Contents

Part I Financial Services: Public Framework and Relationship to Capital and Income	
1	Introduction 3
	Introduction 3
	Bibliography 5
2	Essential History and Fundamental Purposes 7
	Introduction 7
	The United Nations 7
	The International Court of Justice 9
	The Bank of International Settlements 10
	The Bretton Woods System and Institutions 10
	The International Monetary Fund 11
	The World Bank 13
	The World Trade Organization 14
	Conclusion 14
	Questions for Students 14
	Bibliography 16
3	The Financial System 17
	Introduction 17
	Mapping the UK Financial System 17
	Conclusion 24
	Questions 25
	Bibliography 25
4	Capital in the Twenty-First Century 27
	Introduction 27
	Role of Financial Sector in Income Inequality 32
	Conclusion 33
	Questions 33
	Appendix 33
	Income Inequality in the US 34
	Bibliography 38

Part II The Conventional Paradigm: Questioned

5	The Conventional Narrative: Deconstructed	41
	Introduction	41
	The Flawed “Principal Conclusion”: Exceptions	44
	Porter’s Competitive Advantage of Nations	44
	Microfinance	46
	Venture Capital	46
	Non-finance Factors of Economic Growth	47
	Overview and Data	47
	Misuse of the Financial System	52
	Conclusion	54
	Questions	54
	Appendix	55
	Bibliography	58
6	Commercial Banks Create Money Out of Nothing	59
	Introduction	59
	Restraints on Money Creation	63
	Seigniorage or Making Money from Money	64
	Conclusion	64
	Questions	65
	Bibliography	65
7	Money	67
	Introduction	67
	The Sovereign Definition	68
	The Metallic Definition	68
	The Trust Definition	69
	The Fiat Definition	70
	The Electronic Definition	70
	The Digital Definition	71
	“Money as Energy Model”	72
	The Rise of Digital Money: A Consolidated Construct and Taxonomy	72
	Conclusion	76
	Questions	76
	Bibliography	77

Part III Technologies Influencing Financial Services

8	The Genesis Files	81
	Introduction	81
	David Chaum	81
	The “Non-private” Digital Signature Scheme	82
	The Solution: “Blind Signatures” and “DigiCash”	82
	The Mechanics of eCash	83
	Adam Back	85

Nick Szabo	86
Wei Dai's B-Money	87
Conclusion	88
Questions	88
Bibliography	88
9 Cryptography	89
Introduction	89
Historical Symmetric Ciphers	89
The Caesar Cipher	90
Modular Arithmetic: An Essential Detour	90
Modern Cryptography	95
Symmetric Key Encryption	95
Lester Hill	96
Claude E. Shannon	96
Horst Feistel	97
Architecture of Modern Cryptography	98
Symmetric Cryptography	98
Problem: Lack of Secure Key Exchange	98
The Diffie-Hellman-Merkle Key Exchange Scheme	99
Public Key Cryptography: Asymmetric Key	100
Digital Signatures	101
Hashes	102
Global System for Mobile	103
Conclusion	104
Questions	105
Bibliography	106
10 FinTech	107
Introduction	107
Financial Instability: The Norm	107
Financial Services: An Elitist Club	107
Payment Networks: A Study in Malfunction	110
Lending: The Universe of Multiple Monopolies	111
Mobile Phone Technology	112
Causes of FinTech Expansion	112
Definition	113
First Principles	116
Framework	116
Changing Financial Systems Architecture	117
Case Study in International Payments: TransferWise	118
Case Study: Starling Bank	120
Case Study: P2P Lending	122
Case Study: Ripple	123
Structural Changes in the Financial Services Industry	125
Revenue Migration	126
Structural Changes in the Financial Services Industry	126

Conclusion	127
Questions.	127
Use Case	128
Payment Systems	128
Bibliography	129
11 Distributed Ledger Technology	131
Introduction.	131
The Cambridge Report	132
Essential Terminology.	133
The Cambridge Framework	133
Actors Within the DLT System.	135
Layer Interdependence	136
What Is Decentralisation?	137
Use Case: Bitcoin	137
Satoshi Nakamoto's Problem and Solution.	137
Application of Cambridge Report DLT Framework to Bitcoin	139
The Protocol Layer	139
The Network Layer.	139
The Application Layer	140
Mechanics of the Bitcoin Network.	140
The Coin	140
Architecture of the Bitcoin Blockchain	142
Mining Difficulty	143
Bitcoin Network: Vulnerability.	144
Ethereum.	144
Ethereum's Proof of Work	146
Ethereum 2.0 (Serenity)	147
Hyperledger.	148
Use Case: Bank Loan	149
Use Case: Supply Chain Management	150
Conclusion	152
Exercises 1: Merkle Trees.	152
Exercise 2: Use Case for Hyperledger and/or Blockchain	153
Bibliography	154
12 Artificial Intelligence	155
Introduction.	155
Machine Learning	156
Supervised Learning	157
Semi-supervised Learning	158
Unsupervised Learning	159
Reinforcement Learning	159
Deep Learning.	160
Natural Language Processing	160
Applying AI to Markets: Algorithmic Trading	161

The Efficient Markets Hypothesis	161
Behavioural Finance: Flaw in the Efficient Market Hypothesis Theory..	162
Automated Trading Strategies.....	163
Origin of Rules Trading	164
Introduction to Modelling: Algorithmic Trading	164
A Valid Model.....	166
Chatbots	168
Conclusion	168
Appendix.....	169
Fundamental Analysis.....	169
Technical Analysis	169
Questions.....	170
Bibliography	170
 Part IV The Future of Financial Services	
13 BRICS	175
Introduction.....	175
G7	180
G20	183
BRICS Inter Se	183
Conclusion	186
Questions.....	186
Appendix.....	187
Bibliography	188
14 Modern Monetary Policy	189
Introduction.....	189
The “Six” Pernicious Myths	189
The Real Crises and How They Are Managed	192
Conventional Monetary Policy	193
Causes of Inflation: Two Models	194
Modern Monetary Policy: Explained	195
Conclusion	197
Questions.....	197
Bibliography	198
15 Impact of FinTech: A Prediction	199
Introduction.....	199
The Dream Vision	200
The Reality	201
FinTech’s Landscape.....	202
Select FinTech Banks: Lack of Universality.....	203
The Future Bank: Planet Mars	207
Conclusion	211
Questions.....	211
Bibliography	211

16 Conclusion	213
Introduction	213
Bibliography	214
Index	215
