANALYSE DE
L'EFFICIENCE

3 Paris – Haussmann
Alexandre Labasse
10 Modele de ville
Franck Boutte et
Umberto Napolitano

VO

16 Typologie du maillage
 Typologie de l'espace public
 Efficience des traces
 Usages et pratiques urbaines

66 Classification des traces
 Traces primaires
 Traces secondaires
 Traces tertiaires
 Traces et reseau metropolitain
 Espaces publics
 Classification
 des espaces publics
 Espaces publics primaires
 Espaces publics secondaires
 Espaces publics tertiaires

194 Analyse comparative
 des maillages
 Tissus urbains compares
 Densite de maillage
 Densite batie
 Accessibility pietonne: lineaire
 de voirie et emprises baties
 Densite de services
 Taille des ilots

FO

26 Methodologie et classification
 L'ilot, outil de la densite
 Compacite des formes
 L'ilot / l'immeuble
 Acces aux ressources
 et qualites d'usage

108 Classification des ilots
 Ilots types
 Ilots remarquables
 Evolutions

224 Les qualites morphologiques
 de l'ilot
 Formes urbaines comparees
 Compacite volumetrique
 Mitoyennete / volume expose
 Ouverture au ciel /
 irradiation annuelle

Z

36 L'outil de la flexibility
 A la recherche des invariants
 Persistance du modele
 Intelligence intrinseque
 de la forme
 Durabilite et resilience

140 Classification des immeubles
 Typologies de plans
 L'immeuble de rapport
 Histoires d'immeubles

238 Qualites intrinseques
 de l'immeuble
 Etude comparative
 Hauteur sous plafond
 Geometrie des ouvertures
 Inertie thermique
 et confort d'ete
 Morphologie du plan
 Distribution des ouvertures
 Durabilite et resilience

Tj

CD

<

48 Imagibilite urbaine
 Genericite et specificite
 L'identite de la matiere
 Le vocabulaire de la diversite
 Un contexte fertile
 L'identite, vecteur
 d'appropriation

166 Ornaments
 Elements

54 Une ville dense
 Une ville resiliente
 Une ville connectee
 Une ville lisible
 Une ville sobre
 Une ville de partage
 Une ville intense
 Une ville attractive
 Une ville mixte
 Paris – Haussmann,
 modele de ville?

Paris - Haussmann

Umberto Napolitano

PART 1
HAUSSMANN
A MODEL'S
RELEVANCE

PART 2
TYPOLOGICAL
AND MORPHOLOGICAL
ANALYSIS

PART 3
EFFICIENCY
ANALYSIS

α
O
Z
N
M
m
Z

16 Typology of the urban fabric
 Typology of the public space
 Efficiency of the urban networks
 Urban usages and practices

66 Classification of the urban networks
 Primary networks
 Secondary networks
 Tertiary networks
 Urban networks and the urban grid
 Public spaces
 Classification of the public spaces
 Primary public spaces
 Secondary public spaces
 Tertiary public spaces

194 Comparative analysis of the efficiency of grids
 A comparison of urban fabrics
 Grid density
 Built density
 Pedestrian accessibility: street lines and built footprint
 Density of services
 Size of the blocks

O
O

26 Methodology and classification
 The block as an instrument of density
 Compactness of forms
 Blocks and buildings
 Access to resources and qualities of usage

108 Classification of the blocks
 Block types
 Exceptional blocks
 Evolutions

224 The morphological qualities of the block
 A comparison of urban forms
 Volume compactness
 Percentage of shared walls and exposed volume
 Exposure to the sky and annual direct solar exposure

ID
Z
O
O

3

36 Flexibility as a tool
 In search of the invariants
 The model's persistence
 The intrinsic intelligence of the form
 Durability and resilience

140 Classification of the buildings
 Types of plans
 The investment property
 Building histories

238 The intrinsic qualities of the building
 Comparative study
 Ceiling heights
 Geometry of the openings
 Thermal inertia and summer comfort
 Plan morphology
 Distribution of openings
 Durability and resilience

O
2

54 A dense city
 A resilient city
 A connected city
 A legible city
 A sober city
 A shared city
 An intense city
 An attractive city
 A diverse city
 Haussmann's Paris, a model city?
