<i>Preface</i>	xiii
<i>Online Resources</i>	xv
1 How Data and Analytics Can Enhance Human Decision-Making in Organisations	1
What will you learn from this chapter?	1
What are business analytics?	1
Statistics Explainer: Populations and samples	2
What about judgement?	3
How data, analytics, and judgement can combine to enhance human decision-making in organisations	3
Planning analytics projects	6
Summary	9
Analytics in Practice: Using data to make decisions in a pandemic	10
Running Case Study: 4tE, part 1	12
Exercises	13
2 Why Organisational, Legal, Cultural, and Ethical Considerations Shape What Can and Should be Done With Data and Analytics	15
What will you learn from this chapter?	15
Organisational considerations	15
Legal considerations	21
Cultural considerations	26
Ethical considerations	28
Summary	32
Analytics in Practice: Opening New Zealand's data – thoughtfully	33
Running Case Study: 4tE, part 2	36
Exercises	37
3 Preparing to Work With Data	39
What will you learn from this chapter?	39
Common categories and sources of organisational data	39

Statistics Explainer: Big Data	41
Matching data to questions and problems	43
How data is typically stored and structured	45
Challenges in building and preparing a dataset	46
Data cleaning	47
Statistics Explainer: Imputation	49
Types of variables, and why this matters	52
Summary	55
Running Case Study: 4tE, part 3	56
Exercises	57
4 Analysis Fundamentals	59
What will you learn from this chapter?	59
How to quantify qualitative data	59
Answering different types of questions with different types of data	62
Statistics Explainer: Normal distributions	66
How to implement different analytical techniques in Excel	71
How to use and interpret some basic statistical tests in Excel, and when they are relevant	79
Summary	96
Running Case Study: 4tE, part 4	97
Exercises	98
5 Communicating Analytical Results	99
What will you learn from this chapter?	99
Know your audience	99
Be clear about your objective	104
General data visualisation principles	106
Common forms of data visualisation	110
Assembling a collection of results into an accurate, insightful, coherent, and actionable narrative	121
Evaluating data-driven communications	127
Summary	128
Analytics in Practice: Showing future energy scenarios	129
Running Case Study: 4tE, part 5	131
Exercises	131
6 Marketing Analytics	133
What will you learn from this chapter?	133
Using analytics to evaluate market opportunities	133
Using analytics to understand customers	137

CONTENTS

vii

Using analytics to design and manage marketing communications	140
Using analytics to set prices	142
Using analytics to manage distribution channels	144
Using analytics to develop new products	146
Using analytics to group customers or potential customers	148
Summary	150
Analytics in Practice: Beautiful models rely on a good foundation	150
Running Case Study: 4tE, part 6	152
Exercises	153
7 HR/People Analytics	155
What will you learn from this chapter?	155
Using analytics to measure employee performance	155
Using analytics to monitor diversity, equity, and inclusion (DEI)	158
Using analytics to see what employees are doing	160
Using analytics to assess the effectiveness of training	163
Using analytics to evaluate employee satisfaction	165
Using analytics to identify and recruit employees (talent acquisition)	167
Summary	169
Analytics in Practice: The perils and potential of people analytics	170
Running Case Study: 4tE, part 7	171
Exercises	172
8 Operational Analytics	173
What will you learn from this chapter?	173
Using analytics to manage supply chains	173
Using analytics to operate more sustainably	175
Using analytics for predictive maintenance	177
Using analytics to detect fraudulent activity	178
Using analytics to manage organisation-specific operations	180
Summary	182
Running Case Study: 4tE, part 8	182
Exercises	183
9 Financial Analytics	185
What will you learn from this chapter?	185
Using analytics to understand the financial consequences of marketing decisions	185
Using analytics to understand the financial consequences of HR decisions	187
Using analytics to understand the financial consequences of operational decisions	189

Using analytics to price risk	190
Using analytics to understand the financial position of an organisation overall (including competitors)	192
Summary	193
Analytics in Practice: Predicting the price of perils	194
Running Case Study: 4tE, part 9	197
Exercises	198
10 The Future of Data and Analytics	199
What will you learn from this chapter?	199
Technologies that have implications for the future of business analytics	199
Business analytics and you	202
Final thoughts	203
Analytics in Practice: Evolving analytics for augmented reality	205
Running Case Study: 4tE, part 10	206
Exercises	207
<i>Glossary</i>	209
<i>References</i>	213
<i>Index</i>	215
