1 Introduction

DAVID BOLD AND ALISON LEE

2 Framing doctoral education as practice

ALISON LEE AND DAVID BOLD

Why focus on practice 12

Knowledge production and the knowledge economy 16

Doctoral graduates as 'advanced knowledge workers' 18

Changing practices of doctoral work 20

Conclusion 22

PART I

Disciplinary and change

3 Converging paradigms for doctoral training in the sciences and humanities

LAURA JONES

Collaboration 33

Independence 38

Looking forward 40

4 Disciplinary voices: a shifting landscape for English doctoral education in the twenty-first century

LYNN MCALPINE, ANTHONY PARE AND DOREEN STARKE-MEYERRING

How this account was developed 43

The department: an outpost of the discipline 43

- The lived experience: mirroring the larger context* 47
The shifting landscape of knowledgeproduction 48
Co-constructing a discipline, a program and a process: the wayforward? 49

5 The doctorate as curriculum: a perspective on goals and outcomes of doctoral education 54

ROB GILBERT

- Concerns about the doctorate* 54
The doctorate as curriculum 55
Types of knowledge 58
The language of intent in the doctoral curriculum 59
The language of assessment in the doctoral curriculum 61
The intended and assessed curriculum compared 64

PART 11

Pedagogy and learning 69

6 Enhancing the doctoral experience at the local level 71

DIANA LEONARD AND ROSA BECKER

- A review of the literature on the doctoral experience* 71
The university-wide context of the doctoral experience 73
The impact of the academic unit context on the doctoral experience 75
Concluding comments 82

7 Writing for the doctorate and beyond 87

ALISON LEE AND CLAIRE AITCHISON

- A literacy crisis in doctoral programs or a new agenda for writing?* 88
What do we know about doctoral writing? 90
Changing demands require new approaches 93
Conclusion 96

8 PhD education in science: producing the scientific mindset in biomedical sciences 100

MARGOT PEARSON, ANNA COWAN AND ADRIAN LISTON

- Issues in PhD science education* 100
Working with the tensions: supervisor and student expectations and priorities 102
Working with the tensions in practice – doing science 104
A learning curriculum in the biomedical sciences 108
Conclusion 110

9 Representing doctoral practice in the laboratory sciences	113
JIM GUMMING	
<i>What do we know about doctoral practice in the laboratory sciences?</i> 114	
<i>A case narrative about doctoral practice in molecular biology</i> 116	
<i>To what extent does the case narrative validate or challenge the orthodox view of doctoral practice in the laboratory sciences?</i> 120	
<i>Reflections on the representation of doctoral practice in the laboratory sciences</i> 122	
<i>Conclusion</i> 124	
10 Supervision development and recognition in a reflexive space	126
ANGELA BREW AND TAI PESETA	
<i>An institutional programme for supervision development</i> 127	
<i>Why reflexivity? Setting the theoretical framework</i> 129	
<i>Moving towards a more theorised position</i> 134	
<i>Conclusion</i> 138	
PART III	
New forms of doctorate	141
11 Specialised knowledge in UK professions: relations between the state, the university and the workplace	143
DAVID SCOTT, ANDREW BROWN, INGRID LL'NT AND LUCY THORNE	
<i>Sites of knowledge</i> 147	
<i>Engineering doctorates</i> 148	
<i>Education doctorates</i> 151	
<i>Conclusion</i> 154	
12 Projecting the PhD: architectural design research by and through projects	157
BRENT ALLPRESS AND ROBYN BARNACLE	
<i>Research education context</i> 157	
<i>On the differences between research by project and thesis</i> 159	
<i>Disciplinary ways of knowing</i> 160	
<i>Architectural research by project</i> 161	
<i>Reflective practice</i> 162	
<i>The role of exegesis</i> 163	
<i>Examination</i> 164	
<i>Dissemination</i> 165	

Institutional economies 166

Literature on the field 167

Conclusion 168

13 Building doctorates around individual candidates' professional experience 171

CAROL COSTLEY AND JOHN STEPHENSON

An example of a DProf programme 172

Ongoing research and evaluation 178

Emerging propositions and implications 180

Conclusion 183

PART IV

Policy and governance 187

14 Doctoral education in risky times 189

ERICA McWILLIAM

What does performative mean? 189

Performing (risk) management 191

Risk and audit 193

Risk 'events' 195

Performing doctoral education 198

15 New challenges in doctoral education in Europe 200

ALEXANDRA BITUSIKOVA

Achievements 202

Challenges 206

Conclusion 209

16 Policy driving change in doctoral education: an Australian case study 211

RUTH NEUMANN

The polity context 212

Doctoral education in practice 213

Conclusion 221

17 Regulatory regimes in doctoral education 225

MARK TENNANT

Some drivers of risk management 226

The code of practice – UK 228
Recent Australian experience 231
Concluding comments 235

PART V

Reflections 237

18 Challenging perspectives, changing practices: doctoral education in transition 239

BILL GREEN

Knowledge, research and the doctorate: a world in motion 239
(Returning to education 241
Practice theory and doctoral studies 244

Notes 249
