Detailed Contents

Preface xi

Acknowledgments xv

About the Authors xvii

What Is Program Evaluation and Why Is It Needed? 1

What Is Program Evaluation? 2
Why Is Program Evaluation Needed? 3
Systematic Program Evaluation 6
The Central Role of Evaluation Questions 10
The Five Domains of Evaluation Questions and Methods 16
Summary 29
Key Concepts 29

Social Problems and Assessing the Need for a Program 31

The Role of Evaluators in Diagnosing Social Conditions and Service Needs 32
Defining the Problem to Be Addressed 34
Specifying the Extent of the Problem: When, Where, and How Big? 37
Defining and Identifying the Target Populations of Interventions 46
Describing Target Populations 49
Describing the Nature of Service Needs 52
Summary 56
Key Concepts 56

Assessing Program Theory and Design 50

Evaluability Assessment 61
Describing Program Theory 65
Eliciting Program Theory 71
Assessing Program Theory 79
Possible Outcomes of Program Theory Assessment 87
Summary 88
Key Concepts 89

Assessing Program Process and Implementation 91

What Is Program Process Evaluation and Monitoring? 92
Perspectives on Program Process Monitoring 100
Assessing Service Utilization 103
Assessing Organizational Functions 109
Summary 113
Key Concepts 113

Measuring and Monitoring Program Outcomes **115**

Program Outcomes 116
Identifying Relevant Outcomes 119
Measuring Program Outcomes 124
Monitoring Program Outcomes 133
Summary 139
Key Concepts 140

Impact Evaluation: Isolating the Effects of Social Programs in the Real World **141**

The Nature and Importance of Impact Evaluation 142
When Is an Impact Evaluation Appropriate? 144
What Would Have Happened Without the Program? 147
The Logic of Impact Evaluation: The Potential Outcomes Framework 149
The Fundamental Problem of Causal Inference: Unavoidable Missing Data 152
Summary 155
Key Concepts 155

Impact Evaluation: Comparison Group Designs **157**

Bias in Estimation of Program Effects 159
Potential Advantages of Comparison Group Designs 164
Comparison Group Designs for Impact Evaluation 165
Cautions About Quasi-Experiments for Impact Evaluation 182
Summary 183
Key Concepts 184

Impact Evaluation: Designs With Strict Controls on Program Access **185**

Controlling Selection Bias by Controlling Access to the Program 186
Key Concepts in Impact Evaluation 190
When Is Random Assignment Ethical and Practical? 196
Application of the Regression Discontinuity Design 199
Choosing an Impact Evaluation Design 205
Summary 209
Key Concepts 210

Detecting, Interpreting, and Exploring Program Effects **211**

The Magnitude of a Program Effect 212
Detecting Program Effects 215
Examining Variation in Program Effects 226
The Role of Meta-Analysis 231
Summary 234
Key Concepts 235

Assessing the Economic Efficiency of Programs 237

Key Concepts in Efficiency Analysis 239
Conducting Cost-Benefit Analyses 244
Conducting Cost-Effectiveness Analyses 260
Summary 262
Key Concepts 263

Planning an Evaluation 265

Evaluation Purpose and Scope 266
Data Collection, Acquisition, and Management 276
Data Analysis Plan 281
Communication Plan 283
Project Management Plan 286
Summary 289
Key Concepts 290

The Social and Political Context of Evaluation 291

The Social Ecology of Evaluations 292
The Profession of Evaluation 300
Evaluation Standards, Guidelines, and Ethics 307
Utilization of Evaluation Results 310
Epilogue: The Future of Evaluation 312
Summary 314
Key Concepts 315

Glossary 317
References 323
Author Index 331
Subject Index 335
